HOME AFFAIRS.

CITY NOTES.

—The Ebbitt House now flies four flags.

—The depressions in the G-street pavement are now receiving attention.

—Improvements are needed on New Jersey avenue, between B and E streets.

—The railing surrounding the Lafayette square is undergoing a change of color.

—A new line of gas-pipes is being planted on Nineteenth street, at the junction of the Avenue.

—Now is the time to have your window "glass put in" and the roof of your house painted. Old Boreas says so.

—The exodus on account of the Baltimore races began yesterday, and the city will probably be deserted to-day.

—The sociable at the Congregational Church last evening was well attended, and proved a pleasant affair, as most of their entertainments do.

—This weather wreathes the faces of the new as well as "second-hand" stove dealers with smiles that are both "childlike and bland."

—Seventy-six excursionists from Salem, N. J., arrived in the city yesterday, and will return home to-day, after thoroughly doing the capital.

—The Union Chapel, on Twentieth street, will give an oyster supper on the 31st instant, to last three nights, for the benefit of the pastor, Rev. Dr. Leech.

—Alexander Dyer, colored, who was cut in the abdomen by Warren Johnson a few days since, is still lying in a precarious condition at his residence, on Twentieth street northwest.

—Speaker Randall has promised the subcommittee of one hundred that their petition for a District Committee of fair and unprejudiced men shall receive due consideration.

—A prayer-meeting, unsectarian, is held every morning, at nine o'clock, in the lecture-room of Dr. Sunderland's church, Four-and-a-half street, Sundays excepted. It is open to all.

—A new building has been finished on Thirteenth street, between F and G streets. Would it not be well to remove the rubbish which obstructs the passage way in front of the building?

—The Sovereigns of Industry are rejoicing just now over the fact that they contracted for 5,000 tons of coal in the summer for $3.75 per ton. They say it is a splendid item to fling in the face of old Boreas.

—A new building is in course of construction at the Soldiers' Home. It will probably cost, when completed, finished, about $20,000. It is to be used for a ten-pin alley and billiard saloon by the officers and soldiers.

—Whose business is it to see that the steps leading to the gallery of the House of Representatives are kept free from filth? Those in authority should look into the matter and see who it is that neglects his duty in this respect.

—Dr. Newman will return to the city tomorrow night, and will resume his place in the Metropolitan pulpit Sunday, and, having finished his lecture tour for the benefit of the church, which has been very successful, will now remain at home.

—The Ladies' Association of the First German Calvanist Church, corner of Sixth and N streets, will give a fair for the benefit of the church at St. Joseph's Hall, Fifth and H streets, beginning Monday, the 29th inst., and lasting throughout the week.

—About ten o'clock yesterday morning Miss Mary Robertson, eighteen years of age, who lives beyond Bending's bridge fell in a fit in front of the President's house. Officer Pearson took her to the Fourth Precinct Station, and when she had recovered she went home.

—Many new pictures have been received at the Corcoran Art Gallery lately. Among them is one painted by R. Princeteau, representing "the Father of his Country" seated on his prancing war charger, in full continental uniform. It is about fifteen feet high, and one of the finest on exhibition.

—Yesterday afternoon about two o'clock, as a Government wagon loaded with army stores was coming down the avenue, when near the corner of Eleventh street the hind wheel broke and the contents were scattered about the ground. A new wheel was procured and the goods sent to their destination.

—According to the Western Market regulations, hucksters are prohibited the use of the space on K-street packing fronting the market-house, which is reserved for the exclusive use of the country dealers. The regulations also prohibit vehicles of any kind, except private carriages, to stand on K street.

—Last evening, about 7:30 o'clock, an alarm of fire was turned in from box 217, owing to the explosion of a coal-oil lamp in the house of Henry Lightfoot, No. 1821 Cedar street, northwest. The fire department responded, but did not go into service, as the flames were extinguished with but a trifling loss by the neighbors.

—About 11:30 o'clock last night Officer Amies discovered fire in Wm. Gibson's marble works, on Pennsylvania avenue, near Twenty-second street, northwest. He turned in an alarm from box 315, but before the fire department reached the scene of the fire the flames had been extinguished by the officer, aided by citizens. Damage slight.

—Messrs. Losekam & Weaver have opened a restaurant and ladies' cafe on Pennsylvania avenue, adjoining Willard's hotel. There is a lunch room on the first floor, and several cozy dining rooms on the second floor, elegantly fitted up. It is designed to make the house first-class and highly respectable, and the proprietors have the best wishes of their legion of friends in this new undertaking.

—Why cannot policemen be instructed to kindly warn all parties who are illegally obstructing the sidewalk in front of their premises, or neglecting to repair the same where they have been torn up, of these infractions of law by omission, and of their liability to fine for the same, and then, upon a further neglect, to report them to the Police Court for action and fine? Eh?

