A certificate of the incorporation of the Washington Mill association has been filed with the recorder. The capital stock is $300, divided into ten shares. Messrs. Robert A. Parke, W. E. Perkins, and John A. Carr are the incorporators.

Mr. Augustus Burgdorf, who was recently indicted in three additional cases of presenting false vouchers to the navy department, appeared in the criminal court yesterday and entered a plea of not guilty and gave bond in the sum of $2,500.

The fish commission steamer Albatross, Lieut. Comdr. Zera L. Tanner, U. S. N., left here Saturday last for Baltimore, where she is now hauled up on Skinner's marine railway having her bottom scraped and repainted. She will go to Wood's Holl in about ten days.

Several of the ex-firemen of this city are in reduced circumstances. This fact caused a number of their friends to meet yesterday and form a temporary relief association. The association will give a picnic at Jusenemann's garden Aug. 7 for the benefit of the former "fire laddies."

The charge against William Bromard, Richard Harris, and Thomas Berry for keeping a gaming house at No. 1208 Pennsylvania avenue was dismissed in the police court yesterday. Detectives Block swore out another warrant against Harris, charging him with keeping a gambling house.

Wilcox, assistant surgeon.

Francis Pratt, who was committed to jail last week in default of payment of a debt upon writs of capias ad satisfaciendum, yesterday petitioned for a writ of habeas corpus through his attorney, Mr. Leon Tobriner. He denies the allegation that he has been guilty of any fraud or removed his property with intent to delay the payment of his debts, and claims that he is illegally held in jail. Justice Hagner directed the writ to issue, and made the same returnable before him at 10 o'clock this morning.

Last of the Ex-Detective Cases.

District Attorney Worthington yesterday, by permission of Judge Wylie in the criminal court, entered a nolle pros. in the remaining case against ex-Detective George W. McElfresh, in which he was charged with receiving a reward illegally from Dr. Charles White for recovering a sealskin sacque and other articles belonging to his wife. Of the sixty odd indictments against the detective corps only one remains undisposed of, that being against James A. McDevitt, and a similar charge to that in which the dismissal was asked. It is probable that this case will take the same course as that of McElfresh, which will clear the docket of this class of cases.

MR. L. TRAUBMAN, JR., druggist, Read's Landing, Minn., writes: "My mother has been cured by St. Jacobs Oil, the great pain reliever, of numbness and pain in her arms."

A Straw Bond Reminiscence.

The two indictments against Charles H. Dickson for perjury and conspiracy, found on Feb. 28, 1882, were yesterday brought to the attention of Judge Wylie in the criminal court. Mr. Thomas F. Miller, his counsel, said that Mr. Dickson had been pressing for trial, but was unable to secure it. These indictments grew out of what was termed the "straw bond cases," in November, 1879. After a short discussion in relation to the case, showing the inability of the government to try it at this time, Judge Wylie directed the bail to be discharged, and Mr. Dickson was permitted to depart on his personal recognizance.

WHEN the organs of secretion become inactive by reason of cold or other cause, the inflammatory material should be removed and healthy action restored. Ayer's Pills accomplish this quickly, safely, and surely. Much serious sickness and suffering might be prevented by promptly correcting such derangements, which often develop into settled disease.

New Music.

From the publishers John F. Ellis & Co., of this city, the following new music has been received: "The High School March," by Theo. Moelling, a composition of pleasing melody and easy of execution, and "The White Plume March," by John P. Sousa, which introduces the popular campaign song, "We'll Follow Where the White Plume Waves." Both pieces will no doubt become quite popular.

REVEREND W. L. POPE, D. D., San Pedro, Department Sta., Barbary, republic Honduras, Central America, says from personal experience he indorses the virtues of St. Jacobs Oil, and recommends it to others.

THE SYSTEM DEFENDED.

General Agent Legge Thinks No Changes Necessary in the "Y" Arrangement.

"Taken any steps to prevent a repetition of Saturday night's accident?" querried a REPUBLICAN reporter of General Agent Legge, of the Baltimore and Ohio Railroad company, yesterday.

"No, the system is about perfect. Everything where human agency is an element is liable to go wrong at times, but this Y has been free from accident since it was established some thirteen or fourteen years since. You made a mistake the other day in quoting me as saying that an elevated station would be an improvement. I did not then enter into the obligations to it in detail, but I certainly had no intention of being understood as indorsing it.'

"How about the speed of trains?"

"I have issued an order that it shall be reduced to six miles an hour within the city limits. But I am afraid that this will be followed by a number of accidents to boys, who will jump on slow-moving trains and get their legs taken off. That was the trouble before, I am told, and caused the speed to be increased. But the trains were not going at anything like the speed that is alleged, or the engines would have been forced over the outer edge of the curve instead of mounting into the air and telescoping. If the combined speed had been forty miles an hour the houses in that neighborhood would have been shattered by the flying machinery. Mr. Clements, master of transportation, was in the rear car of the western train on the "Y," and says that the speed was very low."

"Any changes in the flagmen?"

"Only Sullivan, who has been discharged and is now in jail. I am perfectly satisfied with the others. Kane's red signal to him was seen by several others whom I have talked with, and it was displayed steadily for full five minutes and for that period before the trains came along."

"Would it not be better to have a permanent light at this point of visual connection between the two horns of the Y, so that the switchmen at either end if in doubt could verify by a second look?"

"No, there is nothing so certain as a lamp in a man's hand. He is responsible for its being lighted all the time, and if necessary he can wave it up and down, the signal for instant stoppage of a train. The lamps used are square, with white on one side and red on the other, so that there is no chance for error. The orders are to all flagmen 'when in doubt display the danger light,' and if Sullivan had done this the disaster could not have happened."

"How are the families of the dead engineer and fireman provided for?"

"The first had $2,500 of insurance in the company's association, and the other had three benefits, or $1,500.

Warrants were sworn out yesterday against Robert Rumby and Samuel Beall, engineer and conductor of the Baltimore and Ohio railway for running trains faster than six miles an hour. The warrants were sworn out by Sergt. Brosnahan and Officer Feit, and were given out for service.

Judge Wylie yesterday fixed bail at $500 in the case of John Sullivan, committed by the coroner on the finding of a jury that he was instrumental, by negligence, in causing the death of Michael J. Riley, one of the engineers killed in the accident Saturday night.

Mr. S. Edgar Mahan, of No. 50 I street northeast, who was on the train from Baltimore that collided with the Martinsburg express, was much more seriously injured than was at first supposed. He is now under the care of Dr. Suddarth, who thinks it will be some days before he will be sufficiently recovered to return to business.

Legal Lights at Loggerheads.

Mr. Nat Carusi and Mr. Buchanan Beale two heavy-weight members of the district bar, indulged in a savage slugging match in front of the city hall yesterday morning. The men had been good friends, and the cause of the fight was a trivial one. Mr. Carusi, having taken Mr. Beale's lead pencil, began teasing him with it. Mr. Beale became angered, and, it is said, struck Mr. Carusi on the nose, drawing blood. A short and sharp series of blows were then exchanged, during which Mr. Carusi's garments became much disarranged. Detectives Edelin and Cox appeared on the scene a few minutes later, and arrested them. They were taken to police headquarters, where they left collateral. Each of the gentlemen weighs over 250 pounds.

THE MEGAPHONE.

Curious Tests of an Instrument for Long Range Conversation.

A large megaphone was placed on the Tallapoosa Monday to be tested during the present cruise of that vessel northward along the coast. This apparatus, which is one of Edison's inventions, consists of two huge cone-shaped tin tubes about eight feet in length, three feet in diameter at the large end, and diminishing to an inch tube at the apex, where pieces of rubber tubing are fitted on. Between these tubes are two others, much smaller, and generally resembling in size and shape the longe bridge horn once so familiar in the days when canal packet boats were the ordinary rapid method of travel between the east and the west. These smaller tubes are about eight feet long, and are five or six inches in diameter at the front end.

