RELIGIOUS NOTICE.

Rev. E. Case, Universalist Minister, will preach at the Court-House next Thursday evening, Nov. 19th, at early candle-lighting. Why could he not preach in one of the churches?

SINGING SCHOOL.

We are informed that some of the young men of our place have taken steps to form a class in singing, and that all that is needed is a teacher to take charge of it. Improvement in singing is always desirable, and is specially needed here. There should be a class kept up all the time.

GONE.

Miss Samantha Craig, to whose illness we referred last week, died on Friday, 6th inst.

Funeral sermon by Rev. Mr. Pierce of the M. E. Church, at Reboboth on Sunday.

SUDDEN DEATH.

Granville Green, son of Julian Green, sen., of Greene Township in this County, died very suddenly a few weeks ago.

—We hear it suggested that there ought to be railing on the bridge over Salt Creek on Washington st. A serious accident might occur by driving off the bridge at night, and it would cost but little to put up the railing.

FALL IN.

H. H. Neff and Asa Teal are raising a Company of Volunteers in this County. N. H. Johnson is canvassing the County with them.

THE FOREST QUEEN

Is the name of a very beautiful Cooking Stove now on exhibition at the Stove Store of James S. Cottom. This stove has not heretofore been on sale in this market, but comes highly recommended, having been awarded the highest premium at various State and County Fairs.

Warranted a perfect baker and economical of fuel. Call and examine it.

RECRUITING.

H. H. Neff and Asa Teal are canvassing the County with great energy and success. They inform us that they feel certain of filling up their Company.

—Mr. C. Garrett, one of the hands in our office informs us that he has raised beets this season 22 inches in circumference, and radishes nearly as large.

—Among the leading newspapers of our country, and we know something of most of them, we have seen no other in which journalism is brought to such perfection as in the Weekly Republican, published at Springfield, Mass., by Sam l. Bowles & Co. The local department is unusually interesting and extensive, and for literary information, all about writers and their works, we know of no paper that equals it. Its army correspondence is very good; we always read Dunn Browne's letters, whether we have time or not. Its editorials on the state of the country and war matters are not always radical enough for our liking, but this is not important, as when we want a radical article we can write it ourself.

The Republican is a double sheet paper of forty-eight columns. $2 a year.

NEW CHURCH.

Our friends of the German Evangical Association are building a good brick Church on the North side of Franklin street, in the west part of town, on a lot bought of Mr. Columbus Monks for 150 dollars. The house is 30 by 40 feet, and is ready for the roof. We are glad to see the success of this enterprise.

Recruits for an Old Regiment.

Lieut. Wm. W. Macy, of Co. C, 19th Regiment Indiana Volunteers, is now in this County on recruiting service, having been detailed by Col. Williams for this duty. It is intended to fill up the Old Nineteenth to the maximum number. It is one of the best Indiana Regiments. If it had been composed of "Dress parade Soldiers," it would not need recruiting so badly.

The bounty for those who enlist in this old Regiment is the same as that paid to men of the new Regiments now being formed; $302 for those enlisting for the first time, and $402 for any who have been in the service for nine months.

Lieut. Macy will be at Union City on Thursday, at Winchester on Friday, and at Farmland on Saturday of each week.

LECTURE.

J. B. Harrison will lecture at Flood's Meeting House at 11 A. M., on Sunday, Nov. 22d. Subject—"Old People and Young People."—Admission free.

He will also preach at the brick school house, 3 miles west of Winchester, at 11 A. M., on Sunday, Nov. 29th.

FOR THE HOME-CIRCLE.

Arthur's Home Magazine for December is on our table. This is a very good number of the best family Magazine in America. Every mother should read its excellent and inspiring lessons.

Edited by T. S. Arthur and Miss Virginia F. Townsend. Address T. S Arthur & Co., 323 Walnut street, Philadelphia.

It costs but $2 a year.

TO TEACHERS.

