KENTUCKY KU-KLUX.

An Outlaw's Doom.

The Mt. Sterling (Ky.) *Sentinel* says: On Friday night last two young men named Tade went to the house of Jack McLean, in what is known as the Pennsylvania settlement, in this county, near the Menifee county line, and took him with them "to hunt that dog," as they explained to his wife. The Tades had their faces blackened, but were recognized by the woman. Her husband not returning on Saturday evening, and one of the Tades, while drunk over in Jeffersonville, having dropped the remark which led to the inference that McLean had been killed the night before, Mrs. McLean went before Esquire Salyers and swore out a warrant for the arrest of the Tades on suspicion of their having murdered her husband. The suspected parties getting wind of her proceeding, fled from their home, and were pursued by a party summoned by the constable instructed to make the arrest, with what result we have not learned.

Sunday morning's revelations, however, have put the matter in an entirely different light, and show that McLean was a night-rider himself, and companion of the Tades, and while engaged in an unlawful assault upon the house of a citizen was shot and killed by the party assaulted. These are the circumstances of what, taking all the facts of the case into consideration, we are compelled to designate the unhappy tragedy.

McLean and the Tades crossed the border into Menifee county, to the house of a farmer named Clemm, the door of which they battered down, McLean crying out, "You haven't got but five minutes to live!" Mr. Clemm appeared to be a man not easily intimidated, for the moment his door was burst open he fired upon the foremost of his assailants. The entire party then beat a quick retreat, the Tades assisting their companion, upon whom Mr. Clemm's shot had taken effect. Sunday morning McLean's dead body was found in a ditch about three hundred yards from the house where he had gone to commit murder, but had received his own death wound. When found his coat was turned inside out, and upon his face was a mask made of calico. He was buried just as he was found, with mask and all on.

Mr. Clemm deserves the thanks of all the law and order-loving people of our county for having relieved us of such a citizen, and we sincerely trust that, should the party in pursuit succeed in capturing the Tades, they will hang them to the first tree. Such scoundrels, lawless themselves, do not deserve recognition as the hands of law. Give them short shrift and stout ropes, and a quick exit from the world, and the only step has been taken which will effectually rid us of the Ku-Klux.

THE CROPS ABROAD AND AT HOME.

The Harvests in Europe Generally Deficient—A Poor Yield of Wheat and Rye—The Home Wheat Crop an Average Yield—Cotton Improved since July—The Fruit Crop a Failure.

The harvests in Europe are generally deficient. From a most trustworthy authority, the *Mark Lane Express*, we have "more unfavorable reports as to wheat in England," which in many localities is not expected to equal even the very poor yield of last year, and there are strong hints as to "danger of sprouting in the shock from the present occasional showers." In France storms have done much damage, and a deficiency of at least 10 to 12 per cent. may be relied upon. There are accounts of increased prices at many local stations, and in Paris flour has considerably advanced. Old wheat has totally disappeared from the market, and new is supplying its place at higher prices. Rye—an extensive bread crop—in France, Belgium, Holland and Germany is reckoned as very deficient and rates are rising. In Hungary the condition of the crop has been greatly overrated, and from the prevalence of cholera an interference with the work of harvesting is threatened. In Germany only an ordinary yield is hoped for. The *Express* sums up the situation abroad by saying that "with a deficient crop, exhausted stocks, and but generally moderate prospects in Europe, low prices seem almost impossible next season." This well-informed journal is the organ of the grain dealers and millers, and its judgment, if biased in any degree, would naturally lean to the interests of the purchasers. It may, therefore, be very satisfactorily concluded that as sellers we may take its prognostications as pretty certainties to be fulfilled. We read further, touching the foreign outlook, that the International Corn and Seed League recently held in Vienna, with an attendance of one thousand five hundred persons, formed an estimate that the Austro-Hungarian empire will exhibit less power of export than usual—say only to the extent of 800,000 qrs. in wheat and about 1,100,000 qrs. in barley; whereas, in favorable season, Hungary alone has exported three times that amount, while the important article of rye is so deficient that imports will be required for consumptive wants.