The effect of the machine when operated is to enable a person to conduct a conversation with ease at considerable distance, as the small tube conveys the sound of the voice, while the larger ones—the ends of the rubber tubes being inserted in the ears of the operator, and on the principle of the speaking trumpet, or like large seashells. Yesterday, before the vessel sailed, one of the officers, speaking but little above an ordinary conversational tone, called to and stopped a man who was driving a team of horses across the Anacostia bridge, fully a quarter of a mile away. Conversation in ordinary tones was easily and distinctly carried on with the shipkeeper of the Saugus, 250 yards distant. The instrument will be tested in listening for the sound of breakers on shore or over rocks at a distance, and the sounds of approaching vessels through the water.

as we find it necessary in each department. For instance:

We have a surplus stock of 75 dozen Ladies' White Linen Cambric Hemstitched Handkerchiefs, worth 12½c each. To close this surplus stock we shall sell them in packages of six Handkerchiefs each, six for 50c.

We have a surplus stock of 116 dozen Honeycomb Bath Towels, large size, best value ever had at $1.50 per dozen, but we have 100 dozen too many. To close that quantity of surplus stock we have marked them $1.25 per dozen. Packages will not be broken.

Men's Furnishing Department.

We have a surplus stock of 59 dozen Men's Striped Half Hose, full regular made (cost the importer $2.50 per dozen). To reduce this surplus stock we shall offer them four pairs for 50c.

We have a surplus stock of 24 dozen Men's Gauze Undervests, fine gauze, patent-finished seams long sleeves only, for two years our 37½c garment; but we have too many of them, and will close them out at 25c each.

REBUILDING AT BAUM'S!

We are obliged to rebuild our second floor to gain sufficient room for our Fall Importation of Ladies and Misses' Garments. In order to do so our remaining stock of Summer Goods must be closed out immediately. The balance of our Ladies' White Suits has been divided into two great lots, viz:

LOT I—Consisting of 25 Suits, seven different styles, which have been old at $10, $11, $12, and $13, are now offered at the uniform price of

$7.98 APIECE.

LOT II—Consisting of 16 Suits, five different styles, former prices of which have been $14, $15, and $16, are now offered at the uniform price of

$10.98 APIECE.

Our more elaborate Suits have been marked down accordingly, but having only a few pieces left could not very well make up a lot.

Misses and Children's Suits.

Thirteen Misses' Pique and Lawn Dresses, ranging in size from 6 to 16 years, at

$4.98; former prices from $7 to $10.

JERSEYS.

50 dozen All-wool Ladies' Jerseys, in all desirable shades, which were considered cheap at $1.75, now $1.00.

25 dozen Misses' Jerseys, in black only, to button in back, now 98 cents; former price, $1.50.

BOYS' SHIRT WAISTS.

We have about 22 dozen fine French Percale Waists, sizes from 4 to 8 years, which we will close at 50 cents apiece. They formerly sold at $1. Our $1.25 Shirt Waist (choice patterns) has been reduced to 79 cents.

ARTIFICIAL TEETH WITHOUT PLATES!

DR. C. L. ANDERSON,

DENTIST,

601 THIRTEENTH STREET, CORNER F STREET,

Formerly Expert of the SHEFFIELD TOOTH CROWN COMPANY, New York City, has located at 601 THIRTEENTH STREET, CORNER F. Makes a Specialty of

Tooth Crowns and Artificial Teeth Without Plates.

This system entirely obviates the necessity of extracting teeth, does away with artificial teeth, prevents the suffering caused by decay of the teeth and consequent extraction of the roots (producing a change in the expression of the face and mouth), and avoids the pain and excessive annoyance of a plate.

By this method roots and badly decayed teeth, which are firm in position, may be restored to perfect usefulness and beauty, performing the office of mastication like the natural teeth.
