THE MARKETS.

Czar Vanderbilt Still Holding Up the Stock Market by the Tail.

A Budget of Interesting Small Talk About Various Matters.

Special Dispatch.

NEW YORK, Feb. 29.—Market opened lower and declined rapidly for the first hour under a heavy pressure. About 11 o'clock supporting orders in Lake Shore, Northwestern, Union Pacific, and St. Paul turned the decline, and a sharp rally, lasting until 1:30, followed. It is generally conceded that Vanderbilt was supporting prices, and traders therefore covered shorts. The short interest is believed to have been very largely increased yesterday. At 2 o'clock the market again rallied under brisk buying of Union Pacific by prominent bears. Bonds were strong, except Northern Pacific firsts and Texas incomes. West Shores advanced sharply. In the last half hour's trading the market was firm, under brisk covering in St. Paul and West Shores.

On the opening Lake Shore was sold by Savin and V. Brownell and L. and Miller, Francis & Co. The buyers were Thorn & Elliott. In New York Central the sellers were Drake, Meigs, and Thayer. The buyers were Herrick, Sternberger & Fuld, and Ives. Louisville and Nashville and Union Pacific Henderson bought 3,000. The sellers were Coombs and Willard & Co. Erie was bought freely by London bankers, and sold by John Benjamin and Moulton. Elliott sold St. Paul. Hart was the principal seller of Northwestern. W. J. Hotchkiss sold his seat for $25,000.

It is reported that the Central Pacific company proposes to issue land-note bonds to secure dominion government bonds for a loan of $22,500,000.

Geo. F. Stone, E. H. R. Lyman, and H. K. Sheldon are drawing up a plan for the reorganization of the Ohio Central.

Counselman & C.'s Chicago special says: "Looks as though market be weaker. St. Louis receipts, 265 cars corn, 50 cars wheat. Bulls working hard to make a market to sell on."

Honore Bros. & Glover's Chicago special looks for improvement after to-morrow's deliveries, but will be on local influences.

The rumor of a defalcation in a Broadway house shows, upon investigation, that $20,000 is only involved, and the firm, which is not given up, will be in no way inconvenienced.

Mr. Vanderbilt said this forenoon: "I have not sold a share of stock this week and have full confidence in the market. Short interest in Lake Shore increased yesterday by 25,000 shares, and I think some of these smart shorts will experience difficulty in getting stock back at a profit to-day."

The following is upon good authority, and may be said to be semi-official: "Rumor that Mr. Huntington sold his Central Pacific stock is untrue. He and his associates own about three-fifths of the Central Pacific road, which is earning its dividends and will continue paying them."

A decision in the circuit court yesterday makes a difference in favor of the Central Pacific company of about $1,000,000 in taxes.

Van Hoffman & Co. ship $300,000 in gold to-morrow to Europe making a total of about $1,250,000 reported in toto for the Adriatic.

The general manager of the Manitoba company is reported as saying that that road is suffering greatly from snow blockades and competition with the Canada Pacific.

The sales of stocks to-day were 550,280 shares, including the following: Canada Southern, 5,200; Central Pacific, 8,675; Delaware, Lackawanna and Western, 130,000; Erie, 13,400; Lake Shore, 30,500; Louisville and Nashville, 7,500; Missouri Pacific, 14,200; Northwestern, 23,825; New York Central, 6,000; Pacific Mail, 13,220; Reading, 19,450; St. Paul, 54,620; Texas Pacific, 6,160; Union Pacific, 130,230; Western Union, 27,330; Northern Pacific preferred, 8,400; Oregon Transcontinental, 9,670.

The Murderer Minor.

Mr. Thomas J. Miller, as counsel for the murderer, Frank Minor, now awaiting execution in jail for killing his wife, yesterday called Judge Hagner's attention to the bills of exceptions in the case. The question was as to the competency of the jurors composing the jury, which returned a verdict in the case. Judge Hagner signed the bill late yesterday afternoon, and the case will probably be heard on Monday morning. Mr. Miller has, he claims, good grounds for a new trial, and if the general term does not act upon them on Monday, he will petition the department of justice for a reprieve.

NEW PUBLICATIONS.

LUTHER AND THE REFORMATION; THE LIFE SPRINGS OF OUR LIBERTIES. By JOSEPH A. SEISS, D. D., pastor of the Church of the Holy Communion, Philadelphia, author of "A Miracle in Stone," &c. Philadelphia: Porter & Coates.

This book is another production of the four hundredth anniversary celebration of the birth of Martin Luther, and pictures the state of society when Luther arose, giving all the scenes which lie at the beginning of modern history and the present era of our existing civilization. There are also sketches of the most notable of Luther's contemporaries and coadjutors, all written in an easy and graceful style for which Dr. Seiss is so well known. As the second part of the book is the result of the author's studies in preparing discourses for delivery in Philadelphia at the bicentennial of the founding of the commonwealth of Pennsylvania it contains an account of Gustavus Adolphus and Axel Oxenstiern, his prime minister, who played such conspicuous parts in the wars in behalf of Protestantism in Europe and in the planting of civil and religious freedom and toleration in this country, particularly Pennsylvania, prior to William Penn.