At home the wheat crop has been safely gathered; oats, except in later districts, have also been secured, and although the present weather is unfavorable for harvesting those still uncut, yet oats are a crop that will withstand a good deal of rain without injury, and probably there will be little loss on this account. As to the yield, all accounts agree that it is quite equal to an average, and many estimate it as above an average crop in quantity, while the quality is excellent. At the same time there is an unfavorable prospect for corn, and it is probable that a large portion of the crop will be unripened. Unfortunately our farmers have now an opportunity to wail themselves of the situation. Europe demands our breadstuffs, and we have sufficient to supply them; and we can in a measure fix the price. The surplus of last year's corn crop will be needed to supply the deficiency of the present crop, and there will not be this season the dead-weight of low-priced corn to drag down the general market. At the same time the prospects of the money market are assuring. The country has made a gain of at least $250,000,000 in the adverse balance of imports over exports as compared with last year. The West has marketed the wool crop favorably and has a general ease in financial matters. The cotton crop has improved in condition since July. In the large producing States—Mississippi, Alabama, Georgia and South Carolina—the plant is reported as well formed and well fruited, and although picking will be from two to three weeks late, yet the estimate, so far as any can be formed at this early date, points to a full average crop if not more. The fruit crop may be set down as a failure. Peaches are coming in plentifully but of excessively poor quality; apples in the East will be very short, but after last year's profusion this is inevitable. The recent rains, which have been general throughout the country, have much improved the pastures, and there will now be no scarcity of fall feed. This will insure a fair supply of dairy products and the entry into winter quarters of stock in fair condition. On the whole the outlook is cheerful, not only for us west of the Atlantic but for those in Europe who stand in need of our surplus.

True Heroism.

Conductor Burgess, of one of the palace cars of the train recently meeting with frightful disaster on the Chicago and Alton railroad—the vehicles telescoping and many persons dying of steam-burns—gives this account of the death of a Mr. Little, of Springfield, Ill., in his letter of description to the Chicago *Tribune*: "I didn't think he could live. He was boiled terribly. I heard somebody calling 'Burgess, Burgess,' and I went to him. I didn't know him, and I don't know how he came to know me. I asked him what he wanted, and he said, 'I am dying, Burgess; I can't live. I want you to do something for me.' I said, 'I'll do it.' I gave him a big swallow of whisky, and he revived a little. He said, 'I want to make my will,' and then he dictated it to me. I wrote it out for him. He said, 'I am W. Little, the omnibus man,' and then he went on and told me what to write as rationally and coolly as if he was sitting comfortably in any easy chair. 'Take my studs and my pin, my watch and chain, and don't let anybody have them but my wife.' I did as he told me, and here you see are his two diamond studs, his pin, and his watch and chain. I told him I had written out his will, and he tried to sign it, and there it is with the names of W. Fagle and A. S. Burgess, witnesses. 'Very well,' said he, 'I am sorry I have kept you so long from others; please go and look after somebody else.' He was a man, was William Little; clear grit right through. And he is dead."

Intoxication from Fungus.

From the statements made by an English physician it appears that the fungus of India is more extensively used than ever for producing intoxication. The desired effect comes on in from one to two hours after it is taken. Giddiness and drunkenness follow in the same manner as from wine or spirituous liquors; cheerfulness is first produced, the face becomes flushed, involuntary words and actions ensue, and sometimes the loss of consciousness. Some persons it renders remarkable exertion; but, by too large a dose, violent spasmodic effects are produced. So exciting is it to the nervous systems of many that its effects are very ludicrous. A talkative person cannot keep silence or secrets; one fond of music is incessantly singing; and if a person under its influence wishes to step over a straw or a stick, he takes a stride or jump sufficient to clear the trunk of a tree. Of course, delirium, coma and death often result.

THE MARKETS.

COMMERCIAL.

Baltimore Markets.

BALTIMORE, August 30.—*Breadstuffs.*—Flour.—The sales reported to day amounted to 1,850 barrels, as follows: No Howard Street super at $4.25; 100 Western extra at $5.50; 400 do. do. at $5.75@$6.50; 100 Spring do. at $4.37½; 450 Western family at $7@$8; 200 do. do. at $8@$9; and 100 Howard Street at $9 50.

Wheat.—The demand was from both shippers and millers, and the sales embraced 1,000 bushels good to choice Southern white at $2@$2.05; 1,200 do. choice do. amber at $1.90@1.95; 3,500 do. good to prime do. red at $1.90@1.75, and 1,000 do. common to fair do. white and red at $1.65@1.80; 2,500 do. Pennsylvania red at $1.60@1.75, and 5,000 do. Indiana and Ohio do. at $1.60@1.65.

