THE BULLS WERE ROUTED.

WHEAT DECLINED 1-4c MAINLY ON GOVERNMENT CROP FIGURES.

Other Speculative Products Followed Suit, Corn Losing 1-8c, May Oats 3-8c, While Provisions Were Lower All Round.

Chicago, March 20.—After an early advance, wheat weakened to-day on Bourish figures from the agricultural department. May closed ¼c lower; May corn lost ⅛c; May oats ⅜c, and provisions finished eighthy lower.

Wheat, at the opening, was strong enough to create a bulr surface in the trade. A rise at the start of from ¼c to ½c was unexpected from the fact that over a considerable area of the winter wheat belt copious rains were shown. The chief reason for the strength was probably due to speculative situation. The selling yesterday had been of a so-to-speak character, and it took but little to alarm the shorts. Subsequently, at dropped this morning in the face of a decidedly bear memorandum and a slight improvement in the price of wheat and flour as cabled from Paris at the opening proved enough to give the market an upward push, which set the shorts there to buying and created a nervous scramble of the bears of a long short which lasted for over an hour. The Minneapolis and Duluth receipts were 181 cars, against 236 the year before. On May 2 receipts 91,300 bushels were winter wheat, compared with 18,667 bushels of winter wheat received at the same place a week ago. That decrease in the receipts of winter wheat was one of the bearish features of the day's movement. The market was moderately active for an hour and then very dull during the next hour and a half, when the price for May had gone from ½c to 5-8@¾c and for July from ½c to 5-8c. In addition to the May 1 report, the Washington agricultural bureau statistician, which estimated the wheat production of the world at 10,000,000 bushels more last year than in the year before, caused the market to become quite weak in the latter half of the session. May sold down to 59¾c, although closing calls became quite advances of ¼c. Advices at Liverpool put cash for four at London, the equivalent of 1c per bushel for March wheat at Paris and ¼ mark rise, or ¾c per bushel at Berlin. The close was weak at 59¾@59⅞c.

Corn opened strong and after advancing ¼c above the closing price of the previous afternoon it lost its improvement. The opening for May was 47⅝c. It rose to 47⅞c early in the day, and gradually began to sink from that point until near the close, when it touched 46⅞c. It then went back at the close at 47⅛c. The dealers, who have been chiefly instrumental in raising the price for three or four days, were the most conspicuous sellers on the bulge early. The Baltimore and Newport News business was said to have been made there, only to a cut in rail rates of 4 cents per 100 pounds. Receipts to-day were 89 cars and 190 cars are estimated for tomorrow.

Oats were quiet and weaker, following corn entirely. Estimates were reported to have bought quite largely of the offerings of same were liberal and scattered. The close showed May at 29⅝@29⅞c, early 29¾c was touched.

The provision market was dull and rather weak. The hog receipts were 21,000, instead of 24,000, as estimated, and 32,000 predicted for to-morrow. At the close of trade May futures, as compared with yesterday, are pork and lard 2½c lower, ribs unchanged. Packers were good sellers, and the demand was very slack.

GREETINGS TO NEAL DOW.

Ninety-first Birthday of the Veteran Temperance Advocate Appropriately Celebrated in London.

London, March 20.—The 91st anniversary of the birth of General Neal Dow, the great American temperance reformer, was celebrated last evening in the Western church, Highgate, this city. Delegates from all the temperance societies were in attendance. Dj. Chowry Muthu, the Christian Brahmin, presided. Mr. Roberts, M. P., and others addressed the meeting, and H. J. Osborne, editor of the Lantern, a publication devoted to Christian workers, lectured on "Neal Dow, Maine, and the Maine Law." The meeting, which was remarkable for the great enthusiasm prevailing, passed a resolution warmly congratulating General Dow upon the attainment of his 91st birthday, and recording the deep appreciation of the meeting of his immeasurable service in the cause of temperance and prohibition by humanity and to God and rejoicing in the widespread acceptance which assured the ultimate triumph of the principles he has so untiringly advocated.

In conclusion the meeting sent General Dow greeting in the wording of Numbers VI, verses 24, 25 and 26, as follows:

"The Lord bless thee and keep thee.

"The Lord make His face shine upon thee and be gracious unto thee.

"The Lord lift up His countenance upon thee and give thee peace."

The Republican nominees who did not pick up at the meeting hence somewhat more than doubled and others are expected to-morrow.

