The Young Republicans.

The Young Men's Central Garfield and Arthur club met at their headquarters, No. 1311 F street northwest, last evening, with the president, Mr. William F. Cooper, in the chair and Mr. Albert N. Dawey secretary. A letter was received from Hon. John Jay Knox accepting honorary membership in the club and offering his services in any manner that will tend to the success of the club and the cause in which it is enlisted. A letter was read from D. B. Snow of La Salle county, Ill., stating that the political outlook in that state was good for the republicans and asking for documents. The invitation to attend the Hyattsville meeting on Saturday next was read and accepted. After transacting regular routine business the club adjourned, to meet on Thursday next at 7:30 p. m.

The Columbia Union Veterans.

A very full attendance of the Columbia Union Veterans' club (Boys in Blue) was held at Grand Army hall last evening. President Hart being indisposed, requested First Vice-President H. W. Brolsford to preside, with Thomas H. MacBride secretary. Forty-six active members and fifteen honorary recruits were added to its membership. On next Wednesday evening there will be an election of officers for the three companies thus far composing this club. It will undoubtedly be 500 strong before the "ides of November." They mean business, and to-day it is the most flourishing club of "Boys in Blue" in the District.

Acquitted of a Serious Charge.

The case of Buell B. Chase, the umbrella man, charged with outraging Annie Fitzmorris, a young girl living at his house, was tried in the police court yesterday and the defendant discharged from custody. Mrs. Chase testified to sleeping with Miss Fitzmorris on the night the latter charged that the first offense was committed. Mr. Chase testified that the girl having gone away from his house and remained out all night he turned her away for good, and Mr. John Hitz and Miss Mary Alice Griswold testified to the girl's bad reputation for veracity. The court in dismissing the case remarked that the story told by the complainant appeared improbable.

The School-House Battle.

The case of Frank Thyson against the District commissioners, praying an injunction to restrain them from erecting a school-house on the Corcoran square, was terminated in the equity court before Justice Cox yesterday. His honor was delivering an opinion in the case, and it became quite evident that the bill would be dismissed, when Colonel Cook of the counsel for the plaintiff asked that the case be certified to the general term to be heard in the first instance, which was done.

A Base-Ball Disappointment.

The Athletic ball club of Philadelphia had arranged to play the Nationals in this city to-day and to-morrow, but late last night a dispatch was received from them stating their inability to come. No cause is given for it. This will be a disappointment to the lovers of the sport, who anticipated witnessing some good ball playing.

AT WORK IN A HOLY CAUSE.

First Day's Session of the Christian Missionary Society.

The annual convention of the Christian Missionary society of Maryland and the District of Columbia commenced its session yesterday morning in the Vermont-avenue church of that faith. The convention will last over to-day and to-night. This is the faith of which General Garfield is a minister, and which, though numbering comparatively but a small membership on the Atlantic slope, is very strong west of the Alleghanies, particularly in the older settled portions of that country. In the former section it has about 400 churches and 40,000 members, while west of the Blue Ridge it embraces 700,000 communicants.

The convention met at 10 a. m. yesterday, Rev. F. D. Power, president of the society, in the chair, Rev. W. H. Schell secretary. The exercises were introduced by a social meeting, led by the president. After prayer by Rev. S. B. Moore an address on the work of the society was delivered by Rev. F. D. Power, followed by a sermon from Rev. S. F. Fowler of Beaver Creek, Md., on "The Adaptation of the Bible to Man." The following delegates were then enrolled: Rev. F. D. Power, Benjamin Summy, H. Garrett, Charles Shelton, Herbert Shepard, Frank Moore and H. C. Siler, from the Vermont-avenue church, Washington; Thomas H. Smith, George H. Lewis, William Jackson, J. B. Thomas, Mrs. J. B. Thomas, Mrs. John Williams, jr., and Miss Minnie Sitler from Baltimore; H. S. Lavey, J. W. Newcomer and S. B. Moore of Hagerstown; Rev. William H. Schell, J. B. Miller, Mrs. E. Miller, Miss Mary Higgins, Miss Annie McCormick, Miss Roberta Baker, George Stone, Frank Higgins, George P. Braddock and Miss Grace Braddock of Rockville, Md.; Dr. J. B. Crane and J. Alfred Crane of Harford county, Md. The president appointed Rev. S. F. Fowler, J. A. Newcomer, Charles Shelton, J. R. Miller and George H. Lewis a committee on officers for ensuing year; Rev. J. B. Crane, J. B. Thomas and Benjamin Summy, committee on time and place of next annual meeting. Short addresses were then made by Revs. F. D. Power and J. B. Crane, and the convention adjourned to 3:30 p. m.