LITERARY NOTES.

The white house will be described and fully illustrated in the April *Century*.

The first and second numbers of *The Art Union* have been received through Mr. V. G. Fischer, 529 Fifteenth street, who is an honorary secretary of the American Art Union to receive subscriptions and deliver the etchings which may be seen at his store. This new publication should receive the warm favor of all lovers of art, for it commences with excellent articles upon various matters pertaining to art and artists, all treating their subjects from a high standpoint, giving praise where deserved without adulation and criticising intelligently without acrimony. An etching supplement accompanies each number, one being Henry Forrer's "Off Quarantine," and the other Moran's "Rainbow." There are numerous wood cuts of pictures in the Art Union exhibition, all well executed; and these numbers give evidence that the publishers intend making this publication second to none of its character in this country.

Civilian Engineers in Government Employ.

The report of the chief of engineers as to the number, pay, station, and duties of civilian engineers employed by the government of the United States, transmitted to the senate yesterday by the secretary of war, in response to a resolution offered in the senate on the sixth instant, shows that there are 203 civilian engineers thus employed at salaries ranging from $75 to $350 per month; that they are employed on the various works for the improvement of rivers and harbors and in the office of the chief of engineers. It also shows that of the total number 61 are employed under the Mississippi river commission; of the 142 not thus employed 7 are stationed at Washington, 3 at New York, 3 at Boston, 2 at Philadelphia, 2 at Baltimore, 6 at St. Louis, 8 at St. Paul, 3 at Chicago, 2 at Milwaukee, 3 at Detroit, 4 at Cincinnati, and 1 at Pittsburg, the others being stationed at less important points.

Removing Charges of Desertion.

Representative Boutelle was yesterday authorized by the house committee on naval affairs to report favorably a bill removing the charge of desertion from men in the navy and marine corps who served faithfully until the expiration of their term of enlistment or until May 1, 1865, or who were prevented from completing their terms of service by reason of wounds or disease contracted in line of duty, but who, by reason of absence from their command at the time of the discharge, failed to be mustered out. The bill also applies to persons charged with desertion who voluntarily returned and served in line of duty until mustered out.

To Admit Dakota to Statehood.

Senator Harrison, from the committee on territories, yesterday reported an original bill to enable the people of southern Dakota to form a constitution and state government, and for the admission of that part of the present territory of Dakota as a state and the erection of the northern part into a separate territory. It provides for the holding of a convention of delegates to frame a constitution at Yankton on the second Tuesday of December, 1884, and in all its other important features is similar to the bill introduced in the senate last week by Mr Harrison.

Pensions and Pension Agents.

Representative Boutelle yesterday presented for reference resolutions of the Grand Army of the Republic of Maine in favor of equalization of bounties, asking that pensions granted shall commence at date of discharge in all cases, and requesting congress to increase pension of widows from $8 to 12 per month, with $5 additional for each minor child under 16 years of age. Also a remonstrance of the Grand Army post of Rockland, Me., against transfer of pension agencies to Washington.

Measurement of Longitude.

Lieutenant Commander Charles H. Davis, U. S. N., reports to the navy department from Valparaiso, Chili, that the measurement of the differences of longitude between Valparaiso and Cordoba and Valparaiso and Lima, by means of the telegraph, has been successfully accomplished. Dr. B. A. Gould, the director of the national Argentine observatory at Cordoba, assisted in the measurement between Cordoba and Valparaiso.

The Alabama Claims.

The house committee on the judiciary yesterday refused to take favorable action on a bill increasing the class of persons entitled to share in the "Alabama claims" fund. A minority report will be submitted to the house recommending that those who received injuries within the admiralty waters of the United States be made sharers in the fund.

The Thetis.

The secretary of the navy has received a cable message announcing the departure of the steamer Thetis from Dundee yesterday morning for New York. She was formally turned over to the United States on Monday, but her departure was delayed in waiting for the steel plates for the new cruisers.

The Offices of General and Lieutenant General.

Representative Nicholls was instructed by the house committee on military affairs yesterday to make an adverse report on the bill providing for the perpetuation of the offices of general and lieutenant general of the army.

Interest Checks.

Treasurer Wyman yesterday mailed to holders of the registered 4½ per cent. bonds 11,809 checks, aggregating $2,169,485, in payment of interest due March 1.

THE "LION IN LOVE" VALENTINE.
This is a rich satin print on an elegant fancy plush mount. The design is a reproduction of F. S. Church's important work of above name, which was purchased for the purpose of the reproduction on satin. The poetry is by J. V. Cheney. The picture is of greatest artistic merit, and on its elegant mount forms what is thought one of the most unique, artistic, and sumptuous St. Valentine Souvenirs ever offered to the public.
