GEORGETOWN NEWS.

Collected by Republican Reporters.

Yesterday afternoon a white man named William Johnson was arrested by Officer Volkman on the charge of vagrancy. He will have a hearing in the Police Court this morning.

Edward Turner, colored, was arrested about eight o'clock yesterday morning, charged by his father, Moses Turner, with disorderly conduct, and was fined $5 in the Police Court yesterday morning.

Yesterday morning Officer Grafton Harper arrested John Warren on a warrant sworn out by Bettie Franklin, charging him with assault and battery. The accused was tried in the Police Court and fined $5.

The water will be drawn off the Cumberland level of the Chesapeake and Ohio Canal on Saturday next for the purpose of cleaning out the bed of the level and basin. The work will be completed in about ten days.

Edward Pitcher and Charles Smith, two colored boys, were arrested at an early hour yesterday morning by Officer Grafton Harper for stealing coal from the Consolidation Coal Company's wharf. The former was fined $10 in the Police Court yesterday and the latter was dismissed.

Major Sylvester Noland, the agent of the Maryland Coal Company, who has been in bad health for some time past, has been advised by his physicians to make an extended tour through the South, in consequence of which the Major will start in a few days, and, accompanied by Mr. Trunnell, a personal friend, will travel through the Southern States as far as Tallahassee, Fla. The Major carries with him the best wishes of his host of friends for a pleasant trip and his speedy return to health and that vigor in business pursuits for which he has been so highly commended by the business community of Georgetown.

Monday night the Kentucky Minstrels, a colored organization, gave an entertainment at the hall of the Old Corporation Market. Coupled with the minstrel entertainment was a ball, which commenced as soon as the minstrel performance was over. There were about 300 present, and as soon as the ball commenced disorder began, and those living in the neighborhood were unable to indulge in their quiet slumbers. About two o'clock the disorder became so intense that Sergeant Hess, deeming it inadvisable to allow the affair to proceed, accompanied by Officers Grafton Harper, Augustus Brown, Benjamin Harper, and Shanks, entered the building and broke up the gathering. After the mob was broken up, and while the officers were standing on the sidewalk they were attacked by the crowd and Officer Brown was struck on the head with a heavy club and considerably stunned. A general melee ensued, during which several shots were fired by the officers, which were returned by the negroes, and at one time the scene had the semblance of war. During the firing a bullet passed through the glass in the door of Mr. Peter I. Hurley's glass and china store, No. 182 Bridge street, nearly opposite the Market house. The ball was sent with such force as simply to make a round hole in the door glass; but it glanced to the shelving and demolished several fine vases and numerous pieces of crockeryware. Subsequently Officer Brown arrested William H. Lewis and William A. Cole, and Officer Grafton Harper arrested a woman, who gave her name as Mary Hill, who were on the street about four o'clock in the morning, apparently filled with common whisky and acting in a very disorderly manner. They were locked up in the station and yesterday morning were fined $5 each in the Police Court for disorderly conduct.

A Peoria Romance.

The Peoria, (Ill.) *Transcript* relates an incident in the life of a young girl named Lizzie Pratt which has an air of romance about it. The girl was the daughter of a soldier of the late war, who died in the army when she was about three years of age. Her mother, having married, removed to Rome, Iowa, to reside, while Lizzie remained at service, residing with families in the vicinity of Dunlap, in Peoria County, the last being that of a Mr. Smith. In November last she left the Smiths to visit her mother in Iowa. A few days after she left Mrs. Smith missed an imitation tortoise shell neck-chain, a pocket-book containing $18 or $20 in money, and some other articles, and suspicion was directed to Lizzie. This was strengthened by the fact that a chain resembling the one lost by Mrs. Smith was found on the person of a young man named Mendenhall, who had been an admirer of the girl, and who claimed to have received it from her. He professed to have faith in the honesty of his beloved, and went to Iowa to induce her to return and face the accusations made against her, but found her already making preparations to do so. She returned voluntarily without waiting for a requisition, To strengthen the suspicions already entertained against her, a pocket-book which she had bore so strong a resemblance to Mrs. Smith's that witnesses were ready to swear to its identity. The girl was indicted, and last week her trial came off in the Circuit Court of Peoria county. It was shown on the trial that she had purchased all the articles at a certain store in the city of Peoria, and she was triumphantly acquitted, the jury scarcely taking time for deliberation. Attempts were made to induce her to confess the crime on the promise of immunity from punishment, but she protested her innocence throughout, and was finally rewarded for her firm determination to shield her name from dishonor by her complete vindication.

A SELF-CURE, WITHOUT MEDICINE,

For all Diseases Arising From a Loss of Vital Force.

Dyspepsia, Paralysis, Rheumatism, Epilepsy, Hysteria, Weak Lungs, Nervous Debility, Weakness, Kidney Complaints, Impotency, and Physical Prostration.

This improvement in electric appliances embraces the effective properties of other inventions without requiring vinegar or other liquid to excite action. The metals in this belt are so nicely adjusted that the heat and moisture of the body is sufficient to evolve the current of electricity. They encircle the body with Electric and Magnetic influence, restore the Nervous and Debilitated, and impart New Life and Strength to the waning organism.

THE AMERICAN INSTITUTE OF NEW YORK has this year awarded A DIPLOMA FOR THIS INVENTION, after having been thoroughly examined and tested by the eminent Physicians and Electricians appointed for the purpose by the Directors of the Institution. Some of the most eminent physicians of the city have certified to the merits of this Therapeutic agent.

Read the following from Dr. Guernsey, No. 18 West Twenty-third street: "I have used Bryan's Electric Voltaic Belts with very decided benefit. In all cases where continued action is required they give very decided satisfaction. Their construction is thoroughly scientific, and physicians will find them of great aid in cases that resist every other form of treatment.

"ALBERT GUERNSEY, M. D."

JOSEPH SAUNDERS says: "My disease, nervous debility, and all its horrors, unfitted me for business, society, or domestic life. Your belt has proved a sovereign balm and effected a perfect cure."