On reassembling, the committee on permanent organization reported for president Rev. H. D. Clark; secretary, Rev. W. H. Schell; treasurer, J. B. Thomas; H. Lavey, H. S. Platt and Rev. F. D. Power, additional members of the board. Report adopted. Rev. F. D. Power, at the request of the newly-elected president, who was somewhat indisposed, remained in the chair.

The secretary's report was read and adopted and a letter from Rev. E. J. Gantz read and filed. The treasurer reported $225.30 on hand November 12, 1879; received during year, $411.09; paid for expenses, $380.33, leaving on hand $281.06. The president introduced the representative of the women's board of missions, Mrs. Clara Schell, who read an address on their work and a letter from Mrs. Wallace. After complimentary remarks by the acting president the convention adjourned until last night.

The services of last night began with singing and prayer, and were followed by an eloquent sermon from Rev. H. D. Clark of Baltimore. Mr. Clark is a gentleman of medium height and size, with a splendid head, brown hair and light brown beard, and a voice of much melody, rendering the listening to a sermon by him a matter of pleasure. His text was "For God so loved the world that he gave His only begotten Son, that whosoever should believe on him might not die, but have everlasting life."

The theme of the discourse, which was at once eloquent, logical and impassioned, was "The love of God and the truth of His promises." Briefly adverting to the joy which the promises of Jesus conferred upon the believer and the efforts of the sceptical to take away such consolation without offering any return therefor, he painted a touching and terrible picture of what the last hour would be if the sceptical were correct. Only the God of the christian was a God of love. Those who were learned in the religious love of Egypt, of India, of Greece, of Rome, of Scandinavia, knew that neither Isis, nor Siva, nor Dyaus, nor Zeus, nor Jove nor Odin was a God of love. The triumph of christianity over all minds, of all classes, from the lowest to the great lords of thought, have come humbly and earnestly to the foot of the cross, saying: "Lord, where shall we go for eternal life if not to thee?" It was the most marvelous thing in the universe that there should be a sceptic, a dender of God. Back of the world and greater than it was mind. Back of the poem was the poet, and he was greater than the poem. Back of the picture was the painter, back of the sermon on the mount was the Christ. Painter was greater than picture, Christ was greater than the golden rule He enunciated. Back of the universe is God, and God is greater than the universe. And that God is love. God has already given His greatest gift to the world, His only begotten Son. If the hearts of mankind are not touched by that gift there is nothing greater to give. Even with Deity the limit is reached. That gift was freely given. Love always freely gives. We cannot fathom the depths of God's nature until we remember that it is love, and then the simplest child can approach and understandingly say, "Our Father."

Dr. Clark closed with an impassioned and beautiful peroration that deeply touched the hearts of his large congregation.

After the sermon the 2334 hymn was sung, and the sacrament of immersion observed in the case of a gentleman, after which the congregation was dismissed.

This morning Rev. S. P. Moore of Hagerstown will preach on "Co-operation." In the afternoon Brother Siler of the Vermont-avenue church will preach on the "Sunday-school and Its Work." At night Rev. Dr. J. B. Crane will deliver the sermon.

National Fair Notes.