The Republicans held their primaries in the different wards and nominated George Abbott, T. D. Hedrick and L. W. Thayer, councilmen, and J. J. Lynn, F. R. Lester and Roscoe Smith, members of the board of education, and also eighty-six delegates to their city convention, to be held next Friday evening at Hayes' opera house. Of the eighty-six delegates chosen about thirty of them are women.

Stocks and Bonds.

New York, March 20.—There was a halt today in the upward movement, which has been a feature of late on the Stock exchange during the past few days. It is not to be wondered at that there should be a break in the yesterday column, which so soon after a most determined setback had made so sharp a recovery of lost ground. The bull operators, who materially assisted in the recovery, are selected targets for attack by the leaders of the market and it is not surprising that, as they did to-day, they should endeavor to secure part of the profits of their ventures and take a rest. Owing the situation, it was partly due to realizing sales, to a heavy decrease in the volume of foreign purchases and possibly a desire on the part of the bull clique to let prices go down a few points with the view of increasing the short interest in the market that share values depreciated so much.

There was a renewal of activity in the bond trading, however, and considerable strength was displayed in some issues. The trading was somewhat irregular at times, but prices generally recorded an advance on the day.

Grain and Provision Notes.

Exports of hog products from the four Atlantic ports the past week were 25,540,000 pounds; same week last year, 26,253,000 pounds.

The four Atlantic ports cleared for export yesterday 39,000 bushels of wheat, 31,000 packages of flour, 30,000 bushels of corn and 11,000 bushels of oats.

A cable says the wheat trade between the United Kingdom and Russia is at a standstill, buyers and sellers being as much as 1 shilling and 6 pd per quarter apart.

V. C. King, Brooks county, was on 'change yesterday. He reports the early sown wheat 15 to 20 per cent killed, but late sown in fine condition. A good rain and snow was had Tuesday.

The Postal Telegraph office on 'change has been moved from its glass quarters on the floor to the office room in the southwest corner of the Exchange hall, which has been fitted up for it.

Edward Atkinson has compiled data which show that the cost of growing and milling wheat west of the Mississippi and of transporting it to Liverpool is now 82c a bushel less than it was in 1872.

The March government crop report includes a statement of the world's crops of wheat, partly official, which makes the total 2,200,000,000 bushels in 1894, against 2,138,000,000 bushels in 1893, and 2,011,000,000 bushels in 1892.

Leading decreases in stocks of wheat, reported by Bradstreet's and not by the grain exchanges include 479,000 bushels in the Northwest interior elevators, 504,000 bushels in Chicago private elevators and 45,000 bushels at Pittsburg.

It is said that John B. Lyon, a Chicago speculator, had a good deal to do with starting the advance in cotton. He started buying in New Orleans almost at bottom prices. The advance in cotton amounts to $4 a bale, and it has had a good influence on all other speculative markets, directly brightening the outlook for the provision trade in the South, and for Southern railroad earning, and indirectly stimulating the speculative buying of wheat and corn.

There is something wrong with the statistics of European wheat supplies. The world shipments last week, 4,041,000 bushels, were 3,000,000 bushels below the estimated weekly consumption of foreign wheat by importing countries. The stocks of wheat in importing countries, therefore, ought to have decreased about 3,000,000 bushels. But Bradstreet's reported an increase of 848,000 bushels last week in Europe afloat. Of this 440,000 bushels was in the stocks afloat, leaving a 400,000 bushel increase in Europe, when a decrease of 3,000,000 bushels was to be expected. This sort of discrepancy has existed in every week's figures for a month past, and there appears to be no satisfactory explanation. The Liverpool Corn Trade News repeatedly declares that the European consumption of wheat is exceeding the estimates, so the visible cannot be there. Some authority, evidently, is publishing inaccurate statistics.

The rain and snow Tuesday night were very heavy in Southern Kansas, growing lighter toward the north. The precipitation was 1.11 inches at Dodge City and .35 of an inch at Concordia and .30 at Kansas City. Most of the wheat belt of Southern Kansas was thoroughly soaked. Springfield, Mo., got 2.8 inches of rain, St. Louis .60. Oklahoma was not reported. The temperature Tuesday morning was 24 to 29 in Kansas, 24 to 34 in Nebraska and Missouri. Much warmer and fair weather is predicted.
