Hams are steady at 14@14½ cents for prime to brand and quality. Lard is very dull, both for crude and refined, and we quote nominally at 9@9½ cents for former, and 10@10½ cents for latter. Bacon is quiet, with a fair trade, at $12 25@12 50 per bbl., the latter for job lots.

Curious Death of a Noted Convict.

News comes from the State prison that the notorious Narcisse Rodregues, an eminent horse thief of California extraction, whose experience also includes the pillaging of stages and pedestrians, and lighter deeds in the criminal line, has been permanently carried to a grave on the hill, the locality of the prison cemetery, by reason of his own natural tendency to misbehavior. The inherent laziness of the fellow led him to shirk work whenever opportunity offered, and inspired him to violate laws and commit the deeds that led to his repeated arrest by the officers of the counties lying south of here, and ultimately resulted in his transportation to a felon's cell. He was in October, 1871, convicted of highway robbery in Monterey and sentenced to five years' imprisonment at San Quentin; in February, 1872, he was remanded to the custody of the sheriff by order of the court, but in March was returned to prison. On the 25th of May, 1872, he was again taken from the prison, this time to Santa Clara, and was tried and convicted of another charge of robbery, and given a lease of three additional years on his prison home.

Instead of striving to reduce his term of imprisonment by good behavior, he gave the officers all the trouble he could by neglecting the rules of the prison and resorting to various mean dodges to escape work. After he had exhausted all other means of avoiding labor, he prevailed upon the hospital steward, also a prisoner, to compound for him a dose calculated to give him the appearance of an invalid, and deceive the physician at the regular morning review, whereby the criminal hoped to be excused from work for a protracted season, and to obtain abundant opportunities to sun himself in the prison yard, without fear of hindrance or molestation. The steward's knowledge of chemistry was not equal to the spirit of accommodation that impelled him to undertake the job for his fellow-convict, and for this reason Rodrigues, instead of enjoying the freedom of the yard and the warm sunlight, is lying in a pine-board coffin. One dose of the steward's medicine killed the unfortunate Rodrigues on Saturday last.—*San Francisco Bulletin.*

A PLEASANT SUMMER RESORT.
THE GREAT ALTERATIVE AND TONIC WATERS OF AMERICA.
Persons who propose to visit during the summer of 1873 the MOUNTAINS OF VIRGINIA, either to seek in their cool shades and salubrious atmosphere a place of health and safe retreat from the oppressive heat and unhealthy climate of less favored localities, or in the hope to find relief from the infinite ills, which medicinal waters the means of regaining lost health, will be admirably suited at the
STRIBLING SPRINGS,
thirteen miles from Staunton, Virginia, where the fine mountain air combined with the mineral waters, which include the three distinct classes of Alum, Chalybeate and Sulphur Springs, offer all that can be desired for their purposes.
These Springs are highly medicinal, and have performed many wonderful cures. Their great value as medicinal agents is attested by the most eminent physicians, and by many other persons of note, who have derived benefit from them.
The Alum, or as it would be more correctly styled, the ALTULOUS CHALYBEATE WATER, contains a much larger proportion of the important ingredients of alumina, iron and magnesia than any other spring in the mountains of Virginia, and is an combined alterative and tonic properties is peculiar. The waters of these Springs admit of a wide range of remedial application.
Chronic bronchitis and pneumonia, dyspepsia, liver disease, chronic diarrhœa and dysentery, constipation, diseases of the urinary and generative organs, cutaneous diseases, gravel, calculi, neuralgia, and in most cases all diseases of malnutrition, irritation, relaxation and debility will be readily cured by the use of these waters, if used here for a reasonable length of time. No other watering-place in all this region so celebrated for its medicinal waters and its healthy summer resorts, offers superior attractions either in the healthy and delightful nature of the climate, the grandeur and beauty of the surrounding scenery, or in the number, diversified properties and great remedial virtues of the mineral waters.
Hotel accommodations first-class. Various means of recreation and amusement.
Board—For day, $1.50; per week, $10; per month, $35.
☞The Hotel is now open for visitors.

INVESTMENT BONDS.

The Northern Pacific Railroad Company having determined to close its 7.30 First Mortgage Gold Loan at an aggregate not exceeding thirty million dollars, and thereafter to pay no higher rate of interest than six per cent. on further issues of its bonds, *the limited remainder of the $10 loan is now being disposed of* through the usual agencies.

As the bonds of this issue are made receivable in payment of the Company's lands at 110, they are in constant and increasing demand for this purpose, and will continue to be after the loan is closed—a fact which much enhances their value and attractiveness as an investment.

The Company has more than 800 miles of its road built and in operation, including the entire Eastern Division, connecting Lake Superior and the navigation of the Missouri river; it has earned title to nearly Ten Million Acres of its Land Grant, and sales of lands have thus far averaged $5.66 per acre.

All marketable securities are received in exchange for Northern Pacific.
