Hale Bros., Santa Claus & Co.

San Francisco Will Be Glad to Hear That.

Here's a combination for the delight and profit of the entire community. Santa Claus has been keen to grasp the unique and commanding position held by Hale Bros. in California. He saw it was his quickest and surest way to reach the most folks.

With these six outlets—one here in San Francisco; another in Sacramento; one in San Jose; one in Stockton; one in Petaluma, and one in Salinas—where else is there an organization that comes in touch with so many people, and with the best class of people, too? He says that a store that goes so much out of its way to satisfy its customers must have an intelligent public.

So he heartily joins hands with us to spread comfort and good cheer.

Then what a great store of inspiration this is to Christmas givers! As careful and faithful as we have been to reflect the store on this page—we can't. At best we can only hint in a cold way of what's here. You must come in person if you'd get the full benefit of the help and service we are rendering; feel the enthusiasm that's flooding the store; drink in with your own eyes the brightness and beauty of everything; catch the spirit of good will expressed in myriads of ways.

Miss Hale's? You'll miss a Christmas treat if you do.

If you're out-of-town, then

Order by Mail—It's Safe and Quick.

Write for anything in this advertisement (or any advertisement) or anything you may think of. The selling for the next few days will be so fast that it's well to give us the second or even the third choice, in case what you are asking for is gone. You may want what everybody else wants. You won't get it if you don't get ahead of them.

That applies as well to city folks. No one should delay their buying a minute now. **TO-MORROW WILL BE BEST DAY OF ALL.** We'll get busier every day and the choosing get narrower after that. To make it as pleasant and convenient as we can,

We'll Be Open Evenings—Only Eight More.

Of the chief conveniences the store provides is **OUR STORE POSTOFFICE.** Customers may register their Eastern packages at same time they buy. Means another trip downtown, much waiting and crowding if you went to a city postoffice. Customers may also send **PACKAGES BY EXPRESS** at the same time they buy—one transaction.

Handkerchiefs

IN THEIR CHRISTMAS GLORY.

There's greater reason for you buying your holiday handkerchiefs at Hale's this Christmas than ever:

—More of them
—in broader variety.
—Fixed up in newer and more original ways.
Yet you pay no more than if you'd go where you'd not see a tenth as many.

Even some 12½c ones have deep Duchesse lace corners, while there are many

At 15c—Pure Linen—

At 25c—Many Favorites.

Some are embroidered with lover's knots; others with fleur-de-lis; others with butterfly and many with bow-knot patterns. The newest are those with Motif embroidered corners. Next to the embroidered ones comes the scalloped, and there is no end to lacy handkerchiefs, which are in highest favor. That's why we've been so careful to get so many of them.