The directors of the National Fair association have contracted to run shafting under Machinery hall, so that the machinery on exhibition will be kept in constant motion. C. Aultman & Co. of Canton, Ohio, the manufacturers of mowers and agricultural implements, will supply the power. This firm will also supply the power for running gang-plows, and it is expected that the exhibit of machinery for agricultural purposes will be very fine.

The "Perfection" steam incubator, to be exhibited at the fair, was shipped from Philadelphia yesterday, and will be set up and put in operation at the national fair rooms to-day, an order having been sent in advance to procure 200 fresh eggs for hatching purposes. This incubator is a sort of leviathan in its way, being capable of hatching chickens by the wholesale, only requiring a corps of active hens to supply the demand for eggs.

THE WATER REGISTRAR'S REPORT.

Miles and Miles of Pipe—The Demand for an Increased Water Supply.

The report of Water Registrar Cox for the year ending with June 30, last was submitted to the District commissioners yesterday.

According to the report the total length of water-mains laid in the District of Columbia is 924,068¾ feet; laid by the United States government, 30-inch, 12-inch, 6 inch and 4 inch mains, 93,750 feet; laid by the District of Columbia, 36, 30 and 20-inch mains, 31,639 feet; laid by the late corporation of Washington, 6 and 4-inch mains, 55,000 feet; laid by the water department since its organization to June 30, 1879, 12, 6 and 4-inch mains, 747,470½ feet. Of the above there were laid in the last fiscal year 15,887 feet in various parts of the city; 3,024 feet of 6 inch pipe was laid in place of old cement pipe on Road street, Georgetown, and 1,524 feet of water mains were lowered. During the year 15 fire-plugs were erected, making a total of 836 now in use. Seven fire-plugs have been removed to new curb line. One hundred and eight repairs have been made to fire-plugs. The plugs have been flushed about 7,000 times, and oiled about 21,000 times. During the year there were inserted 14 stop-cocks and boxes, 14 stop-cock boxes have been raised and lowered, 27 repairs have been made to stop-cocks, and stop-cocks have been oiled 3,600 times. Thirteen 6-inch, one 12-inch and one 12x30-inch "T" branches were inserted. There are in use in Washington 268 hydrants, in Georgetown 49 hydrants. Twelve old hydrants were replaced with new ones, and 18 new ones erected during the year. Six hundred and thirty-seven repairs have been made to hydrants, and three hydrants have been removed to new curb-line. During the year 660 taps, ¾, ¾, and 1-inch in diameter, were made. Twenty-five repairs were made to public fountains, 1,085 services were measured and examined, and 23 repaired and lowered. On Tenth street, between B. and C. streets southwest, there were 410 feet of service pipe lowered. Twenty-five leaks in mains were repaired. There are 442 pumps in use in the District, of which 4 were erected during the year; 4 pumps were removed to new curb, 629 repairs were made and 10 wells were cleaned out. During the year $190,409.59 was collected for the water department, as follows: Water tax, $26,958.42; water rent, $163,683.37; water taps, $1,980; water permits, etc., $1,787.80. The expenditures of the department amounted to $166,338.18, including $32,180.83 refunded and $74,025 interest paid to sinking fund. The total assessment for water-mains laid during the year was $4,482.03. On June 30, 1880, there was $69,502.39 of water-main tax and $23,456.06 interest outstanding. The principal of water-main tax assessed to the District of Columbia and unpaid June 30, 1880, amounted to $2,272.12; assessed to the colored school and unpaid, $119.52. Water has been introduced into 865 new places during the year. Number of houses and miscellaneous places using Potomac river water on June 30, 1880—domestic, 16,637; miscellaneous, 2,203; total, 18,840. Basing the amount of rent on the above places at the new rates the aggregate amount will be $110,005.15. The estimate of expenses of the water department for the fiscal year ending June 30, 1881, amounts to $42,700, which includes $1,800 for a stop-cock for blow-off and $3,250 for erecting pumps, etc. The estimates do not include the cost for laying water-mains, as they are paid for by special assessment. The report says that the affairs of the department are in a better condition than they have heretofore ever been and are improving every day. When the delinquent water-main taxes are all paid up, which is only a question of a short time, the registrar feels confident that the department will then be in a condition to reduce the water. He thinks if congress takes prompt action during the coming winter to remedy the trouble arising from an insufficient water supply, the citizens of Washington and Georgetown will have less grounds of complaint than in any other city in the union. If something is not done soon to give the cities an increased supply, we will have a water famine like that experienced by many adjoining cities. He urges the extension of the dam at the Great Falls, and the laying of an additional large pipe 4 feet in diameter from the reservoirs at "Drovers' Rest," across Rock creek into Washington. The report also speaks of the low condition of the Potomac during a part of the year, the distribution of 18,000 circulars, calling attention to the waste of water, and recommends the placing of a 30-inch stop-cock for a blow-off, as suggested by Inspector Larman, near the intersection of New Jersey avenue and D streets, for the purpose of flushing the large mains to clear them of accumulations.

