TWO CENTS KNOCKED OFF.

WHEAT MAKES A BIG DECLINE UNDER VARIOUS BEARISH INFLUENCES.

Corn Was Weak, Losing 3-4c, Oats Declined 1-8c on Rainy Weather and Provisions Were Heavy With Moderate Losses.

Chicago, Ill., June 12—Wheat dropped 2 cents today influenced be the rains, weak cables and general profit taking. Corn closed ⅝c lower, oats for lower and provisions at moderate declines.

The rain is the reason, which came in express contradiction of the signal service, was the influence under which wheat opened quite weak and from ½c to 1c below yesterday's prices. July sold at from 70½c down to 70c, with a great deal for sale by one or two heavy commission houses and a demand for it all by the local talent. The latter made a rapid change of front before two minutes of the session had passed, and proceeded to throw over the wheat they bought at the start. A decline to 70¼c with some sales as low as 70⅛c, resulted from the local selling referred to. It began to crop up after that, and in the course of half an hour it had taken hold big. The low was due to the information of a decidedly character regarding the status of the California crop which, it was now said, had been damaged by the recent rains. Prices extreme. The Northwestern receipts were 50 cars at Minneapolis and Duluth, compared with 225 on the corresponding day a year ago and 1,000 the day before. The export sales were small enough to be not worth mentioning. Three hundred thousand bushels of the wheat and five barrels was the extent of the export business. Liverpool is in fairly working shape, but cables were weak. Advices from Paris show that the new wheat is selling in a shade lower than the old, and inquiry from country buyers at Chicago, St. Louis, Toledo and Detroit. The price kept simply close to the 70c level for a time, but after the 2 o'clock hour it dropped rapidly until it touched 70c. The last offer was a purchase of 5,000 bushels for July at 70c. Northwestern was strongly in favor, but the local receipts were 120 cars. July opened at from 69½c to 69¾c, recovered to 69¾c, declined 30-40c, and closed at 69c.

The weakness of Friday was passed in the oats market. The rain at the last twenty-four hours started the decline, and the weakness in wheat and corn was also accountable for some assistance. Baldwin Farmum were reported to have sold out to have time for Wall street parties. September ranged from 20⅝@20⅞c to 20⅛c, resting at 20⅛@20¼c.

The provision market was heavy in tone and dull as to the amount of trade. Pork started with a decline of 5@7½c, declined another 5c and rectified by closing with a net loss of 5c. Lard dropped ½c of its previous value and ribs about an equal amount. The hog receipts were 24,000 head. The decline was mainly through sympathy with the weakness in grain.

New Sleepers on the Alton.

Beginning with April 1st, the Chicago & Alton railroad will run two Sleepers daily in their "St. Louis Limited" between Kansas City and St. Louis. The two new sleeping cars assigned to this service are named the "Majestic" and "Teutonic," after the two new White Star line Atlantic ocean steamers. Each year brings something new in the carbuilder's art and with each improvement we exclaim that surely nothing more can be added. Viewing the new Alton sleepers, with their large, roomy compartments, drawing rooms, and perfectly appointed toilet rooms, one would think the builder possessed the lamp of Aladdin.

FINANCIAL.

The local money market continues quiet and easy, there being very little new demand for funds yesterday. Even the supply of cattle paper was light. Some renewing was done, however, and rates were held steady—still 6@8 per cent. Counter business, however, was good and the mails satisfactory. The bank clearings were $1,000,577, against $1,266,777 on increase of 26.2 per cent, a gain of 4.4 per cent.

Eastern exchange steady and in very fair demand.

Houston, Fible & Co., exchange brokers, quote it as follows:

New York, 25c premium; Chicago, par; St. Louis, par.

The available cash in the treasury yesterday was $153,052,977, and gold reserve, $80,100,799.

Stocks and Bonds.

New York, June 12.—Trading was quite active in the stock market today, but the upward movement was not quite so general in its character as on yesterday. There was some business, and the bear element was quite aggressive, but still most of the leading stocks show gains on the day. London operators on both sides of the market, but chiefly as a seller of St. Paul and Louisville & Nashville. The gra ers were caught by commission houses, and good orders to buy these stocks were received from the West. The market opened strong, and moved up a fraction in the early dealings as to the active list, while Susquehanna & Western rose 1 and preferred 2 per cent. Rather more than a fraction was lost in Lake Shore, and also in Canadian Pacific, Chicago & Eastern Illinois and Colorado Coal and stock and the other shares traded in at 1 per cent. The lower grades attracted purchasers, and before long others had again taken up upward jaunt. The improvement continued in force in the afternoon so as to 2 o'clock, at which time the earlier losses were all recovered and a higher range of prices established.

The bond market to-day was strong and animated, with a wide range to the dealings. The aggregate sales were $2,700,000.

