BALTIMORE MARKETS.

BALTIMORE, November 8.—Breadstuffs.—Flour.—The sales reported on Change amounted to only 300 bbls, as follows: 100 bbls choice Western Super at $4.62½; 200 Western Family at $5.50@5.50; 100 Howard Street Extra at $5.50, and 100 do Family at $6. We note a sale of 100 bbls Rye Flour at $5.25.

Wheat.—The sales include 600 bushels Western red at $1.70; 1,200 bushels choice Maryland white at $1.80; 1,000 do inferior to prime do. at $1.75@1.80; 1,000 bushels do amber at $1.80@1.85, and 3,000 do good to prime red at $1.80@1.90.

Corn.—The sales of Southern embrace 700 bushels old White at 61 cents for inferior; 4,000 do new at 56@60 cents, latter for very dry; 1,400 bushels old yellow at 66@68 cents, and 500 bushels new do. at 57@58 cents. Western mixed in elevator was in fair demand, with little offering, and we quote at 48@49 cents; 40¾ bushels new Western on track sold at 49 cents.

Oats—Were dull and heavy. The receipts to-day were limited to 2,300 bushels Southern, which was all sold at 41 cents. We quote Western at 38@39 cents for mixed, and at 40 cents for bright.

Rye—Is in fair request and firmer. We note sales to-day 800 bushels at 85½ cents, and quote at 80@85 cents.

Provisions.—We learn to-day of a sale of 800 tierces prime Western steam Lard at 54½ cents, which is ¼ advance on last sale, but the remainder of the produce is quiet, with little doing. We quote Bulk Meat at 5@5½ cents for Shoulders, and at 5½ cents for clear rib sides. Bacon is dull, and dealers show a disposition to move off their old stock. We quote Shoulders at 5@5½ cents; rib Sides at 10¼ cents; clear rib do. at 10¾ cents, and new uncovered Hams at 13@13½ cents. New York is firmer and firmer, with sales at 13½@13¾ cents for Hams.

Sugars.—We quote prices as follows: Cuba and Porto Rico fair to good refining at 7¾@8¼c; Sugar House Molasses fair to good refining 7¼@7½c; Fine to prime No. 12, 8¼ cents; Porto Rico grocery 10@10¾c; Demerara vacuum pan, 10¼@10¾c, and New Orleans grocery 7¾@8¼ cents.

Refined Sugar.—We quote Hards at 12¾ cents for crushed and powdered, and 12¼ cents for granulated, which are very common. Soils are quoted at 11¾@11¾ cents for A white. Yellows are very firm at 10¾@11¼ cents.

Molasses.—The market for High Wines is firm, with a light stock. We note sales to-day of 30c bbls. Western at 35 cents, and quote small lots at 36@38½ cents.

New 7-30 Gold Loan

OF THE

NORTHERN PACIFIC RAILROAD CO

Secured by First Mortgage on Railroad and Land Grant.

SAFE! PROFITABLE! PERMANENT

JAY COOKE & CO.

Offer for sale at par accrued interest the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They are free from United States tax, and are issued at the following denominations: Coupons, $100, $500 and $1,000; registered, $100, $500, $1,000, $5,000 and $10,000.

With the same entire confidence with which we can recommend Government bonds to Capitalists and people, we offer the fullest investigation, recommend the Northern Pacific Railroad bonds to our friends and the general public.

GOLD PAYMENT.

with principal and interest are payable in American gold coin, at the office of Jay Cooke & Co., New York City—the principal at the end of 30 years, and the interest (at the rate of seven and three-tenths per cent or annum) half-yearly, first of January and July.

PERFECT SAFETY.—The bonds we are now offering are secured by a first and only mortgage on all the property and rights of the Northern Pacific Railroad Company, which will embrace on the completion of its work:

1. Over Two Thousand Miles of Road, with rolling stock, buildings, and all other equipments.

2. Over Twenty-two Thousand Acres of Land to every mile of finished road. This land, agricultural, timber and mineral, amounting in all to more than Fifty Million Acres, scattered in alternate sections, reaching twenty to forty miles on each side of the track, and extending in a broad fertile belt from Wisconsin through the richest portions of Minnesota, Dakota, Montana, Idaho, Oregon, and Washington, to Puget Sound.

