FARM AND GARDEN—*Hints for October, furnished by Mr. Morris, dealer in Trees, Vines, Seeds, &c., K street near Twenty-second, and Pennsylvania Avenue.*—**Potatoes** and corn, the last of the field crops, remain to be harvested, being the most laborious duties of the year, requiring much time and labor. Corn fodder for stock is more appreciated than formerly. Be careful that it is not wasted. For stock in winter it is next to timothy hay. The prudent farmer should have a good fodder-cutter and steamer. Cut fodder, with a little salt and ground corn, is an excellent cheap food for stock. Hand in your orders for **trees and vines immediately. Keep up your orchards; the demand for fruit is always increasing, especially in localities near the city.** Trees and vines should be ordered at once. Keep lumps of salt, so that your cattle and stock can take a lick whenever they like; this will result better than the feast and famine plan. Mutton is considered by many the **healthiest meat we have.** It is a profitable kind of stock to raise for food as a partial substitute for pork, and more delicate for eating and soup. The large breed of sheep, in favorable localities, can be kept at greater profit than the others, and are more prolific in offspring and in wool than the smaller breed. There is greater economy in cooked than raw food in fattening animals. Roots need pulping or cooking, but where they are used as appetizers or regulators for horses and like stock, can be fed raw. Manure, fuel, and live stock are not benefited by exposure. All the soap suds and waste water from the house will do the manure heap no injury. Kitchen garden vegetation is almost closed. Weed and trim spinach; retain the best plants, five inches apart; if weeds are allowed to cover, it will rot.

Transplant lettuce, also young cabbage plants for early next summer cabbage-plant, where they are to remain during winter, in sheltered, warm situation; also cauliflower, which being more tender, requires a good covering and protection of glass. Earth up and tie all the late crops; continue to tie up endive. Winter dress asparagus beds, cut stalks close to the earth, carry them to the manure-heap, or burn; clear the beds of weeds and apply a heavy coating of well-rotted manure and salt. Continue to earth up celery carefully. Clear your strawberry beds of weeds, and give them their winter dressing. Cut the runners off close to the plants. In making hot-beds, the preparation of the manure is very important; it should be thoroughly worked before using; if fresh from stable yard and dry, water it, and throw lightly together to ferment. In four or five days it should be completely turned, shaken, and mixed, keeping the latter in the centre of heap; a second turning and watering and the bed can be made. Situation, dry under-ground, sheltered from the north, and exposed to the south; frame four feet high; sash three inches wider than the frame; manure firmly pressed in to the bottom; keep frame closed until the heat rises, put five inches of sifted sand or other soil on surface; put the bed in three or four days if it be time; but air, slight and dry, where danger from steam exists. If sand and other soil be drawn from sides of bed, replace.

For seeds nothing further is necessary, now to pulse or peas planted in the beds; after a while it will be well to apply some manure about a foot in width around the bed. For most seed a slight covering when planted is sufficient. The artificial egg-shelves for hens in warm pen prepared, and in some farms to feed first apart, about 18 inches apart in the pen. About 10 or 12 plants to the acre; allow them to spread, reserving a pathway only. For fall planting order at once. Raspberries are planted in rows, 4 feet apart; 2 feet apart in row. In the spring the canes which one fruit should be cut close to the ground, and the young canes cut back one third of their growth for ground should be kept loose and well weeded before and when fruiting. For fall planting order at once. As one universal rule eradicate weeds whenever opportunity offers, though be afraid of losing the prize for raising the largest and greatest quantity of weeds on a given space. Soft soap and lye applied with a white-wash brush to trunks of trees, heating on with much force upon the bark, is beneficial; throw the lye and soap in with a syringe applied below where the trees won't stand a syringe.

