WORKING RELATIONSHIP GAME.

GEORGE W. JEROME WANTS TO BE ASSISTANT POSTMASTER.

His Candidacy, Started in Jest, Has Now Reached Serious Proportions —A New Building at the Stock Yards—Teacher Dixon Reprimanded—Other News.

Dr. Thaddeus Fitzhugh, who worked the "relationship" racket successfully on Postmaster General Wilson and succeeded in getting the appointment as postmaster of this city, is now afflicted with the same kind of a "dose." George W. Jerome, whose wife is a second cousin of Dr. Fitzhugh's wife, is out after the assistant postmastership. A few days after Fitzhugh's appointment Jerome ventured to tell a friend of the close relationship that existed between them. The report spread around until a practical joker got hold of it and decided to have some fun. Jerome's candidacy for assistant postmaster was launched on the platform of "relationship." He was "timbered" by a number of friends to make the race and finally consented to do so.

For the last two days he has been gathering up signatures to a petition and everybody is signing it. He says that only one person has refused to attach his signature so far. Jerome has also interviewed the doctor and says that it will not be necessary for him to do anything more.

Jerome's candidacy has upset the plans of the other candidates for the place. Dr. Fitzhugh told Jerome that it seemed that every person in town wanted the place and in the free-for-all race Jerome thinks he will have the inside track if it on account of his wife's "pull" with the wife of Dr. Fitzhugh. Prior to his entry into the race Henry Daniels seemed to have the inside track. He is an old-time friend of the doctor and has some powerful influence at his back. Beside that, he is a South side man. The Democrats of the North and South sides have always been at swords' points, but the North side always had the longest pole and "knocked down" the persimmons. But this time the South siders won and now they feel that Dr. Fitzhugh ought to play the deal straight out. I not give the North side Democrats anything. He ought to do so, though, if he appoints his wife's cousin's husband, as Jerome resides on the North side.

TEACHER DIXON REPRIMANDED.

This Will End the Trouble in School District No. 31.

The trouble in school district No. 31 has been adjusted and Teacher W. E. Dixon is to hold his certificate. Yesterday the county examining board rendered a decision in the case, letting the defendant down with a severe reprimand.

Dixon was tried Saturday before the board at the office of County Superintendent Slusser in the court house. He was charged with practicing deceit in securing his position as teacher in the country school near Edwardsville. A large number of witnesses were examined and it was clearly shown that Dixon was guilty as charged and that he had successfully duped the school board of the district. The facts in the case are rather interesting and every resident of the district was deeply interested in its result.

Last August when the board was employing teachers for the term there were several contestants for the school. The board decided to give the school to William Allman and word was sent to him to that effect, and requesting him to call Monday and receive his contract. This was on Saturday. Dixon learned that Allman had been given the school and had been given until Monday to accept. He called on the board that evening and informed them that Allman had secured a better position and that he would not accept the country school. With little difficulty Dixon got the board to give him the school. The contract was drawn up and signed. On the following Monday Allman appeared before the board ready to sign the contract for the school. He was given to understand by one of the members of the board that that board did not give a man a chance to decline a position more than once. Allman demanded an explanation and he was told of Dixon's visit and the message he had delivered. Allman was greatly disappointed and in angry tones informed the board that he had not resigned Dixon and that the statement to the effect that he had accepted another position was utterly false. The board assured Allman that every possible means would be used to oust Dixon. However, Dixon held a binding contract from the board and successfully held the school. A charge of incompetency was preferred against him but this resulted in Dixon's favor. Then the charge of deception was preferred against him. The examining board in its decision yesterday decided that while he was guilty as charged it did not think it was warranted in revoking his certificate and let him off with a severe reprimand.

Seeks to Recover Her Property.

Bertha I. Rehm, through her attorneys, filed suit in the district court yesterday against Ernest Lucas and others to recover $90 for damages and the cancellation of deeds to certain property in Argentine. She asks the court to cancel the deeds now in possession of the defendants and restore to her the title of the property. She claims that the defendants are tearing down the houses and for this she asks $90 damages.

SKINNY SUFFERER SAVED.

WHAT DO YOU THINK MAKES STRONG MEN WEAK?

Experience of a Prominent North Dakota Politician, Who Gained 10 Pounds in a Few Weeks.