A Seasonable Item.

As a matter of public interest we would invite attention to Messrs. Hahn Bros. extensive clothing house, corner of Seventh and D streets, it being the most complete establishment of the kind in the District, and one where a greater variety and larger stock of gentlemen's ready-made garments can be found than in any other house. As these gentlemen manufacture all the goods they sell, giving special attention to the style and quality of workmanship, they are enabled to sell at much lower figures than dealers who buy their stock from third or fourth hands, and can at the same time furnish a better class of goods.

Banquet to Hon. Edwin Cowles.

If this had been anything but a happy affair it might have been termed a funeral without a corpse, as Mr. Cowles unexpectedly had to leave the city during the early evening and consequently was unable to attend. The presiding seat was occupied by Hon. A. M. Clapp, with Col. A. W. Spates on his right. Among those present were Messrs. Rogers Kilgore, G. M. Barton of the Union, Craig, Rice and others. The table fairly groaned under the weight of good things. Toasts were drank as follows: "Our Order," "Our Country," "The President of the United States," "Free School," "Our Flag," "Maryland, &c.," after which the party adjourned.

Revival Services at Ryland Chapel.

A most extraordinary revival is now in progress in South Washington, in the church of which Rev. W. B. Owens is pastor, under the ministration of Rev. Thomas Harrison, an evangelist not but twenty-four years of age, and known as the "Boy Preacher" of Boston. At 6:30 o'clock last evening the church was crowded to its utmost capacity. This great audience occupied the time till seven o'clock in singing with great earnestness revival hymns, reminding one of the scenes in the Congregational Church during the Hazelwood meetings two years ago. Meetings are held both day and evening.

WORKINGMEN'S ASSEMBLY.

ORGANIZATION OF A NEW LABOR UNION.

Officers Elected—Sympathy for Striking Cigar-Makers—Co-operation with the Journeymen Tailors.

Pursuant to adjournment the delegates from the different trade organizations met at Baier's Hall last evening to perfect the organization of a general protective union. Wm. R. McLean, president, occupied the chair, with Mr. Jno. J. Meany, secretary. Mr. J. P. Hamilton, chairman of the committee appointed to draft a constitution and by-laws, submitted a report.

THE PRINCIPLES.

The preamble of the constitution states:

Whereas the emancipation of the working classes must be accomplished by the working classes themselves, and experience has demonstrated the utility of concentrated effort in arriving at specific ends that in their accomplishment all means may be adopted not incompatible with individual rights or the welfare of society, and it is deemed an object worthy of such effort to place labor and its rewards on an equal basis with capital;

Wherein the workingmen of this District are isolated when they should be united, and are without an exponent of their principles or organization to give an effective voice to public sentiment; and

Whereas it has been proven conclusively that without an identity of feeling, interest, and intuition in common the workingmen of the District of Columbia must inevitably be subjected to innovations upon their rights, calculated to conflict with their interests, and eventually tend to their demoralization and subjection to the combined interests of corporations and capital. Therefore,

Resolved, That we, the organized workingmen of the District of Columbia, form ourselves into an associated brotherhood, to be known as the National Workingmen's Assembly of the District of Columbia, to further advance our interests, and adopt the following constitution, by laws, and rules of order for our government:

THE OBJECTS OF THE ASSEMBLY.

Section 2 of article 1 provides that the object of this assembly shall be to unite all trades organizations and organized workingmen for the purpose of securing unity of action and mutual support on all measures of common good, direct representation of the working classes in municipal and State Legislatures and Congress, and diligently urging such needed legislation as may be to the welfare of the workingmen throughout the United States, and the repeal of all conspiracy laws enacted to the detriment of labor.

"Sec. 3. Each trade organization or organized body of workingmen shall be entitled to three delegates for one hundred or less membership, and shall be entitled to one delegate for each additional fifty or fraction thereof."

During the discussion of the proposed constitution, Mr. Emmons objected that the phraseology of the preamble would preclude representatives from unorganized trades.

Mr. Meany said that when the call from the Typographical Union was issued there were no trades unions in the city except the typographical.

Mr. Barker claimed that the preamble, as it was worded, would have a tendency to exclude larger trades organizations, as the trades would like to send delegates to the assembly.

Mr. Beron moved to strike out the word "organized."

This question was debated for some time.

Mr. Emmons, who represents the navy yard mechanics, and others, although in favor of retaining the word "organized," said that they would have no voices in the organization as soon as the preamble was adopted.

The chair stated that it would not be so considered, as all secretaries of delegates would have a reasonable time to organize their fellow tradesmen.

The motion to strike out was lost, and the constitution, by-laws and rules of order submitted by the committee were adopted.

OFFICERS ELECTED.