Corn.—The market for Western Corn is very firm. We learn of sales of 8,000 bushels mixed in elevator at 65@65½ cents, but cargo lots cannot be purchased under 66 cents, and we understand that figure was yesterday offered and refused for last half of September delivery. We note sales of 1,000 bushels yellow 1 to 2 cents, and 400 do. rejected at 85 cents. Southern white Corn is dull with more liberal offerings, and we have sales of 1,500 bushels at 69@70 cents, and note several lots held over.

Oats.—The receipts to-day are more liberal, and there is some pressure to sell, while other holders are asking full prices. We note sales of 1,600 bushels inferior Western mixed at 40@41 cents; 800 do. good do. at 41 cents; 500 do. Southern at 40@41 cents, and 300 do. very choice do. at 41 cents.

Rye.—We learn of no sales to-day, and quote fair to prime nominal at 70@75 cents.

Grass.—We quote prices to-day as follow: Middling nominal at 16½ cents, low middling 16@16½ cents, strict good ordinary 15½@16 cents, good ordinary 15@15½ cents, and ordinary 14@14½ cents, and ordinary to strict dog at 12@13½ cents.

Provisions.—We note the market for Provisions quiet, with no change in the situation for the last few days. There is some inquiry for Bulk Meat, but the small stock here is held out of reach. We quote nominally at 8½@9 cents for Shoulders, and 9@9½ cents for clear rib sides, loose, by the car-load. There is a moderate jobbing demand for Bacon, but the market lacks animation, as is usual at this season. Orders are filled at 9@9½ cents for shoulders, and 10@11 cents for clear sides. Hams are in limited supply, and we quote steady at 16@16½ cents. Lard continues dull, and we still quote prime Western steam at 8½@8¾ cents. Most York is also dull, but the price is steady at 10@10.25 per ctl.

Sugars.—We quote prices to-day as follows, viz: Cuba and Porto Rico fair to good refining, 8½@9 cents; fair to good refining English Island, 9@9½ cents; Cuba Centrifugal, 9½@10 cents; do. Cuba No. 8, 8¾ cents; Porto Rico grocery, 9@9½ cents, and Demerara vacuum pan, 9@9½ cents.

Whisky.—The market for Ohio Whisky is still very firm, and prices are higher again to-day. There is no Western offering, and we note sales of 75 bbls city rectified and to-day at $1.10@1.11 per gallon, closing at the latter figure.

DIED.

DUMBERTH.—At 8.15 p. m., August 30, 1873, of consumption, WILLIAM A. DUMBERTH, in the thirty-sixth year of his age.

MOORE.—In New York, on the 28th of August, MARIAH E. MOORE, wife of Jas. A. K. Moore, esq., of Washington, D. C., and third daughter of L. A. R. Tisdale, formerly of this city.

TALBOT.—Sunday, August 31, 1873, after a short and painful illness, of dentition, MARY ALBERTA, the only daughter of George A. and Anna O. Talbot.

Her funeral will take place from St. Martin's Catholic church on Tuesday, September 2, at 10 o'clock a. m. Friends and relatives are respectfully invited to attend.

FINANCIAL.

