CARTER'S COMBINED

Writing and Copying Ink.

A PERFECT ARTICLE.

Almost every one is searching for a perfect writing ink, and here it is. Ten years of constant use by many of the largest banking institutions and commercial houses in the country, by all the Government Departments, and by thousands of individuals for private correspondence has established the superiority of Carter's Ink beyond question.

These are some of the advantages of this Ink:

1st. Being equally good for book & writing, ordinary writing or copying, it does away entirely with the inconvenience of using two kinds of ink.

2d. It flows from the pen as freely as any writing fluid.

3d. It gives a clearer, better copy, with less spreading, than the best of copying ink.

4th. It is permanent, and can not be erased even with acids.

5th. It does not fade, but grows blacker with age.

6th. It cannot mould, and consequently there is no waste.

7th. It does not thicken by exposure to the air.

8th. It will stand freezing without injury, and may be reduced with water without precipitation.

9th. Unlike most inks, it does not gum, but is free, easy to write, and has a beautiful dark green, but changes in a very short time to a brilliant jet black.

10th. It is cheaper than any other ink, because a dollar's worth will go more writing.

11th. It is the only ink adapted to the most delicate writing, and always makes the mark.

12th. It is warranted to flow as freely as any writing fluid in use; to give as perfect a copy as any copying ink, and not to thicken or mould.

We are the Sole Agents for the sale of this Ink in this city, and substantially recommend it to our customers and all others.

It is put up in Quarts, Pints, Half Pints and Ounces. ASK FOR CARTER'S INK.

PAIN KILLER. PERRY DAVIS'. 1840 1870.

Time tests the Merits of all Things.

☞ FOR THIRTY YEARS ☜

PERRY DAVIS' PAIN KILLER,

Has been tested in every variety of climate, and by almost every nation, and has proved to mariners, the almost constant companion and inseparable friend of the missionary and the traveler, as one of the articles they can ill afford to do without. On rivers without a doubt it should travel on our Lakes as rivers without.

It is a speedy and safe remedy for burns, scalds, cuts, bruises, wounds and various other injuries, as well as for all pains and aches to which the human frame generally, and is admirably suited for every race of men on the face of the globe.

Be sure you call for and get the genuine Pain Killer, as many worthless nostrums are attempted to be sold on the great reputation of this valuable medicine.

☞ Directions accompany each bottle.

Price 25 cts., 50 cts., and $1 per Bottle.

Sold by all Medicine Dealers. ap13-eod1w&W

☞ ALLEN'S LUNG BALSAM!—The great remedy for the cure of Consumption and Diseases of the Lungs. Its use is a proof of its great value. The extraordinary healing properties of this remedy are expressed by those who have used it. Their testimony will be found in the wrapper which can be had of the agents where the medicine is for sale. Coughs and Colds, however distressing, are broken up in a speedy manner. Asthma finds a specific influence on the lungs, so that the mother and physician are easily exonerated.

Also, Allen's Balsamic Syrup of Opium is any form. It is perfectly harmless for the most delicate child. It is everywhere in good demand, and gives good satisfaction. Physicians who have failed to cure their patients, recommend it to others before they give the case up; as we know very many valuable lives have been saved by being persuaded to try it a trial.

Don't despair because all other remedies have failed, but try this remedy and you will not be disappointed.

The proprietors of this valuable Balsam take pleasure in calling to the attention of all Medicine Dealers, dealers, that they procure a supply of it, and recommend it to their affiliated patrons and friends. It will stand the test for merits, as has the celebrated Pain Killer.

It will Cure when all other fail.

Directions accompany each bottle. For sale by all Druggists. mh31-eod4w

☞ HELP FOR THE MISERABLE.

