WHAT MR. NEFF SAYS.

"I am going into this campaign and take up the standard and the mass and stand upon the platform formulated at Kansas City with W. J. Bryan and Adlai Stevenson."—Robert Neff, in accepting the joint Democratic-Populistic nomination for congress.

WHAT MR. FLYNN SAYS.

"Where the honest thrive, where the hot winds die, where here is a general prosperous thriftiness and balance, there you will find the Populist."—Dennis T. Flynn, in a speech in congress.

MR. FLYNN AND DEMOCRATS.

Delegate Flynn calls upon Democrats to vote for him on the score of gratitude. In the house of congress July 1, 1896, Mr. Flynn, speaking of the bill providing for the appointment of census commissioners, said: "If I can say that there should not be a Democratic enumerator, North or South."

Will some one, out of pure kindness, if nothing else, rise up and tell The Leader why Dennis Flynn is entitled to the support of Guthrie and Logan county—or any other county for that matter?

"Time and the hour runs through the roughest day."—Dennis Flynn's Journal. Except the times.

Chairman Templeton's time is short. He said it is just one for weeking, [illegible]

Jack, without leaving your Democratic friend, party lines to [illegible]? If so, which?

Marshal Jones is said to be [illegible] but where. He will go to Indian Territory.

Hon. Wm. Jennings Bryan [illegible] Flynn. Not a word about Flynn's [illegible] come to Flynn.

Does Hanna mean "[illegible]" in [illegible]? This why he [illegible] Chairman of Republican National Committee?

Dennis T. Mc-Flynn could make votes if the Indian territory looking after the interests than he does in Oklahoma? We think so.

Why should Guthrie voters take up our Oklahoma shouting for Flynn—look at the governments here and look at Ada, Ada the capital city.

The fact of the matter is that whole lots of people do not know the difference between whole statehood and separate statehood.

James Hamilton Lewis of Washington, is singularly favorable. He has made himself agreeable to both factions of Montana Democracy.

When the Ada bonus bill passed, Sidney Clarke wired from Washington: "Nothing can beat Flynn for re-election." Does Mr. Clarke still retain that belief?

Secretary Bonfoey, of Flynn's own office, hourly spits on money. He's got it to get in. Here and in Hell. From the way he spits at the month he's probably had here.

In the fog of new issues for the season the Market Monitor and the Ada Democrat are completely lost sight of. The Cantonian's Gold Walk and The Vale Office Visitor have been omitted.

A sensational revelation has been made of near Custer S. D. that reveals the famous wind cave of Hot Springs (Dakota) Chronicle. Also will be seeking a natural spot near Ada it might make a gem of the Chautauqua.

How much longer has Mr. Flynn made from his opinion concerning the capital? Did Mr. Flynn get a special bill passed the last session giving him that honor? Bonfoey and Reed are interested with him. Time will tell.

The next legislature could assist materially matters here and aiding the capital. Guthrie has not [illegible] Mr. Flynn [illegible] the 100 [illegible] the capital. Why should Guthrie and Logan [illegible] and [illegible] [illegible]

Hon. Dennis T. Flynn is [illegible] Democrats. Is the Democratic [illegible] Flynn's [illegible] to get [illegible] Democrat [illegible] Flynn [illegible] Democrat [illegible] Flynn [illegible] Democrat [illegible] Flynn