New 7-30 Gold Loan
OF THE
NORTHERN PACIFIC RAILROAD CO
Secured by First Mortgage on Railroad and Land Grant.
SAFE! PROFITABLE! PERMANENT!
JAY COOKE & CO.
Offer for sale at par accrued interest the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They are free from United States tax, and are issued of the following denominations: Coupons, $100, $500 and $1,000; registered, $100, $500, $1,000, $5,000 and $10,000.
With the same entire confidence with which we commended Government bonds to Capitalists and people, we now, after the fullest investigation recommend the Northern Pacific Railroad bonds to our friends and the general public.
GOLD PAYMENT.
Both principal and interest are payable in American gold coin, at the office of Jay Cooke & Co., New York City—the principal at the end of 30 years, and the interest (at the rate of seven and three tenths per cent. per annum) half-yearly, first of January and July.
PERFECT SAFETY.—The bonds we are now selling are secured by a first and only mortgage on all the property and rights of the Northern Pacific Railroad Company, which will embrace on the completion of the work:
1. Over Two Thousand Miles of Road, with rolling stock, buildings, and all other equipments.
2. Over Twenty-two Thousand Acres of Land to every mile of finished road. This landagricultural mineral and mineral, amounting in all to more than Fifty Million Acres, extends in alternate sections reaching twenty to forty miles on each side of the track, and extending in a broad, fertile belt from Wisconsin through the richest portions of Minnesota, Dakota, Montana, Idaho, Oregon, and Washington, to Puget Sound.
While the Government does not directly guarantee the bonds of the road, it thus amply provides for their full and prompt payment by an unreserved grant of land, the most valuable ever conferred upon a great national improvement.
THE MORTGAGE.—The Trustees under the Mortgage are Messrs. Jay Cooke, of Philadelphia, and J. Edgar Thompson, President of the Pennsylvania Central Railroad Company, who will directly and permanently represent the interest of the First Mortgage bondholders, and are required to see that the *proceeds of land sales* are used in *purchasing and cancelling the bonds of the Company* if they can be bought before maturity at not more than ½ per cent. premium; otherwise the Trustees are to invest the proceeds of the land sales in United States Bonds or Real Estate Mortgages for the further security of Northern Pacific bondholders. Also, that they have at all times in their control a security, at least 100 acres of average land to every $1,000 of outstanding first mortgage bonds, besides the railroad itself, and all its equipments and franchises.
PROFITABLENESS.—Of course nothing can be safer than the bonds of the United States, but as the Government is no longer a borrower, and as the Nation's present work is not that of preserving its existence, but that of improving its resources, we remind those who desire to increase their income and obtain a more permanent investment while still having a perfectly reliable security, that:
United States 5-20's at the average premium yield the present purchaser less than 5% per cent. gold interest. Should they be redeemed in five years, and specie payments be resumed (which would really pay only 4% per cent., or if in three years, only 3½ per cent. as the present premium would meanwhile sink).
Northern Pacific 7-30's selling at par in currency yield theinvestor 7 3-10 per cent. gold interest absolutely for thirty years, *free from United States tax*. $1,100 currency invested now in United States 5-20's will yield per year in gold—say $66; $1,100 currency invested now in Northern Pacific 7-30's will yield per year in gold $80.30. Here is a difference *in actual terms* of nearly *one-third*, besides a difference in per cent. in principal, when both classes are redeemed.
THE ROAD NOW BUILDING.—Work was begun in July last on the eastern portion of the line and the money provided by the sale to stockholders of some six millions of the Company's bonds, to build and equip the road from Lake Superior across Minnesota to the Red River of the North—223 miles. The grading on this division is now well advanced, the iron is being rapidly laid; several thousand men are at work on the line, and about the first of August next this important section of the road will be in full operation. In the meantime orders have been sent to the Pacific coast for the commencement of the work on the western end in early spring, and thereafter the work will be pushed both eastward and westward, with as much speed as may be consistent with solidity and a wise economy.
RECEIVABLE FOR LANDS.—These bonds will be at all times, before maturity, receivable, at 110, in payment for the Company's lands at their lowest cash price.
BONDS EXCHANGEABLE.—The registered bonds can be exchanged at any time for coupons, the coupon for registered, and both those can be exchanged for others, payable, principal and interest, at any of the principal financial centres of Europe in the coin of the various European countries.
HOW TO GET THEM.—Your nearest Bank or Banker will supply these bonds in any desired amount and of any needed denomination. Persons wishing to exchange stocks or other bonds for these can do so with any of our agents, who will allow the highest current price for all marketable securities.
Those living in localities remote from banks may send money, or other bonds, directly to us by express and we will send back Northern Pacific bonds at our own risk, and without cost to the investor. For further information, pamphlets, maps, &c., call on address the undersigned, or any of the Banks Bankers employed to sell this loan.

INVESTMENT BONDS.
The Northern Pacific Railroad Company having determined to close its 7-30 First Mortgage Gold Loan at an early date, and to exceeding thirty million dollars, and thereafter to pay no higher rate of interest than six per cent. on further issues of its bonds, *the limited remainder of the* 7 3-10 *loan is now being disposed of* through the usual agencies.
As the bonds of this issue are made receivable in payment of the Company's lands at 110, they are in constant and increasing demand for this purpose, and will continue to be after the loan is closed—a fact which much enhances their value and attractiveness as an investment.
The Company has more than 500 miles of its road built and in operation, including the entire Eastern Division, connecting Lake Superior and the navigation of the Missouri river; it has earned title to nearly Ten Million Acres of its Land Grant, and sales of lands have thus far averaged $3.66 per acre.
All marketable securities are received in exchange for Northern Pacific.
