The Captain General of Cuba has been ordered by the Spanish Government to send 5,000 troops to join the Pacific squadron.

A carpenter named Z M. Stevens, residing on the outskirts of Indianapolis, committed suicide Tuesday, by taking laudanum.

The board of officers, ordered to convene at St. Louis, comprises Generals Sherman, Meade, Sheridan and Thomas, and Colonel L. M. Dayton.

Very heavy freshets are reported in Vermont, New Hampshire, and portions of Canada, with great loss of property, including considerable live stock.

Gov. Morton.

A letter from Mr. Sulgrove, dated Geneva, February 13, says: "The Governor goes back towards home to-day, for he thinks his health is not improving, though for a time it was better, and he felt much encouraged. He is rather despondent now, but I trust with less reason than he thinks."

Whether Mr Sulgrove meant that the Governor was intending to come home soon, or only to return to Paris, we cannot say. We regret to learn that the anticipated improvement of his health has not been realized.

TWENTY NINE.—It is said that "Grandpa Dunn" who lives near Knoxville, Tenn., is the father of twenty-nine children all by one of whom are living, and we vouch for all of whom served in the Union army. Good for loyal East Tennessee. Grandpa ought to be made a life postmaster.

Gen. Meade publishes a card in the Philadelphia Evening Telegraph, denying the truth of the report that he has been asked by the President to allow the use of his name in the Pennsylvania Democratic Convention.

TRAGEDY IN BEDFORD.

Seduction and Murder.

Madison Evans Killed in the Street.

A gentleman just from Bedford has furnished us with the particulars of a fearful tragedy which was enacted in that town last Monday night, resulting in the death of J. Madison Evans by violence, at the hands of Dr. Ben. Newland. The cause which impelled Dr. Newland to imbue his hands in a fellow-creature's blood is said to have been the seduction of his daughter by Evans. Miss Newland, we learn, has been at boarding school for some time, and her unfortunate condition becoming apparent, the Principal sent her home to Bedford on Monday, where she confessed to her father and denounced Evans as the man who had effected her ruin. It is said that Evans accomplished the seduction of the girl some years ago, when she was quite young, and was going to school to him, and has been intimate with her ever since, the intimacy finally resulting in the girl's becoming *enciente*, her dismissal from the boarding school she was attending, and confessing to her father as before stated. Upon learning the foul dishonor brought upon his child, Dr. Newland, frenzied with rage and shame, armed himself with a revolver, and a long, sharp knife such as surgeons use in amputating, and started forth to seek the guilty wretch. He went to Evans' house, but found him absent. The Doctor told Mrs. Evans the circumstances, and that he had come to kill her husband, and would kill him as soon as he could find him. Passing up the street he met Evans, and as soon as he was satisfied regard to his identity, shot him down, ball taking effect in his body. Evans fell to the earth, and began imploring Newland to spare him. Newland advanced to where he was lying, plunged the long knife into his neck, and nearly severed the head from his body. He then stabbed him repeatedly in different parts of his person, and did not desist until it was evident that the sinful spirit of the wretched man had taken its flight to the above is the story as we heard it. There may be some trifling inaccuracies, but we are assured that, in the main, it is a correct version of the terrible affair. Professor Evans was a minister of the Christian Church, who at one time held a position of considerable eminence. He was once a professor in the Northwestern Christian University of this state, and was the author of a popular work entitled "The Pioneer Preachers of Indiana." He is the same person who, a few weeks ago, was detected in *flagrante delicto* with another man's wife at a hotel in Greencastle.

There is intense excitement prevails in Bedford in regard to the horrible affair. Up to the time our informant left attempts had been made to arrest Newland.—*Indianapolis Herald.*

Quarantine Regulations at New Orleans.

From New Orleans.

NEW ORLEANS, March 6.—The Texas Convention Committee on the condition of the State, reported adversely on the ordinance for the protection and encouragement of manufactures. It was a proper subject for the action of the Legislature. The Finance Committee reported a sweeping ordinance, declaring null and void all debts contracted by the State in the late war, and prohibiting the Legislature to assume or make provision for their payment. Some provisions concerning Confederate debts were under consideration.

Cotton dull and unsettled. Sales today, 700 bales; for three days, 3,100. Receipts to-day, 600 bales.

A Canard.

