THE END OF THE TRAGEDY.

"I knew you would come, my precious one," he murmured softly to the girl, as he took a recess on the osculation racket. (He had kissed her for ten minutes before she spoke a word.) "Every fibre of my being told me that my Mignonne would be waiting for me at the old trysting-place, that hallowed spot where we plighted our troth a year agone, when the daisies were nodding in the warm breezes of early summer, and the modest daffodil turned coyly away from the too ardent gaze of the sun that was kissing into life the myriad forms of vegetation that come trooping forth from earth's bosom when the snows have gone and the robins are twittering their twits in the leafy branches of the sturdy oaks. I knew you would not fail me," and, bending over the fair face that looked so trustingly into his, Mit gently touched his lips to hers.

When it came to steady kissing Mit could go a fast beat.

"Yes, my only owneet," responded the girl, "of course I would come, but you cannot know what a ghastly awful time I had to get here. Papa seemed to know instinctively that your boat was in port again, and for a moment I almost feared that he had overheard the second mate swearing at the crew; but I finally managed to get away. But if he should find us here, my precious love, what would he do?" and strong fear sat silent on the cheek erstwhile suffused with the rosy flush of girlish glee.

Mit stood for a moment in deep thought, and then said, as if to himself:

"He would stove me in."—*The end of a "Yachtsman's Love," by Ben Worrell.*

WALL STREET GOSSIP.

NEW YORK, Nov. 1, 10 a. m.—The more conservative bankers at the Windsor said last night they thought the effect of the Newark bank failure was of less importance than many imagined, and the depression in stocks was more directly chargeable to the natural stringency in money for the November settlements than to anything else. A good many loans were consequently called in and a considerable quantity of funds had gone into the city treasury for taxes, and about $17,000,000 is to be disbursed here today. It was reported that the defaulting cashier of the Newark bank had lost most of the bank's money in discounting notes, a great deal of it having been paid to Vugent & Co., who were endeavoring to sell down all the other morocco manufacturers in the United States. A portion of the funds was lost, however, in bearing the Chicago grain market. Little or none was lost in Wall street. The other Newark banks fortified themselves against a possible run today. The Fourth National of this city sent one of these institutions $50,000 in notes last night for this purpose. Seligman & Co. report great improvement in affairs in Paris, and, although there is still great inflation in values, matters look much better. Sterling is down to 21¾ francs, against 25 francs. Money has loaned there as high as 24 per cent. per annum on good stocks. The Gould-Sage-Metropolitan Elevated Railroad faction were before the Stock Exchange list committee yesterday afternoon with an application to have the assented stock admitted. The opposition, representing 40,000 shares, opposed the admission, and the chances are against the stamped securities being allowed on the list. The brokers say that the largest room traders have apparently sold out their long stocks and have switched over to the bear side; also that the street was decidedly bearish late in the day. The bears insist that there was good selling of stocks from noon until three o'clock, and that the bull movement has continued. The story was reported last night that Sammy Tilden had sold out the last of his Union Pacific, but the bulls in it declare that the investment demand from the Astors and their friends has absorbed very much of it. The new fast palace-car train over the New York Central, with dining-room cars attached, will begin to run on Monday or Wednesday next, leaving here at half-past five p. m. one day and arriving at Chicago at six p. m. the next. The Vanderbilt railroad people insist that the war is by no means settled, notwithstanding the advanced rates, and if the Baltimore and Ohio, Pennsylvania Central, or Erie cut the new figures orders have been given to the Lake Shore, Michigan Central, and New York Central Railroad Companies to meet them at once. They also say that, while Mr. Vanderbilt has been not recently been buying any stocks, he certainly has sold none, and he has not advised his friends to sell short. Mr. Chase, the principal owner of the celebrated Jumel estate, denies that this property has been sold, but is willing to dispose of it. There are over 100 lots, and $1,000,000 is bid for the whole property. It will probably fetch $1,500,000. Mr. Sage said last night he thought the full effect of the Newark bank disaster had been discounted yesterday, and the market would be strong and higher all around this afternoon. There is a new and powerful bull party in Texas Pacific for a rise this week.

*11:30 a. m.—A Philadelphia telegram says: "The rains have proved of great value to the coal interests, and collieries that were stopped for want of water are now resuming, so that most of the roads will probably be able to increase their tonnage to the figures of last year. A Newark dispatch reports all quiet in banking circles. No runs have been made upon other banks. The receiver is in charge of the Mechanics' National to-day."

2 p. m.—A Columbus (Ohio) dispatch says: "The Supreme Court this morning granted to the Vanderbilt party permission to file a petition in error in the railroad contest to the order of Franklin County court of October 22, appointing a receiver. A supersedeas was also granted staying all proceedings in Judge Greene's court upon filing a bond of $60,000. The hearing upon the quowarranto and upon the petition in error will not be had for some weeks.

By Associated Press.

NEW YORK, Nov. 1.—Money loaned between 6 per cent. per annum and 1-64 per diem and 3 per cent., and closed at 5 per cent. on call. Exchange was steady at 480½@481 for long and 484½@485 for short sight. Governments were irregular, extended 6s and coupon 4½s being unchanged, extended 5's ¼ per cent. lower, and regular 4½s ¼ per cent. higher. State bonds were moderately active and generally firm. Railroad bonds were in fair request, but the market was unsettled. The stock market opened irregular and was feverish and unsettled in the early dealings, but toward noon prices took an upward turn and an advance of ¼@1½ per cent. was recorded, which was most marked in Oregon Navigation, Canada Southern, Michigan Central, Louisville and Nashville and Chattanooga. Texas Pacific, Pacific Mail, Manhattan Elevated, and Kansas and Texas. The higher range of values was, however, maintained for but a brief period, and, owing chiefly to the hardening tendency of money, a free selling movement was developed, which resulted in a steady decline in prices until after the second board, when quotations were down ½@1½ per cent. from the best figures of the morning, Denver and Rio Grande, Northwestern preferred, Canada Southern, New York Central, Mobile and Ohio, Texas Pacific, and Michigan Central being most prominent in the decline. Subsequently there was a fractional recovery, owing to the easier working of the money market, but the final sales the speculation again became weak and prices closed at or near the lowest point of the day, Manhattan Beach fell off 2¼ per cent. on the day's transaction. The sales aggregated 290,727 shares, including Canada Southern, 5,700; Central Pacific, 11,; Delaware, Lackawanna and Western, 14,800; Denver and Rio Grande, 26,700; Erie, 14,000; Kansas and Texas, 8,800; Lake Shore, 35,600; Michigan Central, 16,; Northwestern, 6,200; New Jersey Central, 10,000; New York Central, 9,000; Reading, 6,200; St. Paul, ; Texas Pacific, 16,700; Union Pacific, 18,000; Wabash Pacific, 9,400; Western Union, 19,400.

Nullifying a Grave Risk.

Residents and sojourners in fever and ague locations, who are wise enough to test by experience the genuineness of the claims of Hostetter's Stomach Bitters to public confidence, nullify a grave risk, which without the protecting aid of this grand fortifying agent could not safely be encountered. Both air and water are the vehicles for the dissemination of the disease, and irregularities of the system which this fine alterative is peculiarly adapted to correct, and that want of tone which is specially favorable to the contraction of malarial fevers, are conditions which must undergo a radical change ere positive immunity from the scourge can be hoped for. Quinine has no continuous effect, is a dangerous drug, and works inexplicable mischief to the system. The Bitters, on the other hand, is not only safe, but the good effects which it speedily produces do not "wear out" as the medicine is persisted in. It regulates and tones the stomach, liver, bowels, and kidneys with certainty and promptitude. MWF