Mr. Morris is prepared to furnish all kinds of fruit trees, and small fruits and vines, from carefully selected nursery stock, warranted to be the best of the kind and true to name, of peach, pear, apple, plum, cherry, &c., but to have orders established early, that the trees, as well as himself, the orders should be handed in early in October, as they have to be filled in rotation. The time for transplanting is very short, but those who avail themselves of it in season, have a great advantage over those who wait until the following spring. Persons who intend ordering should write early to get in time for being in the fall orders. Parties wanting bouquets will please send their orders the evening previous to the day they require them, or early in the morning before the snow evenings. Bouquets furnished whatever price the purchaser may wish to have it. The flower season until a severe frost, is the time for transplanting grass seed, &c.

PROPOSALS FOR ARMY TRANSPORTATION.

HEADQUARTERS FIFTH MILITARY DISTRICT,
OFFICE OF CHIEF QUARTERMASTER,
AUSTIN, TEXAS, August 21, 1868.

Sealed proposals, in duplicate, will be received at this office until TUESDAY, the 20th day of October next, at 12 o'clock, m., for transportation of military supplies, from the date of the contract to the first day of January, 1869, on the following route, viz:

Route No. 6—From Marshall, Texas, Galveston, Texas, and from Bryan or Courtney, or the then terminus of the Texas Central railroad, to all or any points in Texas east or northeast of the Brazos river and south of the Red river, or between any points in said district.

The contractor to obligate himself to have a competent agent to represent himself or his firm at Marshall, Galveston, and Bryan or Courtney, or at the terminus of the Texas Central railroad, upon whom requisitions can be made, and who must be prepared to transport all stores to and from each and every point where troops are stationed or where it is found necessary to place Government stores, provided the said agent is duly notified in writing by the officer or agent of the United States at least ten days previous to such shipment.

Bidders to state the rate per one hundred (100) pounds per one hundred (100) miles at which they will transport said supplies.

Bidders should give their names in full, as well as their places of residence, and each proposal should be accompanied by a bond in the sum of ten thousand (10,000) dollars, signed by two or more responsible persons, guaranteeing that, in case the contract is awarded for the route mentioned in the proposal, to the bidder, the contract duly executed, and entered into, and good and sufficient security furnished by said parties, in accordance with the terms of this advertisement.

Transportation of the troops from the contractor will be for ten thousand (10,000) dollars.

Satisfactory evidence of the solvency of each bidder and proposal offered as security will be required.

A copy of a contract may be seen at the Depot Quartermaster's Office, San Antonio, and at the office.

The right is reserved to reject any or all bids if deemed to be disloyal.

Proposals must be endorsed "Proposals for Army Transportation, Route No. 6," and addressed to the undersigned.

HARBOUR'S

ALL-HEALING

LOTION,

A certain, reliable, and speedy cure of Rheumatism, Neuralgia, Headache, Toothache, Pains in the Side, Breast, or Back; Partial Deafness; Mothers will find it an Invaluable Friend for Caked Breast; Certain Cure for Chilblains, Frozen Feet, Cuts, Burns, Bruises, Scalds, Sprains or Strains, or any local aches or pains of the Nervous or Muscular system.

This highly-prized and extraordinary Medicine will not fail to *effectually* cure all the diseases enumerated above, no matter of how long standing, provided the patient is not hopelessly bed-ridden. One application will often cure the worst cases of Neuralgia or Rheumatism, and in all cases it will give instant relief.

From the unbounded confidence in this Lotion, and the perfect and thorough knowledge of its power to cure the diseases named, it is done so gives entire satisfaction, after a fair and proper trial, I pledge myself to refund the money received on the return of the empty bottle.

I do not pretend to be the author of this preparation, having obtained the recipe from an old Indian after having travelled among the red men for several years.

After having performed at least one hundred most wonderful cures of Rheumatism, Neuralgia, &c., &c., I have been induced by my friends to put it before the public, and I now make the proposition:

That in any case of Sick or Nervous Headache or Toothache, should I fail to cure in from two to five minutes with my All-Healing Lotion, I will forfeit the sum of five dollars.

Dr. Harbour could add numerous certificates of wonderful cures of the diseases stated above, which he deems unnecessary to append, excepting a few from persons of well-known integrity.

One bottle of this Lotion will serve to convince any person, who will give it a fair trial, of its superior medical virtues.