The Assembly then proceeded to the election of the officers. Mr. R. E. Crump was unanimously elected financial secretary. Mr. J. T. Suter was elected sergeant-at-arms. The chair was granted until the next meeting to announce the committee. Attention was called to the judiciary committee by Mr. J. Whitemore, who considered it very important that the committee should be appointed and get to work, especially as the eight-hour question was arising. The president appointed as the committee Messrs. Alfred Thomas, S. Haldeman and Wm. Spier. The duties of the judiciary committee are to collect and examine all laws relating to labor, and report all violations and evasions to the assembly.

SYMPATHY FOR STRIKING CIGAR-MAKERS.

Mr. J. P. Hamilton offered the following, which was adopted without debate:

Resolved, That this assembly tender its sympathy to the cigar makers who are now on strike in New York for reasonable wages.

Resolved, That we urge upon them the advisability of preserving their organization against all attacks from cigar manufacturers, and we denounce all laws and the mistaken public sentiment which sanctions the organization of capital and opposes the organization of labor.

Mr. Beron moved that a committee of five be appointed to prepare a declaration of principles.

After some debate the motion was adopted, and the President appointed as the committee: William Beron, J. P. Hamilton, J. M. Stump, E. L. Barker and O. P. Chappell.

THE JOURNEYMEN TAILORS.

A delegation of three from the Journeyman Tailor's Union at this point entered the hall, and were introduced to the meeting.

Mr. McDonald, spokesman of the delegation, told the meeting of the action of the Tailor's Union in striking on certain merchant tailors. He said that there were only about fifty journeyman tailors in the city, and forty-four of them belonged to the union. The union was strong and could beat the employers. They desired to have the assembly co-operate with them, and to embrace some plan of action as early day. The tailors would pay all the expenses of the meeting. Mr. McDonald severely criticised the press of the city, as lacking sympathy with the laboring men. He claimed that everything that was said at the journeyman tailors' meeting had not been reported, although there were two reporters present. He mentioned one paper which had retused to publish as an advertisement a notice to tailors requesting them not to take out work from a certain firm against which the journeymen had struck.

MASS-MEETING TO BE CALLED.

On motion of Mr. Ralston, a committee of five was appointed to co-operate with the Tailors' Union for the purpose of calling a mass-meeting, as follows: Messrs. Ralston, Clarkson, Landvoght, Emmons and Whitemore.

President McLean said that it struck him that it should go into this business with a vim, as while they were helping the tailors they would be helping themselves.

A committee was appointed to secure a hall, and the assembly then adjourned for one week.

Base Ball.

Yesterday afternoon the Democratic pages of the House of Representatives forced their Republican brethren on the Senate side to cry enough at the end of the fifth inning, the score then standing 21 to 0 in favor of the Democracy, who batted terribly, while their opponents were lamentably weak in this respect. Four home runs were made by the House pages. The following is a summary of the game:

Runaway and Accident.

Last night about 10 o'clock a valuable horse, belonging to Col. Wright, the contractor for sweeping the streets, was killed at the corner of Tenth and K streets northwest under the following circumstances: It seems that the watering-cart "Monitor" was stopped at the corner of Tenth and D streets for the purpose of being refilled, when the horses became frightened, and before the driver could regain possession of his lines they dashed down Tenth street at a furious gallop. At the corner of Tenth and K streets they encountered one of the street sweeping machines and ran into the lead horse. The pole of the watering cart was forced into his right side and completely disembowled him. The poor animal suffered terribly for a few moments when his agony was ended by a well directed shot in the temple by a policeman. He was valued by his owner at $180 and was considered one of his best horses. The runaways were stopped after the collision, but had received no injury.

Thalian Club.

The regular meeting of the Thalian Club was held last evening at the residence of Mr. Morsell, M street northwest. About thirty new contributing members were elected. Among the number were Hon. J. A. J. Creswell, Gen. Pelouze, Gen. Dan'l, Hon. Jere. M. Wilson, Hon. A. D. Hazen, W. Scott Smith, H. C. Smith, H. C. Swain, J. J. Albright and Peter Hanna. After the transaction of the usual routine business, the remainder of the evening was devoted to literary and musical exercises. A solo from "Mignon" was ably rendered by Mr. Morsell. Mr. Kimball's comic relections were convulsively funny, as they were artistically given. The solo "The Winds are Hush," by Miss Scudder, and duet by Messrs. Morsell and Keen were beautifully rendered. Readings and recitations were given by Messrs. Jefferson, Bangs, and Story, in a very finished manner. The evenings of this club are becoming very popular, and deservedly so, as their literary and musical selections are of a very high order. Their first complimentary entertainment will be given the second week in November.

ALL ABOUT A DEAD BODY.

Two Officials of the Board of Health Suspended from Duty.

Considerable excitement existed in the office of the health officer yesterday morning, and for a few minutes it had the indications of leading to a serious termination. The trouble all grew out of the disposition of the dead body of a pauper.