Provisions

A dragy and weaker market was had yesterday for most hog products. Futures were off and hogs lower, with unused buyers to hold back and as little in real lots. The jobbing trade, however, continues fair, both for meats and lard.

We quote as follows:

D. S. MEATS (partly cured)—Shoulders, cash, $4.00 per cwt.; short ribs, sides, cash, $6.10; long clear sides, $6.10; short clear sides, $6.25.

LARD—Cash, $6.75; June, $6.85.

GREEN MEATS—Shoulders, $5.25 per cwt.; hams, $8.00.

S. P. MEATS—Hams, cash, $8.00@8.25; shoulders, $5.50.

THE GRAIN MARKET.

In store—Wheat, 134,651 bushels; corn, 172,659 bushels; oats, 201,416 bushels, and rye, 3,111.

WHEAT—Receipts past 24 hours.....19,800
Same time last year.....4,200

More encouraging news from the growing crop, and continued fine weather exerted a very bearish influence upon the market yesterday. Futures were off sharply and cables lower, which caused buyers of cash grain to hold back and the U. S. Department of Agriculture report was not anxious for supplies. New wheat is expected most any day and with its arrival a further sharp break is anticipated. Its sample on track here at Kansas City, No. 2 hard, was offered at 70c yesterday and no sale at these figures at the close; No. 2 hard, 67@68c; No. 4 hard, 1 car at 58c; No. 2 spring, 1 car at 70c; No. 2 red, 6 cars early at 69c, later 3,000 bushels from corn at 69½c; No. 3 red, 2 cars at 68½c; No. 4 red, 1 car at 67½c and 1 car at 67c.

CORN—Receipts past 24 hours.....6,000
Same time last year.....24,000

Dull and lower in sympathy with declining speculative markets and a decline in wheat. Buyers cautious even at the decline and taking only such lots as needed for the immediate trade. By sample on track here at Kansas City: No. 2 mixed, 1 car at 36½c, 3 cars at 36c; No. 3 mixed, 15,000 bu. No. 2 white, 1 car early at 38c, later at 38½c; No. 3 white, 1 car at 37c. Quotations at 6 o'clock: 4 cars to arrive at 48c; No. 3 white, 48@48½c.

OATS—Receipts past 24 hours.....1,000
Same time last year.....1,000

But few arriving and market steady under a light demand. Quotations on track here at Kansas City: No. 2 mixed, 27½c; No. 1 car at 27½c; No. 3 mixed, 27@27½c; No. 1 mixed, 26½@26¾c; No. 2 white, 31@31½c; No. 1 car at 31½c; No. 3 white, 29½@30½c; No. 4 white, 29c.

RYE—Receipts past 24 hours..... —
Same time last year.....

No receipts and no market. Prices nominal. By sample on track here at Kansas City: No. 2, 52c bid.

FLOUR—Slow sale, under the influence of a declining wheat market, but prices not quotably lower. We quote as follows: Soft wheat, per 100 pound sack, patents, $2.60@2.70; extra fancy, $2.50@2.55; fancy, $2.30@2.35; choice, $2.05@2.10; family, $1.90@2.00; clipped, $2.00@2.20; straights, $1.85@1.95; bakers', $1.70@2.00; low grades, $1.60@1.70; rye, $1.60@1.70.

CORNMEAL—Dull and weaker. Quoted at 90c per cwt. bulk.

CORN CHOP—Slow sale and lower. Quoted at $1 per cwt. sacked.

MILLET—Fairly active and firm. Common, $1.00@1.85; German, $1.80@2.25.

BRAN—Dragy and lower. Sacked, 65c, and in bulk at 60c per cwt.

FLAXSEED—Steady but slow sale. Quoted at $1.29@1.26 per bushel upon the basis of pure, as to billing.

HAY—Receipts past 24 hours..... 150 tons.
Same time last year..... 120 tons.

Very dull and values generally and firm. Quoted as follows: Prairie upland, No. 1, $6.00@6.00; No. 2, $4.50@5.00; lowland, fancy, $8.00@8.50 per ton; choice, $7.00@7.50; choice, $5.00@5.50; No. 1, $4.00@4.50; No. 2, $3.00@3.50; timothy, choice, $9.50@10.00; No. 1, $8.00@8.50; No. 2, $6.50@7.00; clover mixed, No. 1, $8.00@8.50; No. 2, clover mixed, $6.50@7.50; straight clover, $7.00@7.50.

Grain Notes.

A sale of 110,000 bushels of wheat at Buffalo to go to Cleveland was reported yesterday.

Receipts of wheat at primary points yesterday were 232,000 bushels and shipments, 95,000 bushels.

Two cars of hard wheat were bought on change yesterday to be shipped to a Kansas town 300 miles west of here.

Secretary Morton is quoted as declaring that the government report indicates a crop of about 400,000,000 bushels of wheat.