While the Government does not directly guarantee the bonds of the road, it thus amply provides for their full and prompt payment by an unreserved grant of land, the most valuable ever conferred upon a great national improvement.

THE MORTGAGE.—The Trustees under the Mortgage, are Messrs. Jay Cooke, of Philadelphia, and Edgar Thomson, President of the Pennsylvania Central Railroad Company. They will directly and permanently represent the interest of the First Mortgage bond holders, and are required to see that the *proceeds of land sales are used in purchasing and cancelling the bonds of the Company* if they can be bought before maturity at not more than 10 per cent. premium; other wise the Trustees are to invest the proceeds of land sales in United States Bonds or Real Estate Mortgages for the further security of Northern Pacific bond holders. Also, that they have at all times in their control, as security, at least 200 acres of average land for every $1,000 of outstanding first mortgage bonds, besides the railroad itself and all its equipments and franchises.

PROFITABLENESS.—Of course nothing can be safer than the bonds of the United States, but as the Government is no longer a borrower, and as the Nation's present work is not that of preserving its existence, but that of DEVELOPING A CONTINENT, we remind those who desire to increase their income and obtain a more permanent investment while still having a perfectly reliable security, that

United States 5-20's at the average premium yield the present purchaser less than five per cent. gold interest, while if they be redeemed in five years, and specie payments be resumed, they would really pay only 4¾ per cent., or if in three years, only 3¾ per cent., as the present premium would meanwhile be sunk.

Northern Pacific 7-30's selling at par in currency yield the investor 7 3-10 per cent. gold interest absolutely for thirty years, *free from United States tax;* $1,100 currency invested now in United States 5-20's will yield per year in gold—say $62; $1,100 currency invested now in Northern Pacific 7-30's will yield per year in gold $80.30. Here is a difference in annual income of nearly one third, besides a difference of 7 to 10 per cent. in principal, when both classes of bonds are real ized.

THE ROAD NOW BUILDING.—Work was begun last year on the eastern portion of the line and the money provided by the sale to stockholders of scrip and land grants of the Company's bonds, to build and equip the road from Lake Superior across Minnesota to the Red River of the North—225 miles. The grading on this division is now well advanced, the iron is being rapidly laid; several thousand men are at work on the line, and about the first of August next this important section of the road will be in full operation. In the meantime orders have been sent to the Pacific coast for the commencement of the work on the western end in early spring, and thereafter the work will be pushed both eastward and westward, with as much speed as may be consistent with solidity and a low economy.

RECEIVABLE FOR LANDS.—These bonds will be at all times, before maturity, receivable, at 110, in payment for the Company's lands at their lowest cash prices.

BONDS EXCHANGEABLE.—The registered bonds can be exchanged at any time for coupons, the coupon for registered, and both these can be exchanged for others, payable, principal and interest, at any of the principal financial centers of Europe, in the sale of the various European countries.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these bonds in any desired amount and in any needed denomination. Persons wishing to exchange stocks or other bonds for these can do so with any of our agents, who will allow the highest current price for all marketable securities.

Those living in localities remote from banks, can send money, or other bonds, directly to us by express and we will send back Northern Pacific bonds at our own risk, and without cost to the investor. For further information, pamphlets, maps, &c., call on or address the undersigned, or any of the Banks or Bankers employed to sell this loan.

Special Notices.

RULES AND REGULATIONS

IN REGARD TO

SMALL-POX.

The essential nature of small-pox is to diffuse it, self, and under certain favorable conditions it is readily communicable from person to person, but capable of being transported to great distances.

To prevent the propagation of this specific poison, the following sanitary regulations have been adopted by the Board of Health and approved by the Governor of the District of Columbia:

Parents and guardians shall cause their children and wards to be vaccinated before they attain the age of two years, and revaccinated whenever the Board of Health shall, after five years from the last vaccination, require it.

The Board of Health hereby orders and requires the vaccination of all the inhabitants in the District of Columbia, and whenever, in their opinion, the emergency shall require it, they will provide for gratuitously and whenever the exigency requires it, physicians will be appointed to perform the work, at home for the purpose of vaccinating all people who need vaccination.

