Baltimore Markets.

BALTIMORE, April 4.—*Breadstuffs.*—Flour.—The business reported on Wheats amounted to 800 bbls, as follows: 100 bbls Western Super at $5.50; 200 do. Extra at $7.75; 100 do. family at $8.50, and 200 Howard Street Extra at $7.

Wheat.—The offerings of best to-day were more liberal, and the market may be written active and strong, with a tendency to higher prices for the finest qualities. The sales reported were 20 bushels choice Southern white at $2.15; 400 do. Southern amber at $2.05@$2.10; 400 do. inferior to good South ern red at $1.90@1.95, and 600 bushels Western white, and 1,600 do. red on private terms. We quote Western red at $1.80@1.90, and Michigan amber at $1.90@2.05, inter for choice.

Corn.—The market for Corn to-day was active and firm, and prices of Southern white are 2 cents higher. The receipts were light, amounting to only 22,000 bushels, of which 8,000 bushels were Southern. The entire offerings of Southern were sold at 67 cents for white, and 66 cents for yellow. Western corn is firm, but the inquiry is directed more to inter for future delivery than to spot lots. We note sales of 9,000 bushels No. 2 white, last half of April, on private terms, said to be 68 cents, and 1,200 bushels sold, in Elevator, at 61 cents.

Oats.—Continue dull, with the supply fully equal to the demand. Sales to day 1,600 bushels Southern at 42@43 cents, and 1,000 bushels mixed Western at 41 cents.

Rye.—Is in good demand and the market is firmer. We learn of a sale a day or two since of 400 bushels prime Pennsylvania at 86 cents, and to-day of 400 bushels on the spot and 1,200 bushels to arrive on private terms, and we quote as ranging from 85@86 cents for fair to prime.

Cotton.—The market for Cotton is dull and heavy. The inquiry is very light, and prices are almost entirely nominal. We learn of a sale yesterday of 10 bales, mixed lots, at 20 cents, and there are no transactions reported today, and we quote prices nominally as follows: Ordinary at 19@19½ cents; good ordinary at 20; low middling, 20½@21; middling, 21 cents, and middling at Depot, 21½ cents for Upland, and until Cotton 1-16@½ cent higher. We quote Texas and Mobile at 21 cents. The receipts at the United States ports, 2,199 bales, against 3,[illegible] each day last week, and 3,119 bales the corresponding day last year. Receipts so far this week, 41,[illegible] bales, against 45,327 bales the same time last week, 37,[illegible] bales in 1872, and 56,[illegible] bales in 1871. Stock of Cotton is 141,[illegible] bales.

Provisions.—There is little doing in Provisions, and the market may be written quiet and less important in tone. The sale of Bulk Meats yesterday were 40,000 lbs. Shoulders at 6½ cents, and 30,000 lbs. clear rib Sides at 8½ cents. We learn of a sale of 20,000 lbs. Shoulders to-day, and note the sale above as the outside price. The jobbing demand for Bacon is good, and we quote Shoulders at 7½@7¾ cents, rib Sides at 8½ cents, and clear rib do. at 8¾@9 cents, and we quote Hams at 13@14 cents. We learn of no transactions in Lard or Meat Pork, and quote the former at 9 cents per pound for prime Western steam, and the latter at $17@17.50 per bbl.

Sugars.—We continue to quote prices as follows: Cuba and Porto Rico fair to good refining, 8@8½ cents; English Island do., 7½@8 cents; Martinique do., 8@8½ cents; Cuba centrifugal, 9 cents; Havana boxes, No. 12, 8½ cents; Porto Rico grocery, 8½@9 cents; New Orleans do., 8½@9½ cents; Demerara average run, 8½@9 cents; Refined, 9½@10½ cents.

Whisky.—We learn of no sales of High Wines today, but note the market steady, and quote Western at 90½ cents per gallon.

PROPOSALS FOR LIVE OAK.

NAVY DEPARTMENT,
BUREAU OF CONSTRUCTION AND REPAIR,
WASHINGTON, March 19, 1873.

Sealed proposals for the delivery of 50,000 cubic feet of Live-oak timber, of the best quality, at either of the Kittery, Charlestown, or Brooklyn navy yard, or of such proportion of the 50,000 cubic feet at either as the Department may direct, will be received at this Bureau until THURSDAY, the 17th day of April next.

