Stocks and Bonds.

New York, May 27.—With the exception of about three-quarters of an hour, between 11 and 12 o'clock, the stock market was strong throughout. The foreign houses were small buyers and the London cables reported a good market for Americans, except at the close, when a slight reaction took place. Crop reports were favorable and the traffic statement received generally showed increased net earnings. Speculation opened strong, and during the first hour, prices advanced steadily. Toward noon Tobacco recovered 1¾, but subsequently lost ¾. The general market also regained its tone and continued strong to the close, the changes in the active list being slight, while a few of the specialties made material gains and one or two recorded declines.

The bond trading was active, with a very wide distribution of business. During the morning values were generally lower, but in the later session the advances and declines were fairly even. The sales were $2,095,000.

There was less life and an unsettled market yesterday. It opened firm and in good demand but grew weaker as the day advanced and closed lower all around, increased receipts, a falling off in the export movement and more favorable crop weather all favoring the "bears," and July deliveries lost ¾c in Chicago and influenced a weaker feeling in cash. By sample on track here at Kansas City: No. 2 hard, early 1 car at 82½c, 1 car with special billing 83c, later 12 cars at 81½c, 7 cars at 81c and 1 car spring at 80c; No. 3 hard, 80@79½c, 1 car at 80c; No. 4 hard, 79 @78c; No. 2 red, early, 2 cars at 87½c, 6 cars at 87, later, 2 cars at 86½c, 8 cars at 86c and 5,000 bushels to arrive at 85½c; No. 3 red, 1 car at 86c and later 2 cars at 84c; No. 4 red, 85@83c.

CORN—Receipts past 48 hours.....12,800
Same time last year.....22,000

Market dull and lower, an increase of over 1,000,000 bushels in the visible supply making buyers much backward and bearish and there was but little trading in consequence yesterday. OATS—Receipts past 48 hours.....6,000
Same time last year.....16,000

The market yesterday was dull and lower, the continued light demand and an increase of 1,067,000 bushels in the visible supply making it 3,538,000 greater than this time last year and near approach of harvest causing bearish feeling and buyers to take hold cautiously. By sample on track here at Kansas City: No. 2 mixed, 1 car at 29c, 1 car at 29½c; No. 3 mixed, 28½@28c; No. 4 mixed, 27½@27½c; No. 2 white, 31½@32c, 1 car at 31½c; No. 3 white, 29½@30½c; No. 4 white, 28@28½c.

Grain Notes.

New York stocks of wheat increased 966,000 bushels last week.

Minneapolis stocks of wheat decreased 659,000 bushels last week.

Chicago shipments of wheat yesterday were 95,000 bushels, and corn, 281,000 bushels.

The quantity of wheat on ocean passage last week increased 400,000 bushels, corn increased 32,000 bushels.

The Wabash officials say the crop reports along their line indicate that the corn crop has not been damaged at all.

Lloyd Smith, the Chicago elevator man, after looking over the Illinois fields, says the state will have half a crop of wheat.

A New York exporter reported sales of wheat yesterday to Rotterdam at an advance of 4½ cents a bushel over Saturday's bids.

Minneapolis received 284 cars of wheat and Duluth 79 cars yesterday. A year ago Minneapolis received 221 cars and Duluth 48 cars.

The four Atlantic ports cleared for export yesterday 203,000 bushels of wheat, 48,000 packages of flour, 172,000 bushels of corn and 11,000 bushels of oats.

Very strong winds were blowing all over the West yesterday. There was no killing frost reported anywhere. Warmer weather, severe local storms, with probable showers, are predicted.

Stocks of wheat in public elevators in Chicago are now 19,453,000 bushels, corn 4,534,000 bushels, oats, 2,094,000 bushels, rye 35,000 bushels. Stocks in private elevators a week ago footed up 1,203,000 bushels of wheat, 425,000 bushels of corn and 463,000 bushels of oats. Public stocks of wheat decreased 675,000 bushels last week, corn increased 924,000 bushels, oats increased 559,000 bushels.