Proprietors of incorporated manufacturing companies, superintendents of almshouses, reform and industrial schools, lunatic hospitals, and of all other institutions where the poor and dependent congregate, masters of houses of correction, jailers, keepers of prisons, and directors or officers of all institutions required or aided by the District of Columbia, shall, at the expense of their respective corporations, or institutions, cause all inmates thereof to be vaccinated or revaccinated, and shall take care that no person shall produce satisfactory evidence of previous successful vaccination having taken place within five years.

Immediate notice of the appearance of small-pox, infection, isolation forms an imperative necessity for the prevention of its propagation. Whenever, therefore, a case of small-pox occurs in a family, or among more than two inhabitants, it shall be the duty of the head of the family to select the most remote apartment of the premises, and cause the patient to be isolated—the highest room in the dwelling to be preferred.

And whenever in a tenement-house and lodging-house, boarding-house or hotel, the person affected by the smallpox cannot be isolated to the satisfaction of the health officer, such person shall be removed to the smallpox hospital by agents employed for the purpose by the Board of Health.

Whenever a case of smallpox breaks out in any dwelling or place, the warning flag made of yellow flannel shall be attached and exposed from the window nearest the door, so as to be easily seen by the passer-by of the presence of smallpox in that locality. And if the yellow flag be not immediately attached, a guard, or watchman, shall be placed at the door of entry, "Smallpox here," shall be fastened upon an exposed part of the infected house or dwelling.

It shall be the duty of the inmates of the dwellings smallpox occurs to fumigate the house, and the room of the patient, with sulphur three times a day; to keep the room and every part of the dwelling free from the free use of chlorinated soda, carbolic acid, and bromo chloralum, or such other disinfectant as the Board of Health may direct.

A cloth of the size of a square yard, stamped in a solution of chlorinated soda, carbolic acid, or bromo chloralum, and hung in the sick room, to be kept constantly saturated with the said disinfectants.

The room of the patient shall be kept thoroughly ventilated, and no other person than the nurse shall had the smallpox, or a member of the family, shall be allowed to enter the same. Persons being in attendance upon the sick shall not come in contact with other persons or persons unless they have been previously properly fumigated and disinfected, and changed the clothing worn by them while in the sick room.

It shall be the duty of said attendants to see that no clothing is removed from the sick room that has not been previously disinfected and fumigated. And, nor over, all clothing in said room, or worn by the patient while affected by smallpox, shall be kept distinct and separate, and shall not be put into use or permitted to leave said room until the attendants have had the clothing thoroughly fumigated and disinfected, and the room in contact with the smallpox patient, and must therefore be kept and washed separately.

Physicians and other citizens having knowledge of the existence of smallpox are expected to give immediate notice to the Board of Health of every case of smallpox that may come to their knowledge, and, and the officers of the Board of Health assigned to that duty, shall take charge of, disinfect, or bury the body of the person who has died of it.

The interment of persons dying from small-pox shall take place within six hours after death, or as soon as the circumstances will allow, and no person who has died of smallpox shall be buried in private or public cemeteries or burying grounds without a permit from the Board of Health, a member of the same, or the Health Officer.

Whenever funeral obsequies may be desired the body shall be placed in a hermetically sealed metallic coffin, and no person will be allowed to be present at said obsequies or follow the corpse to the grave except the nurse and attendants, and the Health Officer, nor shall a corpse so forced with smallpox be taken to a church or meeting-house, but it shall be conveyed directly from the house to the grave.

When smallpox, so poor as to be unable to bear the expense of coffin and burial, any undertaker appointed to furnish coffins to the poor shall furnish the coffin, and in every case shall take the same to the house in which the corpse lays, but shall not place and convey the same to the place of burial without the dead, unless he has had the smallpox, and properly fumigated and disinfected six clothing. The undertaker shall not be the bearer of the body, but the officers appointed for that purpose by the Board of Health.

The smallpox ambulance shall be kept at the smallpox hospital.

The ambulance shall be accompanied by an inspector whenever called for the removal of smallpox patients or otherwise.

The inspector accompanying the ambulance and the driver of the ambulance shall, until otherwise ordered, wear a badge with an eagle on it.