Dr. Wm. D. Stewart is the medical sanitary inspector, and Mr. Edward Shoemaker is a clerk in the office, and temporarily in charge of the book in which is recorded the burials at public expense. Last Thursday a poor man died, and there being no way of providing for him a decent burial, the health office was notified and some action taken in the matter, at least the clerk asserts that the medical sanitary inspector made a report of his doings in the premises, and that report was entered on the records. On the ensuing Saturday a clergyman who had cognizance of the case visited the health office and reported that the body still remained unburied, and characterized the delay as outrageous, and that some person was deserving of censure for dereliction of duty. The subject was referred to Dr. Stewart for immediate investigation and report, and that official made his his return the following day and the body was finally interred. Yesterday morning Dr. Stewart and Mr. Shoemaker were both in the rear room of the health office, and the discussion of the subject was revived. The medical sanitary inspector was proceeding to give his version of the affair, when he was checked by Mr. Shoemaker, who said that his statement did not correspond with the record and drew forth the book to prove it. The dispute increased in warmth, and in the midst of it Dr. Stewart called Mr. Shoemaker a liar. This aroused the ire of the mild-mannered clerk, and he seizing a chair, made for the medical sanitary inspector, who in alarm retreated to the front office, pursued by Mr. Shoemaker. Here Dr. Keene, the health officer, assisted by the pound-master, Mr. Samuel Festine, interfered and separated the parties. Dr. Keene immediately admonished both of the employees of the board about their conduct and suspended them from duty. He has reported the matter to the board for their action.

The Health Savans.

A regular meeting of the Board of Health was held last evening at their rooms. The following is the work done for the week ending October 20: Nuisances reported, 158; referred, 81; abated, 100; referred to Commissioners, 15; notices issued, 33; citizens' complaints, 32; causes of death investigated, 10; pecuniary conditions investigated, 5; burials at public expense, 5; investigations for local causes of zymotic disease, 3, viz: malarial fever, 1, and diphtheria, 2; premises found sanitary, 1; quantity of garbage removed, 148; dead animals removed, 28; privies cleaned, 67.

Inspections—16,631 bushels of oysters; 592 bunches of fish.

GEORGETOWN NEWS.

Robbery in the Night.

During the night of the 21st instant some unknown persons entered the premises of Mr. Hugh McMahon, on Pierce's Mill road, in the county, above Georgetown, and stole a lot of poultry, sweet potatoes and a bed quilt and then made their escape.

DESERTED THEIR VESSEL.

Monday evening George R. Harding, alias Cyrus Harding, and Thomas Tilley, alias Thomas Libley, two sailors on board the schooner W. H. Houston, lying at the Borden Mining Company's wharf, laden with coal for Providence, R. I., deserted their vessel. The captain of the craft, H. L. Gardner, made complaint at the Third Precinct Station, and the officers were instructed to keep a lookout for them. The jolly tars came ashore and were having a good time, when Officer Benton stumbled across them, about eight o'clock, in a low groggery, took them to the station house and locked them up until yesterday morning, when they had a hearing before Justice Buckey, who, after hearing the evidence in the case, remanded the prisoners to the station-house, where they were locked up until last night, when they were called for by the captain of the vessel and carried aboard the craft just prior to her sailing for Providence, R. I., laden with coal.

THE MARKET-HOUSE SEWER.

Yesterday at noon Lieut. Hoxie, engineer of the District, visited the market-house sewer, and made a thorough exploration of the same. He traversed its entire length, and at some points found the water nearly waist high. The plank flooring was found to be completely rotted. This caused the water to beat against the masonry and wash out cement and small pieces of stone, which caused the brick work to give way. Lieut. Hoxie gave orders to have a new platform laid at once and the holes in the masonry filled in with stone, after which the place where the break occurred will be rebuilt, and the sewer be as strong as when it was first erected.

Good News to Farmers.

Hon. John H. Baker, of Indiana, has prepared and will introduce in the House at the earliest opportunity a bill to prevent suits against persons who purchase an article for their own use which infringes a patent, unless the person at the time he purchases knows that such article is an infringement of some patent. The object of the bill is to prevent farmers and others who buy an article in the market from being harassed by suits for using a patented article. It leaves the owner of the patent to sue the manufacturer, and not the innocent user of the article.

A Banquet for Prof. Langston.

A meeting was held at the residence of John A. Grey last evening for the purpose of perfecting arrangements to tender a banquet to Hon. J. M. Langston. Prof. R. T. Greener presided, and W. C. Chase acted as secretary. The committee decided to have the banquet at the residence of Mr. P. C. Revels, 1312 L street northwest. The following reception committee was appointed: Messrs. G. Snowden, J. D. Kennedy, Daniel Murray, Dr. S. R. Watts, John Blumbeim, R. W. Tompkin and Wyatt Archie.
