LIVE STOCK NEWS AND GOSSIP.

KANSAS RAILROAD COMMISSIONERS MEET AT TOPEKA TO-DAY.

They Will Take Up the Important Question of Freight Rates on Live Stock and Will Hear All Sides of the Question.

The live stock freight rates case comes up to-day before the railroad commissioners of Kansas at Topeka. Documentary evidence will be submitted by the commission men at the yards here and by many shippers back in the country showing that the change of freight from so much per car to so much per 100 pounds has materially advanced the freight charge on stock to market.

The Kansas City end of the case will be managed by the following delegation from the yards here that will go to Topeka this morning: J. F. McCoy, J. H. White, W. S. Peters, B. F. Rively and P. B. Stoller President Stoller of the Live Stock exchange may also go, but it was not settled last evening.

A message from Topeka last night, speaking of this matter, said:

"To-morrow the cattlemen of Kansas have their innings before the state board of railroad commissioners on the question of the recent raise in cattle shipping rates. Many prominent shippers have already arrived and it is expected that many hundreds more will be here in the morning. The recent meeting of a local association at Emporia decided to send no delegates to this hearing, and other portions of the state will send equal numbers. The live stock shippers of Reno county, met in mass convention Saturday and prepared a resolutions and evidence to be submitted to the state railroad commissioners showing that the change in method of charging freight from carload to weight had advanced the freight on live stock to Kansas City 20 per cent. They will be represented at the hearing of the case in Topeka to-day."

The secretary of agriculture has issued an order authorizing the inspection of cattle from the high altitudes of Northern California for the interstate traffic, and if the cattle are found free from signs of splenetic or Southern fever or other contagious or infectious disease a certificate of inspection or health certificate will be issued as a permit for them to go to any place or for any purpose, subject to the laws in the state of the destination. California is one of those states which will not enact quarantine laws of her own, and this order from the secretary is no way changes the quarantine boundary, but merely makes an outlet for the healthy cattle in the mountainous regions.

Colonel Albert Dean, agent of the bureau of animal industry here, while he has not received any official instructions as yet, thinks that the order will not apply to low country on the coast which is in the infected area.
