Spring is coming with its lovely breeze and charming weather, but is bringing also many diseases in its train, which can be avoided if care is prevented if necessary precautions are taken in time. There is no season in the year when the whole system needs a good, healthy, tonic medicine which will purify the blood and give to the organs the necessary strength to bear those first warm days without prostration. Malarious diseases and sometimes chills follow this general debility, and those who do not pay attention to the first symptoms of debility, do not realize the extent of these pernicious diseases, such as fevers of all kinds, especially what is called spring fever, bilious fever, &c. Experience has taught many persons do take the precautions we speak of; but we could not call enough the attention of the public to the great value of our Spring Medicine. The body requires not only a stimulant, but some alterative, always harmless and prepared with care and skill, such as Dr. Hartigan's Compound for this reason Dr. L. O. HARTIGAN'S LONG-LIFE BITTERS are superior to all cordials of this kind. They are prepared with care, and are a regular patent medicine can be sold without the Medical Academy's approval, as the best tonic and purifier.