The world's shipments of wheat last week were reported yesterday to be 9,709,000 bushels. The Russian shipments were 2,560,000 bushels, the Argentine shipments 1,648,000 bushels, the Indian shipments 800,000 bushels, the United States 2,720,000 bushels. This makes a total of 7,728,000 bushels, leaving nearly 2,000,000 bushels to be accounted for. To-day's cables will probably give a smaller total. The world's shipments last Monday were reported to be larger than the Tuesday cables made them.

Here is what one Chicago man, James S. Templeton, of A. C. Bull & Co., says of wheat, after spending a fortnight in Central Illinois: He rode carefully through several counties, these which are usually the great wheat bearers of the state. The fields everywhere were alive with Hessian fly. Some fields were infested with rust, just enough to cover one's boots when walking through. In some instances he found the early sowing of wheat that looked fairly well. The rule applied, was that the frost had caught the fields in bloom. It seemed to him as if Illinois wheat had been overtaken by every misfortune possible. The situation was past describing. The excitement was such among the farmers that they had cleaned out the small stocks of flour in the stores down there, in their anxiety to forestall in a small way what they felt was ahead of them.

S. T. Rial is just back from a trip through Wyandotte and Leavenworth counties, Kas. He says wheat and oats are poor, but corn good.

Pryor L. Yoakum, Johnson county, Kas., was at the stock yards yesterday. He reports the wheat crop a failure in his section. Oats fair and corn good.

M. K. Myers, Osage county, Kas., was in the city yesterday. He reports good rains. He says wheat will make a third of a crop, oats half a crop. Corn promises well, and grass fair.

W. A. Rogers is back from a trip through Lyon, Chase, Osage and Wabaunsee counties, Kas. He says wheat and oats look badly, but the stand of corn is good, and is clean, and promises well.

H. Orchard, of Marshall county, Kas., was at the yards yesterday. He says wheat and oats in his county look poor, but there is a good stand of corn. Rain, however, is needed.

Joe Wilson, Vernon county, was in the city yesterday. He says wheat in his county will make half a crop. Chinch bugs bad. Oats fair. Corn fine, and grass good.

The English visible supply last week showed an increase of 190,000 bushels.

Aggregate stocks of wheat in Russia on April 13 were about 12,200,000 bushels, against 13,176,000 bushels one year previous.

The St. Louis Republic says: "Letter received by a city miller from Indiana in regard to the growing crop: Middletown reports conditions alarming and not more than 1 per cent of last year's crop in farmers' hands. Frankfort says prospects one-half and Goshen one-half to two-thirds of a crop. Reliable advices to safe and stable city commission houses from Illinois, sections adjacent to St. Louis, are to the effect of the most distressing character as to wheat prospects—from one-fourth of a crop to even nothing was the tenor of the letters.

The Chicago Tribune says: The most prominent miller in Canada wrote as follows to Geddes, Kirkwood & Co.: Markets are all booming to-day. I offered $1 for 10,000 bushels No. 1 hard delivered at Fort William to-day, but only got 5,000 bushels. I am paying $1 for red and white winter delivered on cars in Toronto, but getting very little. If this continues Chicago should certainly be at $1 before long. Some days ago the writer was quoted as saying that the Manitoba wheat was destroyed by frost, and expressing the opinion that much damage had been done throughout the spring wheat section of the United States.

E. T. Ahrens, Paola, Kas., was on 'change yesterday. He says the crop prospects in Miami county are fine. Wheat, oats and corn all promise well. Oats heading out.

W. H. Atchison, Conway Springs, Kas., was on 'change yesterday. He sold 7 cars of No. 2 hard wheat at 81c and 6 cars of No. 2 red at 87c that he has been carrying twenty months. He says the load got pretty heavy before he got through with it, but he finally landed it safely at a good profit. He says nine-tenths of the wheat in Sumner county has been plowed up and what is left will yield but little.

The Omaha Bee has received reports from every county in Nebraska, which indicate that the condition of small grain is greatly improved by the recent rains, and notwithstanding the late frost the two days have materially improved the prospects. Winter wheat, of which the acreage is not large, has been the worst sufferer. Corn is up and generally reported in good stand, though its growth has been retarded by cold weather, but not sufficiently to cause any uneasiness. The north part of the state shows a much more favorable condition. Frosts have done very little damage except to garden truck.

It is said that the majority of the large holders of wheat in Kansas will not sell under $1, and that they will hold it until it gets there.