NEW YORK, March 7.—A report is afloat here to-day that the steamship, City of London, which sailed from this port last Saturday, has been captured by a Fenian privateer. It is undoubtedly a canard.

Excitement Among Beer Brewers.

NEW YORK, March 7.—Considerable excitement is occasioned among lager beer brewers of this city and Brooklyn in consequence of rumors that the returns of sales upon which the taxes are collected, have been suspected by the assessors of internal revenue. It is now undoubted from recent discoveries, that extensive frauds have been committed upon the Government, and the authorities are instituting a most searching and rigid inquiry.

New York Specials.

NEW YORK, March 7—A Johnson meeting was held last evening at Hudson city. Resolutions pledging the meeting to support the President in his veto and reconstruction policy were unanimously adopted. The same were ordered to be engrossed and forwarded to the representation of the district in Congress for presentation to the President.

The Fenian excitement still continues. Public meetings were held last night in various parts of the city, and at Brooklyn over $1,000 worth of bonds were subscribed for, and 50 muskets were presented by friends of the cause. This evening there is to be a grand mass meeting of Fenians in Brooklyn, in front of city hall, for which unusual preparations have been made.

The World's Washington special says the House Committee on Military Affairs have completed the bill for the increase of the regular army. It differs very materially from the Senate bill and ignores entirely the recommendation of Generals Sherman, Thomas and Meade. It provides that the army shall be made up largely of the volunteers. The veteran reserve corps is fully provided for as an organization. It also provides for the retention of several negro regiments, to be officered by white men. Boards for the examination of officers are to consist of a majority of volunteer officers. The proposition to revive the grade of General will not be included in the army bill. The probabilities are that the Committee will decline, for the present, to take any action in the matter.

Secretary McCulloch was assured yesterday by several members of the Ways and Means Committee, that as soon as the reciprocity matter was disposed of the loan bill would be called up and finally disposed of. They also notified him that Mr. Stephen's substitute would not prevail.

The Tribune's special says another contribution from the Birmingham (England) Association was yesterday received by Gen. Howard. The invoice consisted of clothing, and amounted in value to over $1,600.

The money value of articles heretofore contributed by the same association is over $10,000, all of which has been donated before the termination of the rebellion.

Well authenticated reports have reached Gen. C. H. Howard, Assistant Commissioner of the Freedmen's Bureau for the District of Columbia, Md., and several of the eastern counties of Virginia, to the effect that some unprincipled and unauthorized persons are engaged in transferring freedmen from Baltimore and vicinity to Annapolis, where they are by some process unknown, disposed of to their employers at $10 per head. Stringent efforts are being made by the Bureau to ferret out and bring them to justice.

Death of Col. Bowers—Full Particulars.

NEW YORK, March 7.—A gentleman on board the Hudson Railroad train, at the time of the accident to Col. Bowers, gives the particulars of his death. The Colonel had left the car to obtain his satchel, and when he returned the train was in motion. He grasped the railing of the last car but one, holding the satchel in one hand, lost his foothold, fell between the cars, and was killed instantly. His clothing was torn off, and his head nearly severed from the body. He was heard to scream as he fell, but it was impossible to stop the train. The remains were sent back to West Point in charge of an officer detailed by Gen. Grant. The General, who continued his journey to this city, was greatly affected by the melancholy event, declaring nothing had ever moved him so deeply. He spoke in the warmest terms of Col. Bowers.

South American News.

NEW YORK, March 7—The steamer Havana, from Rio Janeiro, Feb. 3d, Pernambuco, 12th, Para and St. Thomas on the 26th, has arrived.

The U. S. steamships Susquehanna, Kansas, Shawmut and Wasp were at Rio de la Plattie, the Jeneita at Rio Janeiro. The Brooklyn left the latter place on the 31st, for St. Catharines and La Platte. The Rhode Island and Admiral Palmer were at St. Thomas.

Washington's birth day was celebrated by the Admiral. The salutes were responded to by the forts and English men of war.

Advices from Rio Janeiro are unimportant. War preparations continued.

The Brazilian government was firm in demanding the expulsion of Lopez as the first basis of any peace negotiations.

A society for the protection of emigrants had been organized.

Exchange on England, 24½d.

Coffee firm. Flour scarce and much wanted.

Freights to New York 42s 6d.

