DELEGATES TO THE Y. M. C. A. CONVENTION AT MONTREAL, CANADA.—The delegates from the Y. M. C. A. of this city to the Twelfth Annual Convention of the Y. M. C. Associations of the United States and British Provinces met last evening at the rooms of the association and perfected their organization. The following gentlemen have been appointed: Rev. Byron Sunderland, D. D., Brig. Gen. C. H. Howard, Messrs. A. K. Browne, S. A. Terry, B. F. Winslow, S. S. Bryant, R. B. Taylor, C. B. Ramsdell, T. Little, G. H. Henderson, J. B. Sleman, Rev. Wm. S. Fort, Rev. G. M. Condron, C. A. White, J. A. Weidersham, O. Munson, E. B. Cutler, E. N. Wood, T. Remick, D. H. Bliss, J. A. Franz, J. N. Clark, J. T. Johnson, H. B. James, John A. Cole, N. Du Bois, Benedict Milburne.

Tickets for the round trip can be procured on and after Friday morning at the Baltimore and Ohio Railroad depot for $18, exclusive of the fare to and from Baltimore. The delegation will leave this city on Saturday, the 15th, at 4 30 p. m.; spend the Sabbath in Baltimore, and leave for Philadelphia at 7.50 a. m. Monday dine with the Philadelphia Association, arriving at New York at 5 30 p. m., and take the evening boat for Albany. Breakfasting at Albany, the delegation will proceed via Saratoga and White Hall; up Lake Champlain to Rouse's Point; thence to Montreal, arriving at the latter place at 11 p. m. on the 18th. They will proceed immediately to the Ottawa House or St. Lawrence Hall and register their names as delegates to the convention. All are requested to wear the customary white ribbon.

THE GENERAL ASSEMBLY OF THE PRESBYTERIAN CHURCH.—At the opening of the Seventh street Presbyterian Church (Island) last evening Rev. Dr. Gurley, of the committee who attended the general assembly of the church lately held at Cincinnati, made a verbal report, stating that the session was exceedingly interesting and harmonious; that the judicial business was committed to three different commissioners, their report being satisfactory to all concerned, and nothing referred to the general assembly.

The elders had also adopted a written address to all ruling elders throughout the country, which was to be disseminated among the churches. There was a discussion on the reunion of the two branches of the church, (old and new,) and a majority and minority report made. The majority report favoring a discussion of the subject among the churches, was adopted. The prevailing feeling in the assembly seemed to be the uniting of the two branches.

It was agreed that the next meeting of the General Assembly be held in this city; but Dr. Gurley stating that his church could not afford proper accommodations, it was reconsidered, and Dr. Sprague's church, Albany, N. Y., was selected as the place of holding the next annual meeting.

TO EXCURSIONISTS.—It is with pleasure that we again call attention to the facilities of the Potomac Ferry Company, under its indefatigable and enterprising president, Wm. D. Cult, esq., in furnishing their steamboats to excursionists promptly and at moderate prices. The steamer Wawaset can be chartered for excursions to Glymount and other points on the river, on application at the office of the company, foot of Seventh street. Citizens and strangers desiring a pleasant trip to Mount Vernon are informed that the Wawaset leaves the wharf, foot of Seventh street, Tuesday, Thursday and Saturday mornings at ten o'clock, a. m., returning at 3.30 p. m. The steamboats of the company still make their regular hourly trips between Washington and Alexandria from 6 o'clock, a. m., to 7 o'clock, p. m.

A STABBING AFFAIR.—Last evening, at about 8 o'clock, as several colored men were standing at the corner of Sixth and L streets, (Island), two white men came from the direction of Sixth street wharf. As they passed by the colored men, one of them attempted to trip one of the colored men off of his feet. This produced a few words between the parties, when one of the white men cut one of the colored men, named George William Henry Jones, in the right shoulder with a knife, making a serious wound about 2½ inches in length. The names of the assailants are unknown, but they work at the fish wharf.

THE FUGITIVE BURGLARS.—Yesterday morning King, Mortimer and Smith, alias Johnson, had a hearing before Justice Tucker in the guard-room of the jail, for burglary and the larceny of silver-ware, &c., from the dwelling of Mrs. Mary M. Joyce, Georgetown. The burglary was committed the night after they escaped from jail, and when recaptured and searched in jail a table knife belonging to Mrs. Boyce was discovered concealed in the bandages of King's sore leg. They were committed for court in this case also.

THE National Typographical Union, recently in session at Memphis, has adjourned to meet next June in Washington.

By the act approved June 17, 1843, the Secretary of the Senate is "directed to confine his purchases exclusively to articles of the growth and manufacture of the United States, provided the same can be procured of such growth and manufacture of suitable quality, and at reasonable prices, upon as good terms as to quality and price as can be obtained of foreign growth and manufacture." A preference will therefore be given to the productions of American industry; and all persons making proposals to so supply any article will state whether her the same is of the growth and manufacture of the United States.

