MONGREL AGGREGATION TO HOLD A MEETING THIS AFTERNOON.

A False and Malicious Story About the Election Commissioners Refuted—Scandinavians Again Surprise the Gang—Good Republican Rallies.

Some of the well-meaning supporters of the mongrel ticket, and our report, which has been hard for the opposition, on account of its supposed influence with what Joe Shannon, member of the Kumpf newspaper staff, calls "——— Democratic votes, have been busily proclaiming that a very large proportion of the German-American votes of Kansas City would be cast for Kumpf and the whole mongrel ticket. In making their claims they were good as far as to boast that no German-American business man or citizen of any standing in the community would support the Republican ticket this year.

Such representations have caused drowning tears if they are needed, here is a list of leading German-American business men and active supporters of Kansas City who are supporting Judge Jones and the entire Republican ticket, and who have signed an agreement to be present at the grand closing Republican rally at Turner hall tomorrow evening. Not one of these names has been used without permission of the owner, but, on the contrary, each man whose name appears on the list stated it in person, making the declaration of his standing clear and unequivocal. Among the number it will be observed are several who have been published as vice-presidents of various meetings in favor of the mongrel ticket.