In the case of the collision of the Arrowsmith and the Mattano on the 30th of August, the pilot of the Arrowsmith is exonerated. In the report the inspectors say: "As the racing of steamers is always attended with danger, we caution all masters and pilots of steamers against racing."

THE INDUSTRIAL PARADE.

Business Transacted by the Executive Committee Last Evening.

The executive committee having charge of the arrangements for the approaching industrial parade met at the National hotel last evening, Mr. W. J. Stephenson in the chair and Mr. J. P. D. Phelps secretary. As an evidence of the interest taken only one member of the committee failed to answer to his name, and he sent a good apology for his absence. The business of the evening was the discussion of a programme and route of march to be presented to the mass-meeting at Odd-Fellows' hall to-night. It was deemed advisable not to charge an entrance fee, but limit the number of vehicles of any one firm to two. The secretary was instructed to invite the Bakers' and Butchers' association, the Bicycle clubs of the District and all local military organizations to participate in the parade, and to request the fire commissioners to order out the fire department to assist in making a good display. The selection of judges to award the three prizes, $100 in cash, a gold medal and a diploma for the most original entries, was intrusted to the following committee: Messrs. Magruder, Moss and Yerkes. Eleven prominent business men will be requested to perform this duty, their names not to be divulged until the morning of the parade. Messrs. Leadingham and Widdicombe tendered the use of their Tally-ho coach to the judges and representatives of the press and it was accepted unanimously. It was decided not to charge an admission fee for vehicles, but make it free for all, applications to be sent in as speedily as possible to Mr. J. P. D. Phelps at the office of the Adams Express company. The procession will form on Maryland avenue, at the foot of the capitol, and will march over a route to be designated by the chief marshal, Mr. Frank K. Ward. No band-wagons will be permitted in the line, all bands of music being compelled to march on foot. The finance committee presented a gratifying report, and all the indications point to a splendid turn-out.

AMUSEMENTS.

National Theatre.

"A Golden Game" is the attraction at the National, and our readers are reminded that only three more performances will be given.

Ford's Opera-House.

Leavitt's Vaudeville and specialty combination are giving splendid performances at the Opera-house, and no one should fail to attend.

Summer Theatre Comique.

There will be a matinee at the Comique today, in addition to the evening performance, at which the "solid variety entertainment" which has proved such an attraction during the week will be given in full.

Herrmann.

Herrmann is billed to appear at the National next week, which insures the Washington public a week of novel amusement. Since the death of Heller, Herrmann has been without a rival as a wizard, prestidigitator, illusionist, magician and master of diablerie and soysterie. In addition to Herrmann's wonderful entertainment the programme will include performances by the grotesque Lorella, the Onofri brothers and Val Vose, the ventriloquist.

THE Howland Dental Association, 211 Four-and-half street, use only S. S. White's artificial teeth, Philadelphia. Price, $7 per set. Seeadvt.

ALEXANDRIA AFFAIRS.

ALEXANDRIA, VA., Sept. 23, 1880.

The schooner Annie M. Allen has arrived at the ship-yard for repairs.

