Spring is coming with its lovely breeze and charming weather, but is bringing also many disease more or less alarming, yet easily overcome or prevented if taken in time. Prevention is better than cure. There is no season in the year when the whole system needs more to be invigorated by some meritorious tonic than the present. Spring is one of the organs the necessary strength to bear these first warm days so prostrating and weakening. Bilious complaints are common at this season, with pain in the side, and those who do not pay attention to the first symptoms become really sick and afflicted with some of the numerous diseases which are the result of delay, especially that is called spring fever, biliousness, dyspepsia, &c. Now, many persons do take the medicine we speak of, but we could not call enough the attention of the public to the great and unequaled tonic and liver regulator, The body requires not only a stimulant, but a nerve and a medicine, always tasteless and prepared with care, as a physician would do. This is the character for this reason Dr. L. G. BERTRAM'S LONG LIFE BITTERS are superior to all cordials of this kind. They are not a beverage, but a tonic, and other medicines can be sold without the Medical Academy's approval, as the best tonic, restorer and purifier.

PROPOSALS FOR MATERIALS TO BE SUPPLIED TO THE NAVY YARDS UNDER THE CONTROL OF THE BUREAU OF CONSTRUCTION AND REPAIR.

NAVY DEPARTMENT, BUREAU OF CONSTRUCTION AND REPAIR, WASHINGTON, D. C., April 26, 1873.

Sealed proposals to furnish Timber and other materials for the service of the Navy for the year ending June 30, 1874, will be received at this Bureau until 12 o'clock m. of the 20th of May next, at which time the bids will be opened.

The proposals must be addressed to the "Chief of the Bureau of Construction and Repair, Navy Department, Washington," and must be indorsed "Proposals for Timber, &c., for the Navy," and must be inclosed in a separate envelope, so that they may be distinguished from ordinary business letters.

To prevent confusion, and facilitate the opening of the bids, parties bidding for supplies at several yards will inclose their bids in separate envelopes, each indorsed as above, and the name of the yard for which the bid is made.

Printed schedules for such classes as parties deem it unwise to bid for, will be furnished, on application to bidders, giving the forms of proposal, of guarantee, and of certificate of guarantors, with printed forms of offer, which will be furnished to those desirous to bid on application to the Commandants of the respective navy yards, or to those of the yards on application to the Bureau.

The commandant of each Navy Yard, and the Paymaster General, are ordered to furnish, with a copy of the schedules of the other yards, for examination only, in order that persons who intend to bid may be informed of the articles to make application for any the classes of those yards.

The proposals must be for the whole of a class, but the Bureau reserves the right to reject any one whole class, should the interest of the Government require it, before the execution of the contract. All proposals for supplies at more than one navy yard, or for the execution of samples, must be made to the Commandants of the respective yards.

Bids are invited only from parties who are bona fide dealers in, or manufacturers of, the articles for which they respectively bid. The guarantee must be certified by the Collector of Internal Revenue for the district in which they reside.

Proposals will be awarded to the person who makes the lowest bid and gives the guarantee required by law, the Navy Department, however, reserving to itself the right to reject the lowest bid, or any which it may deem exorbitant.

Under the provisions of the second section of the act approved March 3, 1871, no contract will be given to any principal or surety, who has failed his contract for 1872. It will not be received.

Bids for more than $1,000 amount will be required to sign the contract, and their sureties must be certified to the satisfaction of the Navy Department standards.

As additional security twenty per centum will be withheld from the amount of the bills until the contract is fully completed, when one half of one per centum of the amount of each bill approved in triplicate will be paid to the contractor or his legal representatives, upon the payment of the respective bills, which will be paid in the manner and at the time designated in the contract, or, if none is specified, within ninety days after the bills are approved, at the place where the goods are delivered, within ten days after the warrant for the same shall have been passed by the Secretary of the Navy.

GARRETT'S NEW ROAD.

HOW THE EXCURSION WAS ENJOYED.

The Dinner and the Toasts—Speeches by Mr. A. R. Shepherd and Mr. Wm. Kerr, Vice President Baltimore and Ohio Railroad—Homeward Bound.

[Special Dispatch to the Republican.]

