PROPOSALS.

PROPOSALS FOR PAPER FOR UNITED STATES INTERNAL REVENUE STAMPS.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
WASHINGTON, D.C., Nov. 2 1877.

SEALED PROPOSALS will be received until 12 o'clock M. on Wednesday, November 28, 1877, for furnishing Dies of Stamps with distinctive Paper, to be used in the issue of United States Internal Revenue Stamps for the fiscal year ending June 30, 1878.

The paper to be made of best quality of linen, of such proportion of pure linen and of such strength, without clay or other adulterations, as will make it free from all reed-knots, grit, or other impurities. It is to be sized with vegetable size only, except as herein be stated, and can be fed individually to admit of writing it down on plate printing, and subsequently writing it up on it with pen and ink. But at the same time it should possess no greater strength than will be required to insure its printing and necessary handling. The degree of sizing and strength to be such as may be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Each sheet of the paper is to be closely watermarked throughout with the words "United States Internal Revenue" in some ornamental manner, so as to ensure the detection of the abstraction of any sheet or part of the sheet, and bear some part of the watermark.

Bidders will submit, with their bids, samples of the paper, as to quality, which they are prepared to furnish.

The quantity required for the balance of the fiscal year is about two hundred and twenty-five thousand (225,000) reams, of 500 sheets, to be white, plain green or such other color, and more or less will be required by time to time, as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, but the ordering matters to be so made as not to be in excess of the quantity authorized by law.

About ten thousand (10,000) pounds of the paper are to be tabulated with an initial string and calendar so that it can be gummed after being wet down and printed.

The paper is to be manufactured and delivered in such quantities, and in sizes of such sizes and weights, as this office may from time to time order, and must be count d, examined, and separated into lots of one thousand (1,000) sheets, each hundred separated by a paper tag, and each lot is to be tied with strong twine.

The paper is to be manufactured under the supervision of an agent of the Government, and, if deemed necessary, under the protection of a guard, to be stationed at the mill; and the contractor will be required to provide, without charge, in the building in which the paper is made, rooms suitably furnished, to be used as an office by such agent, and for the persons who may be designated to guard and count the paper; the rooms also to contain safes to store it in, when shipped; and he will be further required to conform to such regulations as may be made by the Commissioner, with the approval of the Secretary of the Treasury, for the proper removal from the mills to any of the paper manufactured under the contract. All paper will be weighed by the agent at the mill, subject to future examination; and the contractor will be required to furnish perfect paper with which to replace any returned on his account.

The contractor will be required to commence the manufacture of the paper within fifteen days from the signing of the contract, and will also be required to enter into a bond of ten thousand dollars ($10,000), with approved sureties for the faithful execution thereof.

The contract will bind the contractor to manufacture the special paper for the United States only.

Bills accruing under the contract will be paid quarterly.

Bidders will state in their proposals the price or prices per pound for the paper, delivered at the nearest railway freight-office or steamboat landing, to suit the convenience of the Government, at the option of said agent, in wooden boxes strapped with iron, coded and marked under his direction, all the expense of the contractor. The price of the special size and quality of paper should be a separate property.

Each proposal should be accompanied by a written guarantee, signed by two responsible persons, that if the proposal is made to the bid, the contract will be entered into and executed promptly on the making of the award.

Bids will not be considered unless made by persons actually engaged in the manufacture of paper; and the right to reject any and all bids, in case it should be deemed to the interest of the Government so to do, is hereby reserved.

The bids will be opened on the date and at the hour named above, and bidders are invited to be present.

Bids should be addressed "Proposals for Internal-Revenue Stamp Paper," and addressed to the Commissioner of Internal Revenue, Washington, D. C.

The quantity of paper required for annum is about two hundred and sixty thousand (260,000) reams, and while the contract will be made to terminate June 30, 1878, it may, by agreement of both parties, be renewed from year to year thereafter.

GREEN B. RAUM,

Commissioner.