The government report says of spring pastures: The condition June 1 was 88.1 and clover 82.8, against 92.5 for clover last year.

Minneapolis received 86 cars of wheat and Duluth 35 cars yesterday. A year ago Minneapolis received 215 cars and Duluth 23 cars.

J. E. Wallis, Lafourn, Johnson county, Mo., was on Change yesterday. He reports wheat fair in his section, corn and oats fine and hay an average.

The four Atlantic ports cleared for export yesterday 17,300 bushels of wheat, 1,852 pounds of flour, 13,000 bushels of corn and 28,000 bushels of oats.

Chicago's stocks of contract grain now include 15,000,000 bushels of winter wheat, 17,000,000 bushels of spring wheat, 4,000,000 bushels of corn and 1,951,000 bushels of oats.

A railroad official said yesterday: "I examined extensively the wheat in four counties in Northwest Missouri and found only two that will yield less than twenty-five bushels per acre.

At least nine counties in Kansas, Allen, Chautauqua, Labette, Dickinson, Kingman, Northerson, Rice, Stafford, Pawnee, Ford and Meade, report wheat coming on much better than expected.

A letter from Herington, Kas., says: A great many fields of wheat which were given up now promise to make fifteen or twenty bushels to the acre. Corn is looking unusually well and there will be an abundance of fruit.

The rains got into the Central West Tuesday night. There was at Springfield, Ill., 1.42 inches, Chicago, .40, St. Louis, .30. More rain fell in Kansas and Missouri Tuesday night. Weather reported 76, Oklahoma, 88, Kansas City, 86, Dodge City, 74. Rather heavy rains fell in the Northwest. Showery conditions continue to prevail throughout the West.

Liverpool Corn Trade News: "The text of the official report on the crops of Prussia states that the percentage of rye area plowed up would have been greater had there been time and opportunity to seed afresh all the damaged fields. The percentage of rye seedings plowed up was 5.3 (presumably seed area), against 61 in 1893. The percentage of wheat seedlings plowed up is 1.5, against 2.8 in 1894."

Leading decreases of available wheat stocks reported by Bradstreet's, and not covered in the official visible supply include 425,000 bushels in Northwestern interior elevators, 1,000,000 bushels in Chicago elevators, 37,000 bushels at New Orleans and 59,000 bushels at Fort William. Corresponding increases are: One hundred thousand bushels at Cleveland, 29,000 bushels at Milwaukee private elevators and 22,000 bushels at Kingston, Ont., being the more conspicuous.

The Chicago Daily Trade Bulletin, taking the government percentages by states as a basis, estimates the winter wheat crop to be 216,000,000 bushels, and spring wheat, 320,000,000 bushels, a total of 536,000,000 bushels. The same authority figured the June report of 1893 to indicate a crop of 377,000,000 bushels of winter wheat, and 196,000,000 bushels of spring wheat, a total of 573,000,000 bushels. Last year's crop proved out to be 460,000,000 bushels—the winter wheat crop being much larger than early estimates, and the spring wheat much smaller. This year it is not improbable that the winter wheat crop will turn out to be smaller and the spring wheat crop larger than present estimates.

Fruit Prospects.

Washington, June 12—The question, how much injury was caused by the severe weather in May to peaches and apples will be dealt with in a special paragraphic in the June crop report, which will be issued by the agricultural department next week. The damage was much less than was anticipated.

The report will say: "The first report of the season relative to the condition of peaches is decidedly more favorable than that received in June, 1894. Only two states of primary importance have a low condition, namely, Ohio, 22 per cent, and Michigan, 26 per cent, while Maryland is the only remaining state with a per cent less than 70, the condition there being 67. Of the states of less commercial importance, namely, North Carolina, Florida, Missouri, Texas, Arkansas, Tennessee, Kentucky, Indiana, and Illinois, three, Kentucky, Indiana and Illinois, have the lowest figures—38, 28 and 53 respectively, while in the others percentages range from 72 in Missouri to 100 in Arizona. In 1894, thirteen out of twenty-one states in the above classes had percentages below ten."

With reference to apples the report will say: "The general condition of apples, June 1, is higher than on the same date in 1894. The New England states, New York, Pennsylvania, Michigan, Wisconsin, Minnesota and Iowa, are important exceptions to this generalization, and of these New Hampshire, New York, Pennsylvania, Michigan, Wisconsin, Iowa and Minnesota have percentages disappointingly low. The freeze of May did much damage, although, as is usually the result, the orchards in favored situations even in districts suffering most, have apparently escaped injury. It is too early to determine how great the damage from the cold weather has been. Often the full effects of such spells are only realized after the excessive dropping of fruit in June has left the orchards nearly bare. As the conditions stated June 1, however, they indicate, except in states above cited, a crop running from good to excellent."