The articles must be delivered at the office of the Secretary of the Senate at Washington, free of any charge for carriage, on or before the first day of October next.

Every article must be of the very best quality, unless an inferior quality is called for.

A sufficient specimen of each article proposed for (of paper half a quire, and of envelopes 25) is to accompany the proposal, and to be marked with the name of the proposer, and of paper the weight per ream. The whole of each article specified in the foregoing list will be deemed a class; and the person offering to furnish any such class at the lowest price (quality considered) will receive a contract for the same on executing a bond, with two or more sureties satisfactory to the Secretary of the Senate, for the performance thereof, which bond is to be filed in the office of the said Secretary within ten days after the proposal has been accepted.

If any articles contracted for should not be delivered within the time stipulated, or should be inferior in any respect to the sample, the bond of the contractor will be put in suit.

Proposals should be endorsed "Proposals for Stationery for the Senate," and be directed to the Secretary of the Senate, Washington.

Proposals and specimens must be delivered at the office free of charge.

Secretary of the Senate of the United States.

PROPOSALS.

ANTHRACITE COAL FOR THE NAVY.

NAVY DEPARTMENT,
BUREAU OF EQUIPMENT AND RECRUITING,
May 27, 1867.

Sealed proposals for furnishing Anthracite Coal for the Navy to be delivered during the fiscal year ending 30th JUNE, 1868, will be received at this Bureau until 10 a. m., 24th June, 1867.

These proposals must be endorsed "Proposals for Anthracite Coal for Steamers," that they may be distinguished from other business letters.

The offer must be for the delivery of 20,000 tons of 2,240 pounds.

The coal must be of the best Rock Mountain or Black Heath, or of a kind equal to them in all respects, for the purpose intended, which equality will be determined by a Board appointed by the Secretary of the Navy after the rejection of the bids.

The name of the coal proposed to be furnished must be stated in the offer.

It is to be delivered in lumps of suitable size for naval purposes, clean, of uniform quality, selected free from impurities, samples of which the contractor will be required to furnish such evidence as will be satisfactory, and be subject to such inspection as to quality and quantity as the Department may direct. The coal must be all reported by authority to the inspectors or inspectors to be appointed by the Bureau, who will have the right of peremptory rejection.

The coal is to be delivered on board vessels at such place in the port of Philadelphia as may be designated by the Bureau and in such quantities and at such times as, in the opinion of the Bureau, the exigencies of the service may require, commencing when the vessel is reported ready to receive cargo; furnishing, if demanded, not less than 600 tons per day, to be distributed to each vessel, as may be directed, until the loading is completed.

Proposals will likewise be received for the delivery of 12,000 tons of the same quality of coal, to be delivered in the port of New York, on board vessels as at Philadelphia.

In the case of failure to deliver the coal in proper quantity or the proper quality, and at the proper time and place, the Bureau will reserve to the contractor the right to purchase forthwith, at the contractor's risk and expense, that which may seem necessary to supply the deficiency.

Any demurrage or other charges to which the Navy Department may be subjected from delay in the prompt delivery of the coal by the contractors will be deducted from their bills.

The price must be for the coal delivered on board vessels, on the terms and conditions above stated, at the contractor's risk and expense, and without extra charge of any kind.

The offer, as required by law, must be accompanied by a written guarantee, signed by one or more responsible persons, to the effect that they undertake that the bidder or bidders will, if his or their bid be accepted, enter into obligation, at such time as may be prescribed by the Bureau, with good and sufficient securities, to furnish the supplies proposed.

No proposition will be considered unless accompanied by such guarantee, and the Department reserves the right to reject all the offers, if considered to be for the interest of the service to do so.

Two or more securities each in a sum equal to the amount specified to be paid, will be required to sign the contract, and their responsibility will be certified by the Assessor of Internal Revenue of the District in which they reside.

As additional and collateral security twenty per cent. will be withheld from the amount of all payments, which reservation is not to be paid except by authority of the Secretary of the Navy, until the contract shall have been in all respects complied with; and the remaining eighty per cent. or other amount that may be due upon each bill, will, when a proper certificate is furnished by the inspector, and the bill approved by the Bureau, be paid by such agents as the contractor may name, within ten days after the warrants for the same shall have been passed by the Secretary of the Treasury.

It will be stipulated in the contract that if default be made in the delivery of the coal, in the quantity or the quality, and at the place and time directed by the Bureau, then, and in that case, the contractor and his sureties will forfeit and pay to the United States, as liquidated damages, a sum of money not exceeding twice the contract price, which may be recovered from them, or any of them, according to the act or acts of Congress in that case provided.

Bidders, whose proposals shall be accepted, and sons other, will be notified, and, as early as practicable, a contract will be transmitted to them, which they will be required to execute within ten days after its receipt at the post office named by them.

The form of offer, guarantee, and certificate is herewith given:
