TONIC ELIXER OF
Pyrophosphate of Iron.
PREPARED BY
O. ROBIN, APOTHECARY.
Corner of St. Anne and Villere sts.
NEW ORLEANS.

This preparation of which Iron is the basis is unequalled for the cure of Anemy, Chlorosis, etc. and all diseases which result from an impoverished state of blood. It is a powerful auxiliary in the treatment of the disorders which follow fevers of long standing, as also in the cure of Intermittent fevers and of Ague. Its tonic property make it a precious agent whenever it is necessary to restore to the system its natural energy.

An important quality of this combination is that the Iron which enters into its composition is chemically disguised; so that it has no disagreable taste, and the most delicate patients can use it without repugnance whilst the weakest stomachs can have it without being nauseated. On the other hand, it is entirely free from the inconvenience which most of the other preparations of Iron here have of blackening the teeth.

DIRECTIONS:

Unless otherwise specially directed by a Physician, the dose shall be for an adult one tea spoonful twice a day, immediately before the principal meals. For children the half of the above dose shall be sufficient.

To enable physicians to prescribe the dose of this preparation in particular cases, they are informed that each ounce of it contains six grains of Pyrophosphate of Iron.

☞ Sold by O. ROBIN, corner of St. Anne and Villere, New Orleans, and by T. Lacoste Druggist Natchitoches.

ELIXIR TONIQUE
AU PYROPHOSPHATE DE FER
De O ROBIN Pharmacien,
Encoignure des rues Ste. Anne et Villere.

CE médicament à base de fer est souverain pour la guerison de l'Anemie, la Chlorose les Pales couleurs &c., et toutes les affections qui ont pour cause l'appauvrissement du sang. Il devient un auxiliaire puissant dans les accidents qui suivent les fievres prolongées ainsi que dans les cas rebelles de fievres intermitentes ou en frisson.

Ses propriétés toniques le rendent precieux toutes les fois qu'il s'agit de rendre à la constitution l'energie qui lui manque.

Le grand avantage de cette combinaison est que le fer y etant chimiquement dissimulé, elle n'a aucun goût desagreable, et les malades les plus delicats l'emploient sans repugnance, et les estomacs les plus debiles la supportent facilement. Elle n'a pas, non plus, l'inconvenient commun à la plupart des preparations de fer, de noircir les dents.

Afin de donner aux medecins la facilite de prescrire ce medicament dans des cas particuliers ils sont prevenus que chaque once de l'Elixir contient six grains de PYROPHOSPHATE de Fer et six grains d'Extrait de quinquina jaune

A vendre en gros et en detail chez O. ROBIN, pharmacien, encoignure des rues Ste Anne et Villere et par les principaux pharmaciens. T. Lacoste Natchitoches.