The Alexandria light infantry is making arrangements to attend the fair next Thursday afternoon.

The funeral of Mrs. Margaret Hyde took place from the residence of her son-in-law, Mr. Henry Herber, this afternoon.

The arrangements for the parade of the fire department next Tuesday, to attend the opening of the fair, have been completed. Chief-Engineer Leadbeater will be the marshal.

The horses attached to Mr. William H Thornton's new chariot, which made its first appearance on the streets yesterday, became frightened near the Virginia Midland railroad depot, and starting off overturned the vehicle, damaging it considerably.

The captain of the canal-boat F. A. Fendall was before Justice Motter yesterday afternoon for refusing to pay for the shoeing of his mules, and upon judgment being given against him he became very angry and expressed great astonishment that a stranger should be compelled to pay a debt when he didn't want to. There was no justice, he said, in Alexandria.

THE most assiduous parental attention will frequently fail to prevent Coughs, Colds, Croup, etc. Dr. Bull's Cough Syrup is a most valuable remedy to have convenient when needed. Price 25 cents.

CITY ITEMS.

I HAVE suffered from a kidney difficulty for the past ten years, accompanied with nervous spasms. Physicians gave me but temporary relief, but after using three and one-half bottles of Warner's Safe Kidney and Liver cure, my nervous spasms were entirely relieved. My age is seventy-seven years. I recommend this great remedy to all suffering from nervous troubles. MRS. MARY REESE.

I have completed a simple instrument for taking outlines of difficult forms, so the cutter may have the shape as well as the measure of his customer before him while preparing his work.

I carry in this department large assortments of COATINGS, OVERCOATINGS, SUITINGS, etc. Also, CORDUROYS, MOLESKINS and VELVETEENS.

Parties writing for samples by post will please describe as nearly as possible the price and sort of goods desired.

RULES FOR SELF-MEASUREMENT SENT ON APPLICATION.

The object of Modern Tailoring is not so much to give Fit as it is to give Form and Style.

Alterations usually defeat this object, and hence I shall prefer to make anew rather than undertake extensive changes.

FURNISHING GOODS.
NOTHING BUT STAPLES, AND EVERYTHING THE BEST OF ITS KIND.

SHIRTS of the most superior wearing and fitting qualities. Sixteen years spent in the effort to reach the present condition of superiority. Examine my improved method of shortening the sleeves, and my patent fly-back to prevent the stud button from rubbing the neck.

OUR SECOND SEASON.

In making our debut for the second season in this city, we desire to return our sincere thanks to the citizens of Washington and vicinity for the very liberal share of patronage they have bestowed upon us, and for the numerous kind expressions of satisfaction we have received in regard to our mode of conducting business. Now, at the opening of the Fall season we have a few statements to make to our friends and the public in general, to which we ask particular attention, viz.: We have not been idle since opening in your midst, but have been carefully studying the wants and peculiarities of this trade, and in selecting and manufacturing our present stock we have had the ideas we gained prominently in mind, and have worked upon them in making up our styles. We feel assured that we are now able to cater successfully to any variety of taste, from the most simple to the most fastidious, in clothing. We only solicit an examination.

In Business Suits we make it a point to have our stock very complete at all times, at prices ranging from $7 to $20. All well made and carefully trimmed.

In Dress Suits, everything in the most recherche designs will be found, ranging in price from $15 to $30.

BLACK GOODS ARE A PARTICULAR SPECIALTY WITH US.

Youths' Suits in great variety, from $6 to $15.

A great abundance of suits for little and large boys will always be found at the FAMOUS, from $2.50 to $12.

Pantaloons in superabundant variety, in price from $1.50 to $10.

AN ELEGANT ASSORTMENT OF FALL OVERCOATS.

FALL ULSTERETTES---Many have them, but the thing is to get them cut right and long enough. WE ARE AT THE FRONT ON THESE GOODS. Prices from $8 to $16.

The new Reversible-top coat, a very useful and popular garment, we have in beautiful patterns.