GRAFTON, W. VA., May 1.—On reaching Deer Park the train was stopped sufficiently long to allow a look at the new hotel, but as the rain was falling heavily all were obliged to remain in the cars. Proceeding on the wild scenery of Cheat river appeared in view, calling forth expressions of wonder and astonishment. The tunnels, particularly the Great Kingwood, also excited the highest interest. Grafton was reached soon after six o'clock, where the whole party disembarked, and after a wash were shown into the hotel at the station, when dinner was served. After the inner man had been satisfied order was called for, and Mr. A. R. Shepherd, vice president of the Board of Public Works of the District of Columbia, arose. Mr. Shepherd said "I have been requested by the gentlemen here present, representing every class of society in the city of Washington—the army, the navy, the judiciary and the commercial pursuits—to return their thanks to the Baltimore and Ohio Railroad Company and its officers with us for the pleasure we have experienced yesterday and to-day upon this excursion. We have taken much pleasure in beholding the magnificent scenery from Cumberland to this place, and we have been gratified that this new artery between the capital city and the West has at last been completed. I pledge you the health of the gentlemen who have been our hosts on this occasion." [Applause, and toast drank standing.] Vice President Keyser, in response, arose and said: "Gentlemen, on the part of the Baltimore and Ohio Railroad Company's officers, and especially the gentlemen who have been associated with me on this occasion, I beg to return my thanks. It has afforded us not only great gratification to enjoy the pleasure of the company of so many of the distinguished citizens of Washington, including officers of the army and navy, but it has also afforded us gratification from the fact that in the past there has seemed to be some little estrangement between the citizens of Washington and the company, and that this reunion is one which is likely to be practically beneficial to both parties. The opening of the Metropolitan branch by the company constructed, to be sure, slowly in the opinion of some, but still at an expense of three and a half millions of dollars, will contribute to the future growth and prosperity of that city, shortening the distance between Washington and the Northwest forty-one miles, and causing Washington to occupy, as she will from this time forward, her true geographical position, both as regards passenger rates and freight tariffs. [Cries of "Good!" and applause.] The opening of this line must necessarily contribute largely to her growth and prosperity. So far as the present excursion is concerned, it has been gotten up with a view to cultivate more friendly and pleasant relations with our friends of that city. That Washington is an important point no one can doubt. Not only is it a great city at this time, but it is destined to become one of the greatest cities in this country. I trust that this reunion will bring that city and the company into the closest and most intimate relations, which shall continue for all the future." [Great applause.]

The party then amused themselves in various ways until 11:45 p. m., when they re-embarked for Washington, intending to go through without stopping.

THE VIENNA EXPOSITION.

The Opening Ceremonies Yesterday—Speeches of the Emperor of Austria and Others—An Immense Assemblage Present.

VIENNA, May 1.—The exhibition was inaugurated to-day by the Emperor in the presence of the Imperial family, the royal and illustrious guests, and the State and civil dignitaries. The weather was unfavorable, but the crowds of people from all parts of the world were witnessed the splendid and imposing ceremonies were immense, filling the rotunda and transepts of the building and a portion of the grounds surrounding it.

At noon the Emperor entered the rotunda with the Crown Princess Victoria of Germany on his arm. He was followed by the German Crown Prince Frederick William, who escorted the Princess Louise, wife of the Crown Prince, eldest son of the Prince, accompanied by the Prince Imperial of Austria. The Emperor took his seat on the throne, when the combined bands, numbering nearly several hundred, commenced the "Austrian Hymn," which was succeeded by the "Prussian Anthem," amid the cheers of the multitude.

The Archduke Charles then rose, and addressing the Emperor, said: "Sire, filled with gladness I salute your Majesty in these halls devoted to progress and peace. Your participation has fully brought to completion a work which now stands upon Austrian ground as the world, and has secured for the Fatherland the full recognition of the part she takes in the promotion of the welfare of mankind through the instrumentality of labor. Many have the honesty graciously to receive this catalogue, and to declare the expedition open."

The Emperor on receiving the casket containing the catalogue expressed his satisfaction at behold the completion of this undertaking, the importance of which I appreciate in the highest degree. My confidence in the patriotism and capabilities of my people and the sympathy and support of friendly nations has accompanied the development of the great work. My well-wishes and grateful recognition are devoted to its termination. I declare the universal exhibition of 1873 open."

Prince Von Auersperg, president of the Council of the Empire, advancing to the foot of the throne, addressed the Emperor as follows: "Sire, with feelings of modesty, and at the same time of exultation and pride, the people of Austria gaze upon the work which testifies to the power of and growing esteem for the Fatherland, and to the participation taken in the great task of culture. We owe this work entirely to you. It is the embodiment of your motto, 'Power and respect come from union, which is strength.' We therefore lay our effort at the foot of the throne."

The Prince was followed by Dr. Folder, the burgomaster of Vienna, who expressed the gratitude of the people of the capital to his Majesty, and added: "Under your Government Vienna has become a metropolis. You must confer the highest consecration upon an undertaking whose noble purpose is to show what the Fatherland has to offer to promote enterprise, thriving in mechanics, science and art, so that progress may become common property, to be fostered and furthered by all the rivalries of invention and detecting
