W. J. Anderson, Financial Broker.,
816 Delaware st., Kansas City, Mo. Commercial Paper, Stocks and Bonds. Real Estate Loans.

FINANCIAL.

A healthy and firm tone pervaded the money market of the country the past week. A good deal of money, both East and West, is being called to the country for crop moving purposes. The Eastern money centers report an especially firm demand from the South, and the offerings of mercantile paper there is said to be greater than for many months. In New York, in consequence, firmer rates have resulted, both on time and call loans. Rates Saturday on time loans are 4@5 per cent and on call, 1@2 per cent. The New York bank statement Saturday showed free checking there last week, deposits going off $9,037,900, and the reserve increasing $5,824,650, making it now $18,471,525 above the 25 per cent rule. And banks as a consequence were more cautious lenders, loans going off for the week $1,374,000. In speaking of this statement the New York Financier says: "The clearing house banks held last week $38,040,000 less in coin, which is a loss of $32,000,000 since June 1 last, and of $31,200,000 since August 31 last. This money represents in part the gold export movement, but more than anything else the season for the interior movement. The actual loss for the week was $5,085,000, of which $739,000 was in specie and $2,346,300 legal tenders.

"Deposits are down to $540,000,000, the loss for the week being $9,037,900. The aggregate volume has fallen off from $600,000,000 June 1 over $21,000,000, and since August 31, $33,000,000. The deposits of the New York banks as reported for the last week are nearly $30,000,000 less than for the corresponding week in 1894.

"In Boston the loan market is reported steady and firm, and the same is said of Philadelphia. Baltimore, however, reports money quiet and it is easy in Cincinnati. At Chicago and St. Louis the situation is reported as firm at 5@6 per cent. There is nothing new here at Kansas City. A good demand continues to be had from the country and cattle feeders are still asking for a good deal of money at the stock yards. Currently we quote 6@8 per cent per annum. Rates remain steady and firm at 7@8 per cent. Currency shipments to the country falling off. Bank clearing for the week ending Tuesday, $17,304,000, a gain since last year $662,000, an increase of $761,000, a gain of 7 per cent.

Eastern exchange is in better demand and is firming up again.

Houston, Fible & Co., exchange brokers, quote as follows: New York, 25c discount; Chicago 25c; St. Louis, par.

The statement of the Kansas City National bank, just published, showing their condition September 30, shows a better showing than any of those that have for some time past been published. Loans and discounts were $12,700 greater than June 29 and nearly greater than October 2, 1894. Individual deposits were over $400,000 greater than June 29 and over $300,000 greater than October 2, 1894. Loans and discounts are over $2,000,000 and cash reserve $4,700 in excess of 30 per cent. The cash reserve yesterday was $6,097.

Local Bank Stock Quotations.

Stocks and Bonds.

New York, Oct. 8.—The trading in stocks today fell short of yesterday's total by about 300 shares. The course of prices was irregular, though the trend was downward. The industrials and grangers were the leaders in activity. London prices came lower and foreign dealers were sellers in this market. The domestic influence bearing upon the speculation included an easier market for sterling exchange, a firmer tone to rates for call money and continued heavy exports of gold, helping further advances in anthracite coal prices and advices of sharp rate cutting in Western railroad rates. The easier market for exchange was attributed to increased offerings of bills against commodities and to the appearance of bills against recent purchases of securities for foreign account. The last mentioned transactions have chiefly been made over the counter by investment houses and have not figured in the stock exchange records. Liquidation was more conspicuous in to-day's market than for some time past, the firmer tendency of money and the reported rate cutting being chiefly responsible for this development. Speculation left off weak in tone, the net results of operations showing general fractional losses.

The bond operations in the morning were meager in volume and slightly lower prices prevailed.