These proposals must be indorsed "Proposals for Live Oak," that they may be distinguished from other business letters.

Sureties in the full estimated amount will be required in other cases, and, in lieu of personal or collateral security, twenty-five (25) per centum will be withheld on the amount of each delivery until the contract is satisfactorily completed.

In all the deliveries of the timber there must be a due proportion of the most distinct and crooked pieces; otherwise the pieces will be withheld, further amount in addition to the 25 per centum as may be judged expedient to secure the public interest until such difficulty shall be adjusted.

The remaining 75 per centum, or other proportion of each bill, when approved in triplicate by the commandant of the yard to which the timber is purchasing paymaster as the contractor may designate within thirty (30) days after its presentation to him.

It will be a condition of the contract that payment be made by the parties of the first part in delivering all or any of the timber named, of the quality and at the time and place specified, then, and in that case, the contractor, and his sureties, will forfeit and pay to the United States a sum of money not exceeding double the amount of such delivery, agreed upon as the price to be paid in case of the actual delivery therefor, which may be recovered accordingly by the Congress in the case provided, approved March 3, 1863.

The 50,000 cubic feet to be delivered will be in the following proportions: say 8,128 cubic feet of pieces suitable for stems, sternpoets, deadwoods, aprons, clamps, transoms, keelsons and books, all siding from 17 to 20 inches, and the hooks siding 14 and 15 inches. These pieces to be in the proportions in which they rather lean for the construction of a ship of war; conforming substantially in shape, length and character with those heretofore received, with frames of corresponding siding, the moulds of which can be seen at any navy yard; 30,000 cubic feet of the siding of 12 and 13 inches, in about equal quantities of each, and 4,872 cubic feet of a siding of 18 inches; all these pieces being in length from 13 to 17 feet, with a natural and fair curve of from 15 to 35 inches or more in that length, and one half the number of pieces to have from the mean to the greatest crook. Also, 7,000 cubic feet of timber siding 12 and 13 inches, in length from 17 to 20 feet.

All to be sided straight and fair, and rough hewed the moulding way to show a face of not less than two thirds the siding; the waste to be deducted in the measurement.

The timber to be cut from trees growing within thirty miles of the sea, of which satisfactory evidence will be required, and to be delivered in the respective yards, at the risk and expense of the contractor, subject to the usual inspection, and to the entire approval of the commandant of the yard.

The whole quantity to be delivered within one year from the date of the contract.

Satisfactory evidence must be presented with each proposal that the parties either have the timber, or are acquainted with the subject, and have the facility to procure it.

In addition to the above, separate "sealed proposals" will be received at the same time, on the same terms and conditions, and similarly indorsed, from persons having the timber on hand already cut, for the delivery in each of the navy yards at Charlestown and Brooklyn, of from 5,000 to 15,000 cubic feet of live-oak, the principal pieces siding 14 to 17 inches, the remaining portion 12 and 13 inches; the principal pieces and crooked timber to be in the same proportion to the quantity offered as that specified in the first case, with the same lengths and crooks.

The whole amount contracted for in this case must be delivered on or before the 1st of September, 1873.

The Department reserves the right to reject any and all bids for any timber under this advertisement, or reduce the amount, if considered not to be the interest of the Government to accept them, and to require satisfactory evidence that bids are *bona fide* in all respects, and are made by responsible persons.

Parties desiring to bid for furnishing this timber will be furnished with instructions, as to the form of offer required, upon application to this bureau.

New 7-30 Gold Loan
OF THE
NORTHERN PACIFIC RAILROAD CO
Secured by First Mortgage on Railroad and Land Grant.
SAFE! PROFITABLE! PERMANENT!
JAY COOKE & CO.

Offer for sale at par accrued interest the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They are free from United States tax, and are issued of the following denominations: Coupons, $100, $500 and $1,000; registered, $100, $500, $1,000, $5,000 and $10,000.

With the same entire confidence with which we commended Government bonds to Capitalists and people, we now, after the fullest investigation recommend the Northern Pacific Railroad bonds to our friends and the general public.

GOLD PAYMENT.

