BALTIMORE MARKETS.

BALTIMORE, January 3.—*Breadstuffs.*—Flour Market still steady and firm, though only special sales. Sales, part for export, of 1,500 bbls. city, Western Super, common, at $4.50, good at $4.75 do. Family at $5.25, Howard Street Extra at $7.50, and Family at $8.50 per bbl.

Wheat.—Market firmer, particularly for Pennsylvania red, which sold at $1.30@1.40, an advance of 2 to 4 cents per bushel. Sales also of Western red at $1.38, and Southern do. at $1.30@1.35.

Corn.—Active again, though prices are a little off. Sales of yellow at 65@66 cents, and Western mixed at 64@65 cents; white 65@66 cents.

Rye.—Steady and firm at 93@94.

Oats.—Firm. Sales at from 52 to 53 cents, but strictly prime would bring 55 cents per bushel.

Cotton.—Market continues very strong and buoyant, but it is quiet for the moment, the trade generally being engaged in closing up accounts and settling the business of the past year, and just now few parties dared to make new engagements. Business, however, is expected to revive shortly, for there is first hands about 25,000 bales. Rio, but there is no pressure to sell, and some holders refuse to name prices. We quote ordinary, 19; Adams, 19½; middling, 20; middling fair, 21; good fair, 21½; fine, 22; extra fine, 23; fancy, 24; ordinary do., and dirty gold as ranging from 18 to 19 cents, all cash.

Provisions.—There is more doing in Provisions, and the market may be written rather firmer in tone, especially for Western. We quote sales of Mess Pork at 21 cents, and Sides at 6¼ cents for rib, and 6¾ cents for clear rib; cured hams would, however, command 1½ to 2 cents above these figures. We quote Cut Shoulders at 5¾@5¾ cents; rib sides at 6 cents; clear rib do. at 6¼ cents, and Hams at 12@13 cents for new, and 14 to 15 cents for old. We quote new Western at 62 cents. Mess Pork—We quote new Western firm at $22 per bbl. Dressed Hogs are very dull. We quote sales of Western at a range of 5¾@6 cents, and we quote country lots clear of sale at 5¾@6¼ cents.

Sugar.—The market is very dull, but prices nominally unchanged, and we still quote as follows, viz: For refining grades Cuba and Porto Rico, 9@9¼ cts.; grocery grades, 9¾@10 cents; choice grades, Porto Rico, 9¾@10¼ cents. Demerara vacuum pan 10@10½ cents, and new crop New Orleans, grocery grades, 9@9½ cents.

Molasses.—Market weak and lower. City offered at 34 cents without buyers, and we quote nominally city and Western at 34 cents per gallon.

(Extracts from letters.)
"It is a grand achievement in pharmaceutical chemistry, and it is not strange that the medical and dental professions so freely subscribe to the superiority of your BOROBALSAMINE over the alcoholic and fatty mixtures heretofore employed. This is the first healing antiseptic I have seen to which no objectionable properties attach. D. P. HICKLING,
Prof. Pharm. in the Ph. Dep't of Georgetown College.
"DEAR SIR: I have given your CLINICAL BOROBALSAMINE a thorough and satisfactory trial, and am much pleased with its effects, particularly the treatment of indolent ulcers, cancer, caloers, etc. I have heretofore prescribed carbolic acid preparations, but its very unpleasant odor prevents a portion of patients from using it. Your BOROBALSAMINE, on the contrary, is pleasant and odoriferous, and its antiseptic properties rather surpass those of the agents we have been using. It is an excellent disinfectant.

JANUARY

INVESTMENTS.

The Northern Pacific Railroad Company offers to the public an investment security which combines the ready negotiability, the convenience and the high credit of a first-class Railroad Bond, with the solidity and safety of a Real Estate Mortgage on Land worth at least twice the amount loaned.

Traffic. As officially reported, the gross earnings of the present Pacific Railroad (Union and Central) for 1871, the second year of through business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 45 per cent. is from Local business, and, it is stated, fully 55 per cent., or nearly Nine and a Half Millions, are net over operating expenses.

An equal traffic on the Northern Pacific Road will pay a dividend of more than 10 per cent. on its total cost. With its great and unquestioned advantages in distance, grades, climate and tributary fertile country, the Northern Pacific is assured of a vast and profitable business from the outset, with a large increase for the future.

The Value of Land Grants. The average price at which the twenty-six leading land grant railroads have thus far sold their lands is $7.54 per acre—the highest average of any grant being $13.26, and the lowest $2.07. With few exceptions, the average selling price has steadily increased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable than those of most other grants; but said at the general average of $7.54 per acre, they will yield more than $101,000 per mile of road—more than three times the possible cost of construction and equipment; or, at the lowest average of any grant, ($2.07,) they will purchase more than $70,000 per mile. These facts regarding Pacific railroad earnings, and the market value of Railroad Lands, as shown by actual sales to settlers, show the three-fold security of Northern Pacific Railroad bonds.

Construction. The road is now completed across Minnesota, (330 miles); work is progressing westward through Dakota, and 60 miles are under construction on the Pacific coast. Including purchased lines, the Northern Pacific Company now has under its management 550 miles of finished track. Contracts are let for the construction of 650 miles more, to be finished before the close of 1872.

The Land Grant Bonds. The first mortgage bonds of this company, which, after full investigation, we strongly recommend as a reliable and unusually profitable investment, and which now stand among the solid and favorite securities of the country, have the following leading features:

1. They are exempt from United States tax; the Principal and Interest are payable in gold—the principal thirty years, and the interest semi-annually at the rate of 7 3-10 per cent. per annum. Denominations from $100 to $10,000. Present selling price—par and accrued interest in currency.

2. The bonds are a first and only Mortgage on the Road, its Equipments and Earnings, and also on a Land Grant which on the completion of the road will average 15,000 acres to each mile of track.

3. They are at all times receivable at 10 per cent. premium ($110,) in payment or exchange for the Company's Land at market prices—a provision which practically gives the holder the power of foreclosure at will.

4. The proceeds of all sales of Land are required to be devoted by the Trustees of the bondholders, Messrs. Jay Cooke and Adams Tompson, as a Sinking Fund to the purchase and cancellation of the first mortgage bonds, or temporarily to the payment of interest thereon if necessary.

Exchanging 5-20s. In view of the ability and fixed policy of the Government to call in its 5-20s and substitute a low-interest bond—$140,000,000 having been called in for cancellation since September 1—many holders of 5-20s are exchanging them for Northern Pacific, thus adding to their principal the present premium on Government Bonds, and increasing their yearly interest income nearly one third.

All marketable stocks and bonds will be received at current prices in exchange for Northern Pacific Seven Thirties without expense to the investor.

"In view of the fact, it becomes important that others of 5-20s should avail themselves of the present favorable opportunity of exchanging their securities for a.

BOND OF EQUAL SAFETY.

Many holders are exchanging them for

Northern Pacific Gold 7-30s

at a large profit.