The inspector detailed to attend to the removal of smallpox patients shall fumigate and disinfect the clothing of persons taken to smallpox hospital, and the clothing so fumigated shall be properly disinfected, packed up, carried safely to the ambulance and destroyed. It shall keep an accurate record of the number and names of poor persons which have been destroyed, the probable value of the same, and the names of the parties to whom they belonged, and give a receipt for the same.

Under no circumstances shall the ambulance be allowed to carry in the streets, except for such length of time as will be required to remove the patient or the body.

The ambulance shall not be taken to any place for repair, but if repairs be needed, the substitute for the smallpox patient shall be engaged to meet the repairer *for departing.*

In driving the ambulance to any point care shall be taken to avoid crowded streets, school-houses, or frequented places. The driver shall, as far as practicable, keep out of crowded streets, and shall avoid meeting or passing any procession, funeral, or large assemblage of people.

The inspector shall display the yellow flag from every dwelling containing smallpox, and if said flag be taken away without authority, the Health Officer must be immediately notified of the fact.

The inspector of each district shall be notified of the presence and locality of smallpox cases in his district, and it shall be his duty to see that the quarantine regulations relating to houses having the smallpox within are properly enforced, and that no person exposed to the contagion be allowed to go out of the dwelling or come in contact with any other person.

The inspector shall in an urbane manner inform the people of the quarantine regulations imposed by the Board of Health regulating contagion, but shall cause no unnecessary hardship.

The inspector detailed to attend to the smallpox shall first ascertain whether the case can be isolated in the dwelling so as not to expose the other inmates to the disease.

Whenever a patient in a tenement, lodging-house, boarding-house, or hotel is so situated that he cannot be isolated from other inmates, he or she shall be removed and taken to the hospital; and if any person interferes with the execution of this order, or the patient refuses to obey, the law shall be enforced against such person or persons.

If it comes to the knowledge of any inspector that cases of smallpox are about to issue from houses, lodging-houses, boarding-houses, or hotels, without the proper notice having been given to the Board of Health as required by law, the inspector shall make immediate report to the Health Officer, stating the name of the person or persons causing or abetting in the violation of this law.

In all cases where there is doubt whether a person is really afflicted with smallpox, a physician's opinion should be secured before removing the patient.

The inspector shall see that the rules regarding the interment of persons who die of smallpox be complied with.

The foregoing rules and regulations are made and promulgated by the Board of Health of the District of Columbia, in accordance with an act entitled "An act for the prevention of disease in the District of Columbia," passed by the Legislative Assembly of said district, and approved by the Governor thereof, June 19, 1872.

NOTICE TO CONTRACTORS.

IMPROVEMENT OF THE OUACHITA RIVER.

U. S. ENGINEER'S OFFICE, 1123 FIRE STREET, ST. LOUIS, MO., Aug. 26, 1872.

Sealed proposals, in duplicate, will be received at this office until 12 o'clock, m., on November 11, 1872, for the dredging of about 30,000 (thirty thousand) linear feet of square timber, principally 12x12, and 20,000 (two hundred and twenty thousand) feet, board measure, of two and three inch plank at, or near, each of the following named points on the Ouachita river, viz: Rock Row, Jack's Island, and Buffalo Shoals.

Specifications and all necessary information will be furnished by this office upon application.

Proposals must be made upon blank forms, to be obtained at this office, name or bare will be considered. The right is reserved to reject any or all bids.

W. F. RAYNOLDS, Lieut. Col. Corps of Engineers U. S. A.

SPECIFICATIONS.

The timber must be straight, and free from windshakes, wain, rot, or other imperfections, and must be hewed or sawed square.

The plank must be perfectly sound, free from windshakes or other defects, and must be of uniform width and thickness according to size required.

Both timber and plank must be furnished in kinds and dimensions according to the bill of materials furnished.

The materials must be piled on skids so as to prevent warping or rotting, or deposited in such shape and place as may be required by the officer or agent of the United States appointed to receive them, and each piece will, before being accepted, be subjected to rigid inspection by an authorized agent of the United States and all such as does not conform to the specifications under which it is offered will be rejected. The contractor will be required to furnish all the facilities necessary for this inspection.

Delivery of the material at each of the places named in the advertisement must commence by the first day of February, 1873, and the delivery of the same completed by the first day of May following.