WASHINGTON, D. C., *July 3, 1867.*

DR. HARBOUR.—*Dear Sir:* After suffering with an acute attack of Rheumatism for several weeks, and trying everything within my reach to no avail, hearing of your All-Healing Lotion, I was induced to try a bottle, and, I am happy to say, after two applications, I was well enough to attend my business, which I have not done for several days.

Yours obedient servant, JAS. A. GERRE,
No. 95 Second Street, between Massachusetts Avenue and G Street, Washington, D. C.

DR. HARBOUR: I cheerfully add my testimony to the efficacy of your invaluable Lotion. I have had occasion to use it in my family for the relief of Neuralgia and Nervous Headache, and have found it to effect an almost instantaneous cure. I regard it as being the best preparation for the above affections that I have ever tried.

HAGERSTOWN, MD., April 29, 1872.

DR. HARBOUR.—*Dear Sir:* For the benefit of the afflicted, permit me to add my humble testimony to the value of your All-Healing Lotion in curing Deafness caused from alterations of the secretions in the head, which was my case. In the fall of 1866 I noticed that my hearing was becoming somewhat impaired, as I thought, from cold, and kept growing gradually worse, notwithstanding I had the best medical attendance to be had in this place. I became hopelessly deaf, and despaired of ever hearing a sound. When you visited our town, I was told that you professed to cure Deafness, and I resolved to try your medicine, and, I am happy to say, after using one bottle, according to your directions, I was entirely restored to my hearing, as hundreds in this neighborhood can testify.

Yours, respectfully, R. W. TULL.

DR. HARBOUR.—*Dear Sir:* I take pleasure in certifying that I have used your All-Healing Lotion for a chronic stiff arm that I had not been able to use freely for five years, in consequence of being thrown from a horse, and, after trying all the doctors in this town, and spending nearly three hundred dollars, without avail, I was induced to try your preparation, which has given me the entire use of my arm, after using two bottles only. Persons wishing to satisfy themselves further may do so by calling on me.

Yours, respectfully,
JAMES S. CUNNINGHAM.

WASHINGTON, D. C.

DR. HARBOUR: Permit me to tender you my sincere thanks for the extraordinary cure your All-Healing Lotion has performed.

For several years I have been afflicted with the Neuralgia, with but temporary relief from the bottle. I had given up my suffering, and tried your All-Healing Lotion, which, in four weeks, performed a complete cure.

Yours, respectfully,
J. J. JACOBS, *Baltimore, Md.*

BALTIMORE LOCK HOSPITAL.

ESTABLISHED AS A REFUGE FROM QUACKERY.

THE ONLY PLACE WHERE A CURE CAN BE OBTAINED.

DR. JOHNSTON has discovered the most certain, speedy, and safe original remedy in the world for Weakness of the Back or Limbs, Stricture, Affections of the Kidneys and Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight or Giddiness, Diseases of the Head, Throat, Nose, or Skin, Affections of the Lungs, Stomach, or Bowels—those terrible disorders arising from the Solitary Habitual Youth—those secret and solitary practices more fatal to their victims than the song of Syrens to the Mariners of Ulysses, blasting their most brilliant hopes or anticipations, rendering marriage, &c., impossible.

YOUNG MEN

Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit, which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening senates with the thunders of eloquence, or wielded the sceptre of the living lyre, may call with full confidence.

MARRIAGE.

Married Persons, or Young Men contemplating marriage, being aware of physical weakness, or any debility, deformities, &c., speedily cured.

He who places himself under the care of Dr. J. may religiously confide on his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS.

Impotency Cured and Full Vigor Restored.

This is the only disease which renders Life Miserable and Marriage Impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Men who thus understands the subject will stand to deny that the power of procreation lost sooner by these fearful habits than by the present. Besides being deprived the pleasure of healthy offspring, the most serious and destructive symptoms to both body and mind arise. The system becomes deranged, the Physical and Mental Functions weaken, Loss of Physical Energy, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility, a Wasting of the Frame, Cough, Consumption, &c.
