FORTY-FIFTH CONGRESS.

The Morning Hour Again Staved Off in the House.

Senate Corridors Closed Against Lobbyists—Dr. Mary E. Walker's Pension Bill Passed in the Senate—The Post-Office Appropriation Bill in the House—"Tallow-Candle Economy," &c.

SENATE.

WEDNESDAY, Jan. 29.

On motion of Mr. ANTHONY, the Senate non-concurred in the amendment of the House of Representatives to the joint resolution providing for the publication and sale of the narrative of the Polaris expedition, and a committee of conference was ordered.

The Senate resolution authorized the Public Printer to print 1,000 copies for sale at the cost of publication and 10 per cent. additional, and the House amendment authorizes the Public Printer to print an edition of the work when he shall have received a sufficient number of orders to warrant him in doing so.

Mr. EDMUNDS called up the resolution submitted by him yesterday, providing that during the remainder of the present session of the Senate no person not entitled to the privileges of the floor shall be admitted to the corridor or marble-room in the rear of the Senate Chamber.

Mr. WITHERS submitted an amendment to add to the resolution "except when accompanied by a Senator."

After discussion the amendment of Mr. Withers was adopted and the resolution agreed to as amended—yeas, 36; nays, 12.

Mr. SARGENT, from the Committee on Naval Affairs, reported adversely on bills to regulate the appointment of sailmakers in the United States Navy; for the relief of Commander Robert Boyd and the late Paymaster George Plunkett, U. S. N., all of which were indefinitely postponed.

Bills were introduced and referred as follows:

By Mr. ROLLINS: To reduce the number and fix the relative rank of the civil engineers of the navy.

By Mr. SPENCER: To authorize the President to restore Benjamin Riley, jr., to his former rank in the army.

By Mr. MITCHELL, Providing for the repeal of the act of March 3, 1877, to provide for the disposition of the Fort Dalles military reservation in Oregon.

By Mr. GARLAND (by request): Authorizing the Secretary of the Treasury to make contracts for the recovery of money, property, or the proceeds of the sales of property belonging to the United States, and for other purposes.

Mr. HAMLIN called up the Senate bill for promoting the efficiency of the corps of chaplains of the United States navy, and it was passed without discussion.

It amends various sections of the Revised Statutes of the United States, so as to provide that no person less than twenty-five years nor more than thirty-five years of age shall be appointed chaplain in the navy, and fixes their relative rank as follows: Four to rank as captain, eight as commander, and all others as lieutenant commander. It fixes their pay according to duties, length of term of service, &c., and provides that the whole number of chaplains shall not exceed twenty.

Mr. PLUMB moved to take up House bill providing for the payment of counsel fees in the Osage ceded land suits; but objection was made by Mr. Sargent.

On motion of Mr. VOORHEES, the Senate proceeded to consider bills on the calendar granting pensions to various persons, and a number were passed.

Among the bills passed was one granting a pension of $50 a month to Ann M. Paulding, widow of Hiram Paulding, late Senior Rear-Admiral United States Navy.

When this bill was before the Senate Mr. Saulsbury, who opposed the recent passage of the bill granting arrears of pensions, submitted an amendment to provide that that act should not apply to the case; but after a brief discussion the amendment was rejected and the bill passed.

The Senate bill increasing the pension of Dr. Mary E. Walker to $20 a month, and House bill granting a pension of $50 a month to Mrs. Eliza H. Anderson, widow of General Robert Anderson, U. S. A., were passed.

At 2:10 p. m., the time for the consideration of the pension bills having expired, the Vice-President laid before the Senate the unfinished business, being Mr. Edmunds' resolutions in regard to the thirteenth, fourteenth, and fifteenth amendments to the Constitution of the United States.

Mr. CONKLING said he believed the Senator from Alabama (Mr. Morgan), who submitted a substitute for those resolutions, was entitled to the floor. If that Senator did not desire to go on to-day with his remarks he moved that the Senate proceed to the consideration of executive business.

Mr. MORGAN said he did not claim the floor.

The motion of Mr. Conkling was then agreed to without a division.

While the galleries were being cleared the Vice-President laid before the Senate the bill which passed the House yesterday to restrict Chinese immigration.

Mr. SARGENT said he desired to call the attention of the Committee of Foreign Affairs to the fact that they had a bill similar to this before them during the all of this Congress, and he hoped there would be speedy action upon the matter now.

The bill was referred to the Committee on Foreign Relations, and the Senate, at 2:20 p. m., went into executive session.

At 2:15 the doors were reopened.

Mr. Allison was appointed a member of the Judiciary Committee in place of Mr. Christiancy, to-day appointed Minister to Peru.

The Senate then adjourned.

HOUSE OF REPRESENTATIVES.

Mr. STONE (Mich.) introduced a bill to reorganize and discipline the United States militia. Referred.

Mr. BLOUNT moved to go into Committee of the Whole.

Messrs. CONGER and HOOKER inquired if the morning hour was not the regular order.

The Speaker replied that it was not, as the motion of the gentleman from Georgia was a privileged one.

The vote on Mr. Blount's motion resulted, by tellers, 88 to 82; and the yeas and nays were demanded and ordered by the Republican side of the House.

