Baltimore Markets.

BALTIMORE, April 16.—Breadstuffs.—Flour.—The sales reported to-day on Change amount to 1,750 bbls, as follows: 150 bbls Western Super at $5.50; 300 Spring Extra (very common) at $5.50; 300 do. do. at $5.75; 200 Western do. at $5.12½@5.37½; 300 do. Family at $5.50@5.50; and 650 do. do. at $5.50@5.75. There were no transactions in City Mills or Howard Street reported to-day.

Wheat.—Receipts of Wheat to-day were about 3,000 bushels, all Southern, and note the market firm. Prime samples are wanted, but holders are asking prices generally above the market rates. And the only sale reported to-day was a lot of 600 bushels good Maryland red at $1.35. We quote choice Southern amber at $1.40@1.45, and ordinary at $1.30@1.35.

Corn.—We note the market steady, and quote mixed in Elevator at 41@41½c. Southern yellow Corn was fairly active and steady, but white was dull and one cent lower. The sales were 12,000 bushels yellow at 42 cents, and 1,000 bushels white at 41½c, which last is the lowest price of samples that were offered on the inside figure at the close of "Change were held over. The receipts to-day were 40,000 bushels, of which about 24,000 bushels were Southern.

Oats.—We note sales to-day of 3,000 bushels Southern at 38c, and 1,000 bushels mixed Western, slightly musty, at 36½c, and we quote prime mixed Western at 40c, and bright do. at 38c.

Rye.—We quote at 85@90c, as to quality.

Cotton.—The market for Cotton is reported dull and weak at Liverpool and New York, but we note a good demand here and our market is steady. We learn of sales yesterday of about 450 bales at 17¾@17½c, for good ordinary to strict do., 18¼@18½c, for low middling and for middling, and to-day a sale is reported of 50 bales ordinary at 17½c. The inquiry is mostly for grades above good ordinary, and the inferior and the poorer qualities are somewhat nominal, but we quote prices as before: Ordinary at 17@17½c; good ordinary at 18@18½c; low middling at 18¾@19c; for middling at 19c; for fine, and for Gulf Cotton 20@20½c, higher.

Provisions.—The market for provisions is strong and buoyant in tone, and prices are higher all round. We notice sales yesterday of 40,000 pounds of clear rib sides (clear of bacon) at 6¾c, and 60,000 do. do. at 6¾c, but to-day the small quantity of Bulk Meat on the market is held firmly at 7c. for Shoulders and 7c. for clear rib sides, low shoulders are out of the season. Bacon is also very firm at advanced figures, but the trade is not brisk. We quote job lots at 7½c. for shoulders, 8½c. for rib sides, and 9½c. for clear rib do., and Hams we quote as ranging from 13@13½c. for plain to fancy sugar cured. Lard is very firm, and we quote prime Western steam and kettle rendered at 9¾@9½c, the inside figure having been offered and refused for a considerable quantity of the latter yesterday. Pork is firm, but we hear of no sales of round lots, and quote Mess at $17.25@17.50 and Rump at $13.75@14 per barrel.

Sugars.—We continue to quote prices as follows: Cuba and Porto Rico fair to good refining, 8¾@9c; common do., 8½@8¾c; Cuba centrifugal Matanzas and Trinidad, 9c. Porto Rico centrifugal, 9¾@9¾c; do. boxes, No. 13, 9 cents; Porto Rico grocery, 9¾@9¾ cents; New Orleans fair to good refining, 9¾@9¾c; New Orleans do., 9¾@9¾ cents; Demerara centrifugal, 9¾@9¾ cents; and Brazil at 9¾@9¾ cents.

Whisky.—The market for High Wines is quiet and firm. We learn of a sale to-day of 50 barrels City at 87c., and we quote Western at same figure.

MARRIED.

LANGLEY—LOCKE.—At the McKendree M. E. church, on Tuesday, April 15, by the Rev. O. W. Gloyd, Mr. J. Milton Langley, of this city, and Miss H. A. Locke, youngest daughter of Dr. Locke, esq., of Washington, D. C., formerly of Baltimore, Md.