Monte Video advices of January 24th state that no active movements have occurred. Both sides are engaged in active preparations for an active campaign in Paraguay, which is expected to commence in about a month. Several skirmishes occurred with parties of Paraguayans. In one, they surprised an Argentine outpost and captured two field pieces and some horses and cattle; in the other, they were routed with loss. Two or three allied armies are still receiving reinforcements, and have 15,000 men at Paso De Vera. An explosion of some wagons of powder occurred in the Brazilian depot of Comentes, through the smoking of a sentinel, and killed and wounded thirty men. Lopez has ditched the road to Humati, and ruined various points, and has put all capable of bearing arms in the field. The Brazilian fleet at Comentes is awaiting high water, which is approaching. The ironclad Brazil, with four gun boats, was ascending the Puran to join the fleet, raising it to fifteen gun boats and two ironclads. A desertion of Comentes militia from the Argentine forces is reported. After consultation with the Brazilians, 18 of the latter killed 46 of the former.

All quiet in the Confederation of Monte Video. Monadnock arrived safely at Monte Video.

The English Government is determined on fortifying Falkland Islands and have sent 40 marines there.

The Importation of Cattle.

WASHINGTON, March 7.—The bill to amend an act to prevent the spread of foreign diseases among the cattle of the cattle of the United States, approved December last, as it passed both Houses, having been signed by the President, is now a law. This provides that the importation of neat cattle and hides for cattle from any foreign country into the United States is hereby prohibited, provided, that the provisions of this act shall be suspended as to any foreign country or countries, or any part of such country or countries whenever the Secretary of the Treasury shall officially determine and give notice thereof that such importation will not tend to the spread of contagious or infectious diseases among the cattle of the United States; and the Secretary of the Treasury is hereby authorized and empowered, and it shall be his duty to make all such regulations to carry this law into effect, or to suspend the same as the rule provided, and to send copies there of to the proper officers in the United States and to such proper officers and agents of the United States in foreign countries as he shall judge necessary. The second section provides that the President of the United States shall whenever in his judgment the importation of neat cattle, or the hides of cattle, may be made without danger of introduction or spread of contagious or infectious diseases among cattle of the United States, may, by proclamation, declare the provisions of this act to be inoperative and of no effect from and after 30 days from said proclamation.

Section 3d provides that any person convicted of a willful violation of any of the provisions of this act shall be punished by a fine not exceeding five hundred dollars, or by imprisonment not exceeding one year, or by both such fine and imprisonment, at the discretion of the court.

Quarantine Regulations at New Orleans.

NEW YORK, March 7.—The Post says that intelligence has been received by one of the New Orleans Steamship Companies in this city, that a military order has been issued ordering all vessels arriving from the West Indies to be subjected to twenty five days quarantine, as a provision against the introduction of cholera.

A Washington special states that Gen. Grant and five members of his staff left Washington this morning to attend the funeral of Col. Bowers at West Point. Washburne and other members of Congress leave Washington, to-night, to take part in the ceremonies.

ALBANY, March 7.—The flour mill of W. R. Rodgers, in the town of Chili, eight miles from Rochester, was destroyed by fire last night; cause, accidental. Loss $12,000; insurance, $8,000.

RALEIGH, N. C. March 7.—Mr. Winstead, of the firm of Pearson & Co., was elected Speaker of the Senate last night, vice Mr. Steele, resigned.

I, BLYTHE HYNES, CLERK OF THE VANderburgh Circuit Court, do hereby certify to the Sheriff of said county, what officers are to be elected in the several townships in said county, at the usual places of holding elections, on the ensuing Tuesday in April, A. D. 1866:

For Pigeon Township, four Constables.
For Knight Township, two Constables.
For Armstrong Township, one Justice of the Peace and two Constables.
For Perry Township, one Justice of the Peace and two Constables.
For Union Township, one Justice of the Peace and two Constables.
For Center Township, two Constables.
For German Township, one Justice of the Peace and two Constables.
And one township Trustee for each of said several townships.

And the Sheriff is hereby directed to give legal notice of said election, in conformity with the Statute in such case made and provided.

In witness whereof I hereunto subscribe my name and affix the seal of said Court, at Evansville, this 1st day of March, A. D. 1866.

BLYTHE HYNES, Clerk V. C. C.

I, ALEX. DARLING, Sheriff of Vanderburgh county, certify that the above and foregoing is a true and complete copy of the original now on file in my office.

ALEX. DARLING, S. V. C.