We wish to obtain the opinion of all the teachers of our County in regard to the proper or natural order of studies for pupils in our schools. That is, what should a child study or learn first, and what next, and next, and so on?

We wish to receive, from every teacher among our readers, an answer to this inquiry.

Write and tell us what you think on this subject. We shall also be grateful for the views of any person who is not a teacher who may have thought in this direction.

Opinions respecting the age at which a child of average capacity should begin the study of particular branches would be legitimate and beneficial.

—The Daily Journal says that Col. Nelson Trusler, of the 84th Ind., has resigned on account of disability, and his resignation has been accepted.

For the Journal.

TEACHERS' ASSOCIATION.

ED. JOURNAL. I should like to inquire through your columns whether or not there is a prospect, this winter, of a Teachers' Association in this county? There is, in all probability, material enough in the county to establish, on a firm basis, an institution of this kind. There are those, no doubt, who would take a deep and abiding interest in the enterprise; and no one could engage heartily in it without being greatly benefited by the result.

I think that all will readily admit that our educational interests demand such an enterprise. It is evident that if we were to convene together as teachers—interchanging suggestions as to the best methods of imparting instruction in the various branches—the best manner of governing schools, and also the surest way to secure the hearty cooperation of the patrons of a school, the result would be a tendency towards uniformity in government, methods of teaching, etc, which would be a very desirable object.

It certainly is the duty of teachers to improve themselves in their ability to teach—to advance with the times in improvement, and not by contenting themselves with their present acquirements and abilities, allow the improvments in everything else to outstrip them in their advances towards perfection.

As the matter is one of interest and importance to those engaged in the cause of education, will not some one (our Examiner, for instance,) take the matter in hand, and make a call for the purpose of resuscitating our old "Association," or for the purpose of its reorganization? It is believed that such a call would meet with a hearty response.

Dr. Roback's Constituents.

We learn that the distinguished and popular inventor of those famous Scandinavian Remedies, the BLOOD PILLS and BLOOD PURIFIER, advertised in our business columns, receives nearly as many letters, by every mail, as the Treasury Department. The average is more than 200 per day! His patients, scattered over the broad West, the Southern States and New England, are said to reach the enormous and almost incredible aggregate of 100,000! By his patients we mean those who use his preparations as their ONLY MEDICINES. We presume that such a connection is without a parallel in Medical history.

A PROPOSITION TO THE FARMERS OF THE LOYAL STATES.

A Loan to the U. S. Government of $2,500,000,000 in Gold! Payable in Five Annual Instalments.

THE MONEY TO BE OBTAINED FROM EUROPE!

Interest & Principal to be paid to Farmers of the Loyal States!

ALL CLASSES INTERESTED.

Great and Lasting Prosperity to the Nation!

Commerce, Manufactures, and all Industrial Interests greatly advanced:

UNTOLD WEALTH READY TO OUR HANDS!

SHALL WE GATHER IT?

Everything Depends on the Farmers!

It appears from the last Census Report that there are under cultivation in the United States, 103,261,389 acres of land. Less than fifty millions of this under rebel control.

It is proposed to increase the productiveness of this land in the loyal States $5 per acre. This would give us in five years, $2,581,4,725. Send this *extra* produce to Europe and get the *gold* for it. Loan *Two Thousand Five Hundred Millions Dollars* of this Gold to the Government, and keep $581,2 4,725 for private investment in the farmers' banks and agricultural stock of the country!

Cannot this be done? Have we not farmers in every section of the country who make full five dollars per acre more in their land than many of their neighbors? Educate all up to the same standard. Diffuse correct agricultural knowledge among the people. Increase the circulation of agricultural journals.

THE GENESEE FARMER!

Has no superior as a journal of this class. It contains thirty-two royal octavo pages, filled with useful information to every farmer, fruit grower and horticulturist, and illustrated with beautiful engravings of horses, cattle, sheep, pigs, poultry, farm houses, cottages, barns, machines, implements, fruits flowers, vegetables, &c., &c.