No wonder that the face of the dyspeptic has a dreaded, gloomy, despairing look, it is painful to see. No wonder that the miserable victim of indigestion is fretful, irritable, and unusual. Whenever the cause of all this misery, the tormenting complaint obscurely, and with unrelenting severity, fastens itself on a victim. But why should human suffering continue, when it has been severely tried, when an absolute specific for the disease is known to exist? Everywhere within the limits of civilization in this hemisphere Hostetter's Stomach Bitters is celebrated for its power to cure dyspepsia, and there is no case in which it has been administered in vain, has yet to be written. The sickness at the stomach, the sense of weight after eating, the feeling of emptiness and hollowness before eating, and of oppression afterwards, the dizziness of the pulse, the nervous agitation, the sense of weakness attendant on exertion, the weariness of life, and indifference to all its pleasures, which are among the symptoms of the disease, are speedily cured by this invigorating tonic. The system is invigorated by the tonic operation of this pleasant vegetable materative, which seems to renovate and quicken all the dormant forces of the system, and renews the mind from the thralldom of despondency, while it is a decided improvement to the digestive and secretive functions. In ordinary cases a few weeks continue to complete the cure, but when the disease is complicated, as it often is, with torpidity of the liver, severe constipation, impurity of the blood, and a sluggish circulation, a longer time may be required. Perseverance, however, and the result is certain. An encouraging improvement will be perceptible from day to day, and the convalescent, knowing and feeling that he or she is on the high road to health, will await the happy issue with comparative patience. ap18-eod6t

G. W. Scofield, of Pennsylvania, entitled an act amendatory of homestead act of May 20, 1862, in favor of honorably discharged soldiers; a measure of very much importance to those soldiers contemplating settlement upon the public lands. A hearing upon this bill is to be granted Mr. Mair this week before the Public Land Committee, to whom it was referred.

WALL'S OPERA HOUSE.—Old Uncle Tom, whom the majority of the people imagined was dead and buried long ago, has proved that he "still lives," and during this week will flourish at Wall's in the person of Geo. Kunkel, who, by-the-way, gives a faithful and correct representation of that persecuted individual. The piece is well put upon the stage, and the characters are generally well sustained. Mrs. Forrest makes an excellent Topsy, and little Gertrude as Eva is really remarkable. Although "Uncle Tom's Cabin" has been played so many thousand times, still there are some who have never seen it, and to such we say improve the present opportunity.

NATIONAL THEATRE.—The increased audience at this temple of Thespus last night, shows an awakened interest in the Shakspearian representations by Mr. Neil Warner. This unassuming candidate for popular appreciation, as a tragedian, has thus far achieved a great success. His Othello and Hamlet, as rendered in the initiatory performances in his present engagement, stamp him as an actor of genius, talent, and mental and physical capability as an actor.

Miss Lillie Eldridge, a young lady who, as it were but yesterday was a little, sprightly *soubrette*, performed the part of Ophelia, with much credit. To night Bulwer's "Richelieu" will be presented.

THE COMMITTEE ON COMMERCE met yesterday morning to hear argument in opposition to the bill introduced by Gov. Swann last week to allow the city of Baltimore to levy a tonnage tax of two cents per ton on all vessels entering that port, for the purpose of dredging the harbor of that city. R. S. Davis, of this city, counsel for the ship-owners' and ship-captains' associations of New York, appeared before the committee in opposition to the bill. Also, H. R. Edwards, for the Philadelphia ship-owners. After argument, the committee unanimously agreed to report against the measure. The object of the bill was to continue in force an act of Congress which allows the city of Baltimore to impose and collect this tax, which act expires on the 3d of March, 1871.

NO IMPORTANT FACTS in relation to the Howard investigation were developed before the Committee on Education and Labor at its session yesterday.

Mr. H. R. Searle, architect, was recalled, and testified generally as to the quality of the material used. He believed the building block would, if sufficiently hardened by time, make a substantial building; but thought those in the university building were used too new and green. It was his belief that the fall of the hospital wall was occasioned by the frost rather than any imperfection in the material. He is one of the owners in the Patent Building Block Company.

Messrs. A. B. Mullett, supervising architect of the Treasury, and Edward Clark, architect of the Capitol, were also examined, and testified that they did not consider the building block in question a safe building material. Mr. Mullett had examined the buildings at the time the hospital walls fell, and believed its fall was occasioned by the imperfect quality of the material.

NEW CANCELLING MACHINE FOR STAMPS.—The Commissioner of Internal Revenue yesterday issued an order for the use of another cancelling machine for stamps, the invention of James E. Thompson, of Buffalo, and known as Thompson's national stamp canceller. The Commissioner appears to be desirous of obtaining some means of cancelling stamps whereby they cannot be removed from the original document and sold or reused, as is now well understood to be the case, and resulting in immense loss to the revenue, estimated at four to five millions per annum. This canceller seems to be entirely adapted to the use for which it is designed. It consists of three revolving discs, upon which is raised figures are the date, day, month and year, respectively, and which cut the date entirely through both the stamp and document, at the same time embossing the words "internal revenue" around the stamp. It is impossible to take a stamp thus canceled from one instrument and use it upon another, as the date fully identifies the stamp with the instrument, and the cancellation cannot be removed. We are glad to see that the Commissioner is fully alive to the importance of securing the best and most effectual method of collecting the revenue from stamps.

THE OHIO LEGISLATIVE EXCURSIONISTS arrived this morning at half an hour after midnight, and were met at the depot by a large number of Ohioans resident in this city. Among others were Senator Sherman, General Garfield, Mr. Mungen, General Fitch, and Major Tisdale.

Conveyances had been provided for the whole party by the committee of arrangements, and, with the exception of a few who were taken to the private residences of friends, the whole party were conveyed to the following hotels: National, St. James, Seaton, Kirkwood, and Willard's, where accommodations had been engaged.

Quite a number of ladies accompany the excursionists, any sixty or seventy. At 10 o'clock, sharp, this a. m., the visitors will be received by the President, and will be introduced by Senators Sherman and Thurman and Representative Schenck. After their visit to the Executive, they will visit the Capitol, public buildings and other objects of interest.

To-morrow the steamers Wawaset and Arrow will convey the tourists to Mount Vernon. A band of music for each boat has been secured, and a collation on board will be provided by Mr. Henry D. Cooke.

In the evening the reception ball, which promises to be a grand affair, is to come off. President Grant has signified his intention to be present with his family.

The party will be more at liberty on Friday to pursue their individual inclinations until the departure of the train which is to convey them home, which will follow the 3:50 p. m. train on Friday.

THE MUNICIPAL CAMPAIGN.

It is very evident that the sentiment of all our best citizens is, in a word, anti-Bowen and anti-City Hall ring. The Reform Republicans are gaining strength daily, and are bound to win. We regret, however, that there has not been more concentration of the Reformers, in order that Mr Bowen and Mr. Cook might experience a Waterloo defeat. We have faith to believe, however, that a satisfactory result will yet be reached despite the haste with which Mr. Emery was put in the field.

Mr. E.'s letter of acceptance is a manly, straightforward document, and we believe he means all he says, but the Richards men are clearly not disposed to submit to the snap judgment that placed him in the field. They demand a show for their favorite, and they are right in making the demand; and Mr. Emery and his friends dare not persistently disregard the loud voice for Richards that came up from the First ward on Monday night, and the louder response that was given last night by the gallant Republicans of the Seventh ward, under the lead of Mr. F. A. Boswell. Like all hasty actions that of the Union League meeting was unwise, and the leaders in that meeting cannot fail to be convinced that some respect must be paid to the Richards men by consulting them yet.

The Mohawk river is higher than ever known before, and much damage has been done. People are moving out of the upper stories of their houses, and some are compelled to leave in boats.

The Mississippi river, at Dubuque, is one inch above the extreme high-water mark of 1869. Many machine shops and manufactories in the lower part of the city have been obliged to cease work in consequence of the water entering the lowing stories. It is thought that the water has nearly reached its highest point.

The Baptist Educational Convention.

NEW YORK, April 19.—The National Baptist Educational Convention met in Brooklyn today, the Hon. Wm. Kelley presiding.

Professor Green, of Brown University, read an appeal to the leading men of the country for the endowment of Wooster Academy.

Addresses were also delivered by Rev. Dr. Roseworth, on "The Sphere and Duties of Educational Societies;" by Professor Loomes of Lewisburg University, on "The Duty of the Church to Provide the most Advanced Teachers in the Department of Science;" by Rev. Dr. Hovey, on "The Question of Conferring Fellowships for Eminent Scholarship," and by Professor Anderson, of Rochester University, on "The University of the Nineteenth Century."

The Fenians.

NEW YORK, April 19.—The O'Neil Fenian congress assembled in Masonic hall to day. Between fifty and sixty delegates were present, representing circles in both Eastern and Western States. The credentials of the delegates from the Chicago convention were referred. Their admission is considered doubtful. The further proceedings are unknown; but a report is current that some twenty or thirty prominent officers will leave