Every man likes to be strong. Why shouldn't you be? Are you a tobacco user? You are? Of course you know that tobacco users, as a rule, are away below normal weight, because tobacco destroys digestion and sets certain nerves on fire. That wears on the brain, saps its power, and you gradually become impotent. It is called "lost manhood." You never get weak this way when you gain in flesh like our friend Williams. Read what he says:

Sykeston, Wells Co., N. D., July 25.

Gentlemen:—One box of No-To-Bac cured me of the tobacco habit, both smoking and chewing, after having used the weed for nearly forty years. My health is much better, nerves strong and steady, and I have gained over forty pounds in flesh. I have recommended No-To-Bac to some of my friends, all of whom have been cured. I firmly believe that No-To-Bac will do for others what it has done for me. I heartily recommend it to all those who have become slaves to the use of tobacco and desire to be emancipated.

J. A. WILLIAMS,
County Auditor.

Now, don't you think No-To-Bac worth a trial, especially when you buy from your own druggist under absolute guarantee of cure? Get our booklet, "Don't Tobacco Spit and Smoke Your Life Away," written guarantee of cure and free sample mailed for the asking. Address Sterling Remedy Co., Chicago or New York.

ARMOURDALE

Building Is Very Active, More Than Forty New Houses Being Now Under Way.

Armourdale will enjoy a large growth this season. Already more than forty new houses are under the course of erection, and the contractors and builders say that they have numerous inquiries daily concerning proposed buildings.

R. F. Termier, the well known meat man, yesterday broke ground at the corner of Eighth and Osage avenue for a fine two-story frame business block. Contractor Buckley has the contract to build it. Mr. Termier proposes to locate his market in the new building, and it will be fitted up in the latest style.

Fine little residences are being erected all over the South side. The most of them are being built by laboring men, who have become tired of paying rent, and want to get into homes of their own.

In a short time Frank Eaton will begin the construction of a large three-story brick office building at the corner of Fourth and Kansas avenue. Contractor Dahlgren will do the work. The various manufacturing institutions are running steadily, and the workmen are making fair wages. The real estate market is not only looking up, but the merchants are feeling much encouraged with the outlook.

Street Railway Improvements.

The Metropolitan Street Railway Company has added some desirable improvements to the cars on the West Side line. In order to protect the passengers automatic gates have been placed on each end of the cars, which only can be opened and closed by the motorman. He is instructed not to open the gates until the car is at a standstill. A passenger can neither get on nor off the car while in motion. While this is a great protection to the passengers, it is also a protection to the company, as it will result in less personal damage cases. The company, so it is said, will adopt the system on all of its electric lines.

Weekly Payment Unconstitutional.

Justice Sims rendered a decision in a civil case yesterday, in which he held the law requiring the weekly payment of wages unconstitutional. H. L. Fowler began suit against the Kansas City car works to recover $100 wages, and 20 per cent of the indebtedness because of the failure of the company to pay weekly. He also sued for a reasonable attorney fee, as the law law provides. Justice Sims held that the law was void. The case was then tried on its merits for actual work done by Fowler, and he was given judgment for $23.50.

A Bad Man From the Nation.

Ned White, a "bad man" from the Choctaw nation, went to Argentine yesterday to take the town, but instead he was taken by Constable Barrett. Constable Barrett was sitting in his parlor yesterday, quietly waiting for his wife to prepare his dinner, when a stranger without the formality of an invitation walked in and demanded of Mr. Barrett his dinner, seemingly not knowing or caring whether he was in the house of an officer or not. When asked by Mr. Barrett his business, he became abusive and wanted to fight. He was politely but firmly told to quietly walk to the city hall in company with Mr. Barrett, and when shown a six-shooter he went without further trouble. He was later brought before Justice Herr and fined $1 and costs.

Is your body fire-proof?

Speaking of infectious diseases, Dr. E. Brown says: "We ought to learn to keep our bodies invulnerable to contagion as a fire-proof building is impervious to fire; that is, we should be able to resist such moderate quantities of disease germs as we necessarily encounter through life." Each man and woman and child should fortify their own body by healthy living, that the soil for the growth of germs be not available. Scott's Emulsion of Cod-liver Oil strengthens the barriers that Nature raises against all intruders by giving the system the resistive force needed to throw off disease.

BROUGHT BACK TO KANSAS CITY

A. E. KEMERER, WANTED FOR VARIOUS FRAUDS, ARRESTED.

He Formerly Did a Loan Business in This City and Last July Was Indicted for Using the Mails to Defraud.

Postal officials believe they have secured an all around sharper in the person of A. E. Kemerer, who was arrested at Chicago Monday night, under indictment found by the federal grand jury in this city last July, which charges him with having used the mails for purposes to defraud. Kemerer formerly had offices in the Whitney building, and also in the Hall building, where he conducted business under the firm name of Kemerer & Co., as successors to the National Brokerage Company. The firm transacted a loan business and at that time sent out numerous circulars to parties who had secured loans on household articles or real estate, informing them that he would take a second mortgage upon their chattels at a lower rate than had been charged by the first lender. It is charged that he secured a number of these second mortgages, but failed to discharge the first mortgage, and that he sold the securities or at them up as collateral. It is also charged that he collected illegal notarial fees and added other illegal expenses in making out the fraudulent mortgages; in short, that he fleeced his patrons by every possible devious method.

Among the parties who appeared against Kemerer before the grand jury are A. A. Seitz, a druggist on Thirteenth and Holmes streets, and Mrs. Mary G. Alsop, of Salina, at 522 Walnut street.

Kemerer left Kansas City last September and since his indictment, last July, his whereabouts have been unknown here until he was located in Chicago, where he had for a short time been conducting a loan business on Dearborn street building. He said that he had previously been located in St. Louis and Findlay, O. Before coming to Kansas City, Kemerer was manager of the United States Loan and Investment Company, and he is well known in both cities, but although he was under the direction of the United States marshal's office nearly all day after his arrival yesterday, he was unable to find bondsmen. The first man for whom he asked was H. C. Lloyd, of battery notoriety. Kemerer's wife lives at 2338 Armour avenue. Yesterday with their three children she visited United States Marshal H. C. Clark, who brought Kemerer from Chicago, after seeing his prisoner safe behind the bars of the county jail, left for his home last night.

NONE CAN SEE BILL TAYLOR.

ADMISSION TO THE JAIL WILL BE DENIED TO-DAY.

Over Three Thousand Curious People Saw the Noted Criminal Yesterday and Marshal Keshlear Will Shut Visitors Out.

Marshal J. H. Keshlear will not permit anyone to see Bill Taylor in his cell to-day, and stated yesterday that the free visiting list, which has been so heavily patronized for the past two days, will be withdrawn, and none instituted while Taylor remains in the jail. He will guard as much against any accident or effort at escape as ever, however, and will keep the night watch doubled during the time Taylor is in the jail.

Yesterday was but a repetition of what Tuesday was. A constant stream of people passed in and out of the jail, and viewed with a morbid curiosity the treacherous looking Missourian behind the bars. His great popularity in the newspapers in the past few days as a source of news has awakened in the people of Kansas City and the surrounding cities an undue interest in the murderer which would not exist for a man of less notoriety. Yesterday many women went to the jail and saw him. Some of them carried fruit and some flowers, and when Taylor's cell became too small to hold the bountious gifts they were passed to the prisoners in the inner corridor, where the fruit was devoured with an eager relish and the gently perfumed quets destroyed. Taylor accepted all the gifts that were tendered him with a graceful nod of the head and a kind word, but his intense interest in looking at the people who came to see him far outclassed anything they could bring with them to cheer up his cell.

Bill Taylor is very far removed from being any man's fool. He has seen quite enough of the world to know that he is not the most popular man in the city, and he is fully realizing it. He knows that he is the most unusual one and has responsible almost like one man to the city, and if a single opera or a theater would be opened in Kansas City, he would be willing to pay a good sum of money to buy the same tickets. Numerous dodges are used to shield the passing crowd for all they are in. As a result of the liberality of the jailer in allowing people to come and go at will, there is a constant stream of people passing through the jail. Generally speaking, the lower tier of cells is occupied by the first place on the extreme end of the tier, and at some of the games as high as twenty men can be seen laughing together, waiting their turn to take a seat in the game. Occasionally a game of "pitch" is played on the floor