It is been published in Rochester, N. Y., —in the center of the best wheat and fruit region in the United States,—for a third of a century. It is the oldest agricultural journal in America. If you do not take it, subscribe for it at once. You will never regret it. It costs only *Seventy Five Cents* a year, and if you subscribe for 1863 now for 1864 *the three remaining numbers of this year will be sent to you for nothing!*

Send seventy-five cents in a letter at my risk. The paper will come by return mail, and then if you are pleased with it—as you undoubtedly will be—ask your neighbors to take it also; and let us see if we cannot raise the agricultural produce of the country five dollars per acre. If this can be done we shall be the richest nation in the world.

NO ALCOHOL OR BAD WHISKEY!

They will cure the above diseases in nine-tenths of the cases out of a hundred.

Induced by the extensive sale and universal popularity of Hoofland's German Bitters (our yearly sales,) hosts of ignorant Quacks and unscrupulous inventors, have opened upon suffering humanity the flood-gates of Nostrums in the shape of poor whiskey, vilely compounded with injurious drugs, and christened Tonics, Stomachics and Bitters.

Beware of the innumerable array of Alcoholic preparations in plethoric bottles and big bellied kegs, under the modest appellation of Bitters; which, instead of curing, only aggravate disease, and leave the disappointed sufferer in despair

Hoofland's German Bitters!

Are not a new untried article, but have stood the test of 15 years trial by the American public; and their reputation and sale are not rivalled by any similar preparation.

The proprietors have thousands of Letters from the most eminent

ATTENTION, SOLDIERS!

AND THE FRIENDS OF SOLDIERS.

We call the attention of all having relations or friends in the army to the fact that "HOOFLAND'S German Bitters" will cure nine-tenths of the diseases induced by exposures and privations incident to camp life. In the lists, published almost daily in the newspapers, on the arrival of the sick, it will be noticed that a very large proportion are suffering from debility. Every case of that kind can be readily cured by HOOFLAND'S German Bitters. Diseases resulting from disorders of the digestive organs are speedily removed. We have no hesitation in stating that, if these Bitters were freely used among our soldiers, hundreds of lives might be saved that otherwise will be lost.

We call particular attention to the following remarkable and well authenticated cure of one of the nation's heroes, whose life, to use his own language, "has been saved by the Bitters:"

PHILADELPHIA, Aug. 2nd, 1862.

Messrs. Jones & Evans:—Well, gentlemen, your Hoofland's German Bitters has saved my life. There is no mistake in this. It is vouched for by hundreds of my comrades, some of whose names are appended, and who were fully cognizant of all the circumstances of my case. I am, and have been for the last four years, a member of Sherman's celebrated battery, and under the immediate command of Capt. R. B. Ayres. Through the exposure attendant upon my avocation, I was attacked in November last with inflammation of the lungs, but was for 72 days in the hospital. This was followed by great debility, heightened by an attack of dysentery. I was then removed from the White House, and sent to this city on board the Steamer State of Maine, from which I landed on the 28th of June. Since that time I have been about as low as any one could be and still retain a spark of vitality. For a week or more I was scarcely able to swallow anything, and if I *did* force it down, it was immediately thrown up again.

I could not even keep a glass of water on my stomach. Life could not last under these circumstances; and, accordingly, the physicians quickly told me they could do no more for me. An acquaintance who visited me at the hospital advised me to try your Bitters, and kindly procured a bottle. From the time I commenced taking them the gloom my shadow of death receded, and I am now getting better. Though I have taken but two bottles, I have gained 10 pounds, and I feel sanguine of being permitted to rejoin my wife and daughter, from whom I have heard nothing for 18 months; or, gentlemen, I am a loyal Virginian, from the vicinity of Front Royal. Very truly yours,

ISAAC MALONE.

We fully concur in the truth of the above statement, as we had despaired of seeing our comrade, Mr. Malone, restored to health:
