PIANOS.
WILLIAM KNABE & CO.,
Baltimore, Maryland.
GRAND, SQUARE AND UPRIGHT PIANOS.
These instruments have been before the public for forty years, and have given their excellence such a national reputation as to make any extended comment unnecessary. They have received a great number of testimonials, and have always been awarded the highest prize when exhibited in competition with other first-class pianos. We refer to the fact that they have never been withdrawn from any exhibition to which they have been invited, as the best evidence that they have always been found the best pianos at the time of exhibition. They have also received the highest testimonials from the most eminent musicians and critics, and have been purchased by the most discriminating and cultivated people, who have had the best means of knowing the qualities of the best pianos. We have also received the highest testimonials from those who have purchased our pianos during the last twenty-five years, and they all testify that our pianos are in every respect as good as when they left our warerooms, and have proved the best pianos for all climates. We have had our pianos for the last twenty-five years in our warerooms, and have sold more of them than of any other first-class piano, and have never had one returned or exchanged, or any money refunded on account of dissatisfaction. We have also been in the habit of taking pianos in exchange for our pianos, and have never been obliged to sell them at a sacrifice on account of their inferiority to our pianos