The Democrats, as a rule, voted in the affirmative, though a few of the Southern members voted with the body of the Republicans in the negative. The vote resulted—yeas, 118; nays, 115.

There was a good deal of excitement during the roll-call, and previous to the announcement a number of changes were made, Mr. Townsend (N. Y.) who had voted in the affirmative, saying, as he changed his vote to "No," that he did so "by request."

The House then, at 1:05, went into Committee of the Whole (Mr. Cox, of New York, in the chair) on the Post-Office appropriation bill.

Mr. FORNEY offered an amendment repealing the proviso to the bill "making appropriation for deficiency in the appropriation for postal transportation by railroad for the fiscal year ending June, 1879," which forbids any increase in the postal-car service beyond what existed at some time during that fiscal year. Adopted.

Mr. HUNTON offered an amendment providing that the Postmaster-General shall make no deficiency during the current fiscal year by placing postal-cars on any line. Adopted.

Mr. BAKER (Ind.) moved to increase the appropriation for route agents from $10,75,000 to $1,125,000. Adopted—106 to 70.

Mr. FENN offered an amendment increasing the appropriation for local agents by $10,000. He referred to some remarks of Mr. Blount about the "little Territory of Idaho," and stated that that "little Territory" was much larger than the State of Georgia, and as large as the New England States, New Jersey and Delaware, combined. In fact, the latter State was not large enough to make a fraction of a county in Idaho. There were no mail facilities in Idaho, and in the winter of 1862 he had been obliged to pay $2 for every letter he received.

The amendment was rejected.

Mr. LATHROP offered the amendment providing that if the stamps required by the Post-Office Department can be manufactured at less than their present cost by the Bureau of Engraving and Printing, the work shall be transferred to that Bureau. Adopted.

A similar amendment in regard to postal cards was rejected.

Mr. YOUNG (Tenn.) offered an amendment providing that all appointments in the Post-Office Department shall be apportioned among the several States and Territories, stating that he did so out of consideration to the States of Ohio and Maryland. Rejected.

An appropriation of $20,000 was made for preparing a new edition of the laws of the Post-Office Department, and the committee then rose and reported the bill to the House.

The first amendment on which a separate vote was demanded was that increasing the appropriation for clerks in post-offices from $3,460,000 to $3,600,000, and it was adopted—yeas, 121; nays, 109.

The amendment increasing from $1,900,000 to $2,000,000 the appropriation for the payment of letter-carriers was adopted—yeas, 137; nays, 92.

The following amendments were then agreed to:

Increasing the appropriation for transportation on star routes from $5,600,000 to $5,900,000—yeas, 172; nays 53. For railroad transportation, from $8,715,000 to $9,000,000—yeas, 118; nays, 97; and for steamboat transportation, from $750,000 to $900,000—yeas, 139; nays, 86.

The House then, without final action on the bill, at 4:55 p. m., took a recess until 7:30, the special order for this evening's session being the consideration of reports from the Committee on Commerce.

EVENING SESSION.

Mr. TOWNSHEND (Ill.) introduced a bill repealing the duty on quinine. Referred.

Mr. BURCHARD offered a resolution calling on the Secretary of the Treasury for information as to the amount of drawbacks paid during the last fiscal year on exported sugar and molasses claimed to have been refined or manufactured from imported sugar, melado, or molasses. Adopted.

Mr. DUNHAM from the Committee on Expenditures in the Department of Justice, introduced a bill fixing the compensation of United States district-attorneys. Printed and recommitted.

The following bills were reported from the Committee on Commerce and passed:

Bill affixing a penalty of $200 for the violation by any sailing vessel of the laws in regard to lights and fog whistles, and a penalty of $500 for such violation by steam vessels.

Also bill authorizing the Chillicothe and Des Moines Railroad Company to construct a bridge across the Missouri River at Lexington, Mo. Passed.

Also bill authorizing the Bloomfield Railroad Company to construct a bridge across the Wabash River within six miles of Miron, Ind. Passed.

Mr. REED, from the same committee, reported a bill to facilitate the negotiation of bills of lading and other commercial instruments, and to punish fraud thereon. Referred to Committee of the Whole.

Also granting an American register to the Canadian steam ferryboat Geneva. Passed.

Also a bill providing that all private foreign steam vessels carrying passengers from any United States port to any other port shall be subject to the laws relative to life preservers, &c., and making such vessel liable to visitation and inspection by the proper officers in any port of the United States. Passed.

Mr. DUNNELL, from the same committee, reported back the bill defining the jurisdiction of the United States over the harbors and the navigable waters of the United States. Referred to Committee of the Whole on a point of order.

The House then at 9:50 adjourned.

GRAIN MARKET.

Wheat—The market for wheat remains dull and inactive, in the absence of any important receipts, and transactions are necessarily restricted by the limited supply. We only hear of occasional sales in small lots, at the range of 86@$1 03 for good to prime Fultz and $1 05@1 07 for Lancaster. There is, however, a good milling inquiry for the top grades of both descriptions, with a free disposition on the part of buyers to replenish stock at full market valuations.

Corn—The receipts of corn continue to increase very materially and the demand has somewhat slackened. We write the market dull and easy at nominal quotations.