Both principal and interest are payable in American gold coin, at the office of Jay Cooke & Co., New York City—the principal at the end of 30 years, and the interest (at the rate of seven and three tenths per cent. per annum) half-yearly, first of January and July.

PERFECT SAFETY.—The bonds we are now selling are secured by a first and only mortgage on all the property and rights of the Northern Pacific Railroad Company, which will embrace on the completion of the work:

1. Over Two Thousand Miles of Road, with rolling stock, buildings, and all other equipments.

2. Over Twenty-two Thousand Acres of Land to every mile of finished road. This landagric ultural mibered and mineral, amounting in all to more that Fifty Million Acres, consists of alternate sections reaching twenty to forty miles on each side of the track, and extending in a broad, fertile belt from Western Minnesota through the richest portions of Minnesota, Dakota, Montana, Idaho, Oregon, and Washington, to Puget Sound.

While the Government does not directly guarantee the bonds of the Road, it thus amply provides for their full and prompt payment by an unreserved grant of land, the most valuable ever conferred upon a great national improvement.

THE MORTGAGE.—The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and J. Edgar Thompson, President of the Pennsylvania Central Railroad Company. They will directly and permanently represent the interest of the First Mortgage bondholders, and are required to see that the *proceeds of land sales* are used in *purchasing and cancelling the bonds of the Company* if they can be bought before maturity at not more than 10 per cent. premium; otherwise the Trustees are to invest the proceeds of the land sales in United States Bonds or Real Estate Mortgages for the further security of the Northern Pacific bondholders. Also, that they have at all times in their control as security, at least 300 acres of average land to every $1,000 of outstanding first mortgage bonds, besides the railroad itself, and all its equipments and franchises.

PROFITABLENESS.—Of course nothing can be after than the bonds of the United States, but as the Government is no longer a borrower, and as the Nation's present work is not that of preserving its existence, but that of DEVELOPING A CONTINENT, we remind those who desire to increase their income and obtain a more permanent investment while still having a perfectly reliable security, that:

1. United States 5-20's at the average premium yield the purchaser but 5 per cent. gold interest, less than 5½ per cent. gold interest. Should they be redeemed in five years, and specie payments be resumed, they would really pay only 4½ per cent., or if in three years, only 3½ per cent., as the present premium would meanwhile sink.

Northern Pacific 7-30's selling at par in currency yield the purchaser 7 3-10 per cent gold interest also only for thirty years, *free from United States tax* $1,100 currency invested now in United States 5-20's will yield per year in gold—say $60; $1,100 currency invested now in Northern Pacific 7-30's will yield per year in gold $80.36. Here is a difference in annual receipts of nearly *one-third*, besides a difference of 7 to 10 per cent. in principal, when both classes of bonds are redeemed.

THE ROAD NOW BUILDING.—Work was begun in July last on the eastern portion of the line and the money provided by the sale to stockholders of some six millions of the Company's bonds, to build and equip the road from Lake Superior across Minnesota to the Red River of the North—235 miles. The grading on this division is now well advanced, the iron is being rapidly laid; several thousand men are at work on the line, and about the first of August next this important section of the road will be in full operation. In the meantime orders have been sent to the Pacific coast for the commencement of the work on the western end in early spring, and thereafter the work will be pushed both eastward and westward, with as much speed as may be consistent with solidity and a wise economy.

RECEIVABLE FOR LANDS.—These bonds will be at all times, before maturity, receivable, at 1.10, in exchange for the Company's lands, at their lowest cash price.

BONDS EXCHANGEABLE.—The registered bonds can be exchanged at any time for coupons, the coupon for registered, and both these can be exchanged for others, payable, principal and interest, at any of the principal financial centres of Europe in the coin of the various European countries.

HOW TO GET THEM.—Your nearest Bank or Banker will supply these bonds in any desired amount and of any needed denomination. Persons wishing to exchange stocks or other bonds for these can do so with any of our agents, who will allow the highest current price for all marketable securities.

Those living in localities remote from banks may send money, or other bonds, directly to us by express and we will send back Northern Pacific bonds at our own risk, and without cost to the investor. For further information, pamphlets, maps, &c., call on address the undersigned, or any of the Banks Bankers employed to sell this loan.