Baltimore Lock Hospital
DR. JOHNSTON,
Physician of this celebrated Institution, discovered when in the Great Hospitals of Europe, viz: Etna, Lisbon, France and elsewhere, the most certain, speedy, pleasant and effectual remedy in the world for all
EXCESSES OR ABUSES OF THE SYSTEM,
weakness of the Back or Limbs, Strictures, affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Loss of Memory, Confusion of Ideas, Palpitation of the Heart, Trembling, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youth—those dreadful and solitary practices more fatal to their victims than the song of the Sirens to the Mariners of Ulysses, blighting their most brilliant hopes or intuitive aspirations, rendering marriage, &c., impossible—destroying both Body and Mind.
YOUNG MEN
especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually swells to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstasy the living lyre, may call with full confidence.
These are some of the sad and melancholy effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.
MENTALLY.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-distrust, Love of Solitude, Timidity, &c., are some of the evils produced.
MARRIAGE.
Married persons, or Young Men contemplating marriage, aware of Physical Weakness, Loss of Procreative Powers, (Impotency,) Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other disqualification, speedily relieved.
ENDORSEMENT OF THE PRESS.
The many thousands cured at this establishment within the last twenty years, and the numerous important surgical operations performed by Dr. Johnston, witnessed by the representatives of the Press and many others, some of which have appeared again and again before the public, besides his standing as a man of honor and responsibility, is a sufficient guarantee to the afflicted.

PROPOSALS FOR LIVE OAK.

NAVY DEPARTMENT,
BUREAU OF CONSTRUCTION AND REPAIR,
WASHINGTON, March 15, 1873.

Sealed proposals for the delivery of 50,000 cubic feet of Live-oak timber, of the best quality, at either the Kittery, Charlestown, or Brooklyn navy yard, or of such proportion of these 50,000 cubic feet at either as the Department may direct, will be received at this Bureau until THURSDAY, the 17th day of April next.

These proposals must be indorsed "Proposals for Live-oak," that they may be distinguished from other business letters.

Bureau in the full estimated amount will be required to sign the contract, and, as additional and collateral security, twenty (20) per centum of the amount will be withheld on the amount of each delivery until the contract is satisfactorily completed.

In all the forests of the timber there must be a due proportion of the most difficult and crooked pieces; otherwise there will be withheld such further amount in addition to the 20 per centum as may be indeed expedient to secure the public interest until such difficult portions be delivered.

The remaining 75 per centum, or other proportion of each bill, which approved in triplicate by the commandant of the yard, will be paid by such purchasing paymaster as the contractor may designate within thirty (30) days after its presentation to him.

It will be stipulated in the contract that if default be made by the parties of the first part in delivering all or any of the timber named, of the quality and at the time and place provided, then, and in that case, the contractor, and his sureties, will forfeit and pay to the United States a sum of money not exceeding twice the total amount therein agreed upon as the price to be paid in case of the actual delivery thereof, which may be recovered according to the act of Congress in the case provided, approved March 3, 1863.

The 50,000 cubic feet to be delivered will be in the following proportions: say 8,126 cubic feet of pieces suitable for stems, sternposts, deadwoods, aprons, sternpost knees, keelsons and hooks, all siding from 12 to 20 inches, and the hooks siding 14 and 16 inches. These pieces to be in the proportions in which they enter into the construction of a ship-of-war; containing substantially the shape, length and character of those heretofore received, with frames of corresponding siding, the moulds of which can be seen at any navy yard; 20,000 cubic feet of the siding of 12 and 13 inches, in about equal quantities of each, and 1,463 cubic feet of a siding of 13 inches; all these pieces being in lengths from 12 to 17 feet, with a natural sweep or fair curve of from 13 to 30 inches or more in that length, and one half the number of pieces to have from the mean to the greatest crook. Also, 7,200 cubic feet of timber siding 13 and 15 inches in length from 17 to 20 feet.

All to be sided straight and fair, and rough-hewed the moulding way to show a face of not less than two thirds the siding, the wane being deducted in the measurement.

The timber to be cut from trees growing within thirty miles of the sea, of which satisfactory evidence will be required, and to be delivered in the respective yards, at the risk and expense of the contractor, subject to the usual inspection, and to the entire approval of the commandant of the yard.

The whole quantity to be delivered within one year from the date of the contract.

Satisfactory evidence must be presented with each proposal that the parties either have the timber, or are acquainted with the subject, and have the facility to procure it.

In addition to the above, separate "sealed proposals" will be received at the same time, on the same terms and conditions, and similarly indorsed, from persons having the timber on hand already cut, for the delivery in each of the navy yards at Charlestown and Brooklyn, of from 3,000 to 10,000 cubic feet of live-oak, the principal pieces siding 12 to 17 inches, the remaining portion 13 and 14 inches; the principal pieces and crooked timber being to the same proportions as the quantity offered as that specified in the first case, with the same lengths and sizes.

The whole amount contracted for in this case must be delivered on or before the 1st of September, 1873.

The Department reserves the right to reject any and all bids for any timber under this advertisement, or reduce the amount, if considered not to the interest of the Government to accept them, and to require satisfactory evidence that bids are *bona fide* in all respects, and are made by responsible persons.

Parties desiring to bid for furnishing this timber will be furnished with instructions, as to the form of offer required, upon application to this Bureau. mh17
