G. Bernheimer, Bros. & Co.

"I know what is the matter with me, but WHO can cure me."

STRICTURE.

It is a well-known fact deposit *must* be removed, and as I can do this, I lay claim to *superiority* over all other methods.

It is a well-known fact that in Organic Stricture there is a croupy deposit—a fibroplastic material—in and on the mucus membrane of the water passages that is gradually organized and becomes hard, firm and tough, causing a thickening and puckering of the membrane. This being the case, how can the cutting or rupturing of a stricture cure it? It cannot. It only irritates it more.

The ingenuity of the surgeon has been thoroughly taxed to find an effective method for the cure of stricture. Scores of operative procedures have been devised—perineal, rectal and continuous dilatation, incision, scarifies, cuttings, etc. Occasionally to cure in exceptional cases, but as a rule, all are failures. How many patients have had this kind of treatment—suffered untold misery and pain for months or years, and at last gave up in despair.

To-day treat stricture, this plastic deposit and removing all adventitious tissue which comes away in a sawdust-like form or shreds, or in strips from half to several inches in length. Sometimes the whole stricture will come away in one piece. The treatment is easy to use—does not interfere with ordinary business, does not cause pain and inflammation is not severe—and the patient can use it at home without exposure.

(Many specimens of actual stricture can be seen at my office.) Hours: 8 a.m. to 8 p.m. State your case and send stamp for circular.

BREECHES OF PROMISE

Are to be found in our clothing department to-day, and they're much less in price than usually found, even when they have a whole case of 'em in court. These breeches promise to give you more wear for your money, more style for your money, more fit for your money than you really ought to get. Good all wool Cassimere breeches for $1.50, plenty of 'em, plenty of sizes; good all wool Cassimere breeches for $1.75, lots of 'em to pick from; breeches for $2.00, $2.25 and $2.50 of fine, solid cassimeres, and some of the finest worsteds made up into breeches, only costing $3.00, $3.50 and $4.00 a pair, if you buy 'em at the right place, and that's right here. These breeches are right by the suit tables, and we call your attention to them so that you'll know where the easiest place is to spend what you save on your suit, for that's a thing you can't help doing here, saving. Those $10 suits that we offered yesterday are the best $10 suits that we have ever shown. They're better made and better trimmed than anything at the price, in fact, when the maker was getting them up he expected to get more than ten dollars for them. The $8.50 suits are just as good value as the $10 ones. The $7.00 suits are in all-wool plain and fancy woven Cassimeres, and we'll guarantee that you won't be disappointed in them if you expect to see better suits at $7.00 than you usually find at $10. We have also at $5.00 some more of the all wool black Cheviot suits, and the all-wool heavy Cassimere suits, and you don't expect too much of them if you expect suits as good as any $6.50 suit in town.

We want the tin bucket brigade to stop buying poor clothes. We don't sell 'em. We sell all-wool clothes that wear for $5.00 and $4.50—all wool suits for men.

BOTH PLEASED.

General Manager Merrill and Judge Caldwell Arrive in Kansas City.

General Manager Merrill, of the Frisco Railroad Company, and United States Judge Henry C. Caldwell reached the city from Topeka last evening over the Santa Fe. With them there they were together in the special car of the Frisco road that is at the disposal of the general manager. It was after 8 o'clock when Division Freight Agent Dale for St. Louis left evening and the party went on their way to Joplin and points west.

To a Journal reporter who met the gentlemen at the depot, Judge Caldwell said he was delighted to be relieved of the burden of the Santa Fe management and expression was thought the arrangement had given general satisfaction. The great work of handling and adjusting to every man and corporation the affairs of the road has been done in a great deal and he was delighted to be relieved of the road and see it really back in the hands of the owners.

General Manager Merrill thought the whole matter has been admirably handled. It had been more possible for the owners to secure the property on short notice, considering the hard times and great depression in the West. The sale he said, passed off without a hitch and was handled with as great ease as if it had been but an ordinary auction.

Will Apply Hot Springs Rates.

Washington, Dec. 10.—(Special.) Rep. Terry, of Arkansas, speaking after the railroad interstate bill in Territory, has concluded to apply the Hot Springs rate. He has introduced a bill allowing roads fifteen miles or less in length to charge 8 cents per mile; from fifteen to seventy-five miles in length, 6 cents and those over seventy-five miles in the Indian country, 8 cents.

Asks for an Injunction.

Baltimore, Dec. 10.—The Westinghouse Air Brake Company, of Pittsburg, has filed a suit in the United States circuit court for the district of Maryland, against the Royden Air Brake Company, of this city, asking for an injunction to restrain the [illegible]

BIG OPEN REDUCTION.

May Be Made in Freight Rates Between Chicago and the Atlantic Seaboard in a Few Days.

Chicago, Dec. 10.—It is possible that a big open reduction in freight rates between Chicago and the Atlantic seaboard may be made within the next few days. All sorts of rumors are now in circulation and the subject has become of vital importance to the Western roads. The cut in rates between Kansas City and Chicago, which was made a few days ago, has caused the greatest excitement among the railroad managers of the Central Traffic association since its inauguration. The cut in rates seems to be a dead letter already. Previously rates have been cut pretty low and the grain rates are now at a point that it is difficult to carry it lower. At the Chicago committee of the trunk lines was held today, and the advisability of making the reductions wide open was discussed. No action was taken but the committee is going to adjourn if the continuing in operation of the present rates. If the tariffs are not restored within 10 days the cut will be to deal the new joint association of the Eastern lines a heavy blow. It will show, in fact, that it has really no power at all.

Clash Over Rates.

Chicago, Dec. 10.—A slight clash has come between the Rock Island road and the new Western Passenger Association. The road has sent notice to the chairman that it intends to meet competition in the rates made by the Western and the Central Association at several meetings. The chairman has told that the roads have no right to make the cuts and that individual action by any road of the association is only allowable when an emergency exists and the road has no time to get a ruling from the chairman on the matter. The Rock Island has not made any reply to the ruling of the chairman as yet, but it is not likely to withdraw its rates to the meetings specified in its notice to the chairman.

Has Not Resigned.

New York, Dec. 10.—A special to the Evening Post from Montreal says: Sir William Van Horne said to-day regarding his rumored resignation of the presidency of the Canadian Pacific railroad that the report was nothing but an idle street rumor.
