Embracing An Opportunity.

Opportunities make men. A well-appareled lay figure may excite the cupidity of a tramp or the envy of a man. One may get a suit for nothing and prison fare "thrown in;" the other may get himself well dressed for small money.

You can have no idea how elegant a suit can be bought from our made-up stock unless you inspect it. To say that we can give you the best fitting, the latest cut, and the most reliable work is only to repeat what everyone knows who has tried our goods. In Custom Work our suits made to order for $20, $22, $25, and $28 have never been equaled here for the price.

A SILVER WAR ON BURCHARD.

The Director of the Mint Assailed by Spoilsmen—His Tenure.

Some of the western silver democrats are beginning to talk about crowding Burchard out of the directorship of the mint. His term is a rather unusual one, being five years. Counting from the date of his present commission, he will hold through and beyond this administration if allowed to remain under the tenure of office act. Of course, it is well understood that complaints against him to be effectual must have other than political foundation. These are to be forthcoming, according to the silver men. Those who are leading the movement against him say that he is bound up with the banks, and manipulates his figures in their interest. Congress appropriates a certain sum of money every year for getting up a statement of the yield of precious metals in this country, and they say that in making his report Burchard relies upon guesswork chiefly, and represents the silver yield as much larger than it is, so as to depreciate it in value. They say that this is done in the interest of the national banks of the east, and that he is completely under their control. They are not pressing anybody for the place now, but simply want to get Burchard out. From what is known of Cleveland's views on silver, it doesn't seem as if this kind of objection will count for much. The real animus of the movement lies in the fact that Mr. Burchard has something like 1,000 offices under him, and that thus far he has shown a disposition to be firm in protecting in their places Republicans who have done good service. He has thus far declined to sacrifice subordinates to make friends of Democratic congressmen.

Mr. Burchard holds his office under the act which stipulates that the reasons for removal must be given to the Senate in nominating a successor.

THE MARKETS.

Slight Downward Tendency of Stocks, Wheat, and Other Produce.

NEW YORK, April 16.—The market was heavy at the opening this morning, both bulls and bears selling, the former to realize profits, and the early dealings were accompanied by declines of ¼ to ½ per cent. The tendency was downward until after 1 o'clock. A little more life was then accompanied by a show of strength, a portion of which was lost later in the day, and the market closed irregular, at prices which are from ¼ to 1½ per cent. lower than the final quotations yesterday. Not a single stock on the active list shows an advance.

There was no news affecting prices, except that which came from Europe, and which was of a peaceful character, and the announcement which was made during the day that the Central Pacific railroad had not agreed to accept the proposition embodied in the resolution adopted by the Pacific Mail directors yesterday.

Money on call continues easy at 1 to 1½, closing at 1 per cent. Foreign exchange quiet and firm at unchanged quotations; actual business is done at 485¼ and 487¼. Postal rates 486 and 488½.

Government bonds have continued quiet and quotations steady, except for the 3s, which are ½ lower, at 101½ bid, and an advance of 2 per cent. in the quotation bid for Pacific 6s.

There was sale of the 4s, coupon, at 121¾. State bonds are quiet, but the Alabamas show a slight advance in quotations, while the Georgia 7s are a shade lower. Railroad bonds have been strong for a majority of the issues traded in, with a well distributed business.

Treasury balances—Coin, $140,822,173; currency, $22,770,856.

WHY COMPLAIN OF

ENORMOUS GAS BILLS?

GUARANTEED REDUCTION OF

15 TO 40 PER CENT.

The United States Gas Commission.

Ably supported by the united testimony of hundreds of the most intelligent scientists and best informed expert authorities of both Europe and America, have demonstrated, by numerous practical, scientific, and exhaustive tests, that in order to secure the maximum of light at the minimum of cost, gas pressure should not exceed five-tenths of an inch at the burner. Any excess of pressure beyond this limit is simply a waste of gas (or money), diminishing volume and quality of light and increasing expense, in exact proportion as the pressure is increased.

Why Condemn the Gas Companies?

They are powerless to remedy the evil, as, in order to supply all their patrons, whether near or remote, they are compelled to employ an excessive local pressure of fifteen to thirty-tenths in order to supply extreme points of consumption, thus resulting in an excessive average supply to all intermediate consumers. Different degrees of elevation also affect the nominal gas pressure and add materially to the difficult problem of maintaining a low average pressure.

THE REMEDY

Is in the hands of every gas consumer, by attachment to their meter of

Sleeman's Automatic Gas Saving Governor.

Can be attached to any gas meter in 30 minutes. THEY REDUCE THE PRESSURE TO FIVE-TENTHS, whether 1 or 100 burners are lighted.

The automatic action of valve cuts off excessive pressure, when burners are extinguished, thus preventing all wastage and bad odors from leaky pipes.

THEY REMEDY SMOKING AND "BLOWING" AT BURNERS.
