FINANCIAL.

The local money market continues featureless. The day was a quiet one at the banks, even for Saturday. Business was fair over the counter, but there was very little outside demand from brokers, and what little paper offering was of a miscellaneous character. Rates, however, were unchanged, being still 7@8 per cent. But little currency going to the country. Bank clearings, $1,288,855, same day last year $1,785,823, a decrease of $496,968, a loss of 18 per cent. For the week, $9,458,124, against $9,462,709, a decrease of 4/10 of 1 per cent.

Eastern exchange quiet and weaker.

Houston, Fible & Co., exchange brokers, quote it as follows: New York, 25c discount; Chicago, par; St. Louis, 25c discount.

The gold reserve yesterday was $128,228,586.

The New York bank statement of Saturday showed an increase in loans of $668,400, but a decrease in deposits of $1,251,900, in specie of $1,241,100, in legal tenders of $26,300, and in the surplus reserve, $2,466,150, making it now $19,342,675, in excess of the 25 per cent rule. The exports of gold from New York last week were $150,000, and of silver, $1,275,478. The imports were: Gold, $145,963, and silver, $22,500.

Stocks and Bonds.

New York, March 21.—To-day's stock market was fairly active for a half holiday, and the business was distributed in smaller amounts over a wider range than usual. Only one stock, American Tobacco, reached 100 transactions, the total, the dealings in it amounting to 47,300 shares, out of a total of 192,100 shares. As usual for some time past, the dealings were almost entirely professional, although foreign operators for short account renewed their sales of Louisville & Nashville to a moderate extent. The sentiment appeared to be rather bullish. The market received a setback at the outset from lower London cables, but the effect on prices was only momentary, and a covering movement by the shorts caused sharp advances all along the line, the industrials the more prominent. The closing was strong in tone, with the list a fraction higher, in most cases.

Railway bonds to-day closed slightly lower on sales of $315,000.

The Modern Miller, of Saturday, says: The smooth, mild weather spread over the winter wheat region of the Central, Southern and Western states last Saturday and Sunday, brought a liberal supply of moisture to the ground, but in several sections it might not readily be relished by farmers as timely for heavy freezing that injury reports are coming in freely. Investigation proves that in Missouri, Illinois and Indiana the wheat plant has, here and there, been frosted but the impression prevails that the roots have not been injured. The same may apply to Ohio and Michigan. Wherever damage was reported on account of drouth, unfavorable reports continue to come, the recent rain at most having come too late to pull the plant through. In the extreme Southwest the plant made a fair in condition during the week. In the territory east and north of the Missouri river, giving full consideration to the snowfall, there is not much precaution to report. The flour trade of the South and Southeast is dull. Pacific coast trade was good, China, Japan, East Indies, Australia and South Africa all being in the market for flour. South Africa was also a buyer, also being wheat buyers in San Francisco.
