J. J. ABELL.

The New Clothing Store.

Our buyer, Mr. J. J. Abell, has just returned from the Eastern markets where he bought a large and complete stock of Clothing, Men's Furnishing Goods, Hats, Trunks, Valises, etc. By going direct to the Eastern markets this late in the season and by paying spot cash, we are able to buy goods from 10 to 25 per cent less than the same goods were sold to merchants who bought early in the season. These goods are now arriving and just as soon as they can be marked and put in stock the NEW STORE will open and be ready for business.

Wait until the New Store opens, it will pay you.

One Price To Everybody. | J. J. ABELL, FIRST DOOR EAST OF RAMSAY'S DRY GOODS STORE. | All Goods Marked in Plain figures

(Continued from page 5.)

county and Pawnee County commissioners. There was no property to assess in the county except PERSONAL property.

Did the Guthrie Democrats claim to be compelled to pay back taxes [illegible] on land wrongly sold that the county had never owned and had no authority to sell?

Look at the total assessed value of Logan county for 1891, viz: $1,178,[illegible]. Then look at the value of real estate which is subject to pay of the present [illegible] to $4,422,[illegible].

Look at your tax receipts for the different years and see if it is not true that while the rate per cent was [illegible] decreased the valuation has materially increased.

Let's take the total rate per cent for the different years and see how much better the Republicans have made it. It was about [illegible]:

	Total rate per cent levied on each dollar
1891	[illegible]
1892	[illegible]
1893	[illegible]
1894	[illegible]
1895	[illegible]
1896	[illegible]
1897	[illegible]
1898	[illegible]
1899	[illegible]
1900	[illegible]

Now take the 1891 value and the 1900 value and see how much the rate per cent has been reduced.

SOME POINTED QUESTIONS.

Which the Taxpayers Should Ask Republican County Officials.

QUESTION NO. 1.

The Capital says that under Boston [illegible] Logan county bonds sold at 45 per cent discount. Why is it that the same bonds, May 42, 1895 at [illegible], the first series of which is due in 1906, were not sold at a premium when the term of [illegible] of $[illegible] of all bonds, brought, as he says, a premium of $1,000 on each premium. In fact, as shown by the County Commissioners' record was $[illegible]? (See the copies from the Commissioners' record.)

QUESTION NO. 2.

Up to 1895 all the court expenses, county supplies, salaries and other expenses were paid out of the county general fund. Look at the abstract and figure it out!!

QUESTION NO. 3.

Look at your tax receipts. Here's the rate. Do your own figuring. Have the county officials juggled with the figures?

QUESTION NO. 4.

Ask W. R. Hagistead, ex-Republican commissioner of Logan county, if the statement in regard to the Boles claim from start to finish is not correct? Then verify his statement by examining the records.

QUESTION NO. 5.

Amply the Capital says steel bridges under fusion rule cost $[illegible]. Will the Capital or the County commissioners state how many steel bridges were bought under fusion rule? Will they state why they did not advertise for bidders as in Kansas, so that the people could at least see what propositions were made? How much was the expense of the commissioners to Chicago on the trips they made to buy bridges? Did they have any advice from an attorney in Chicago? Who is the attorney of one of the large bridge companies as to the kind of bridge they should buy? If so, who is this attorney? Is he related in any way to the commissioners?

QUESTION NO. 6.

Which one of the county commissioners receipted for the warrant to the Chicago bridge and how much was it for, $[illegible]?

QUESTION NO. 7.

[illegible] the county bonds, how much the county has [illegible] interest? Has the county claims to be allowed?

QUESTION NO. 8.

On what page of the county clerk's ledger does the county clerk keep the record of the claims and warrants relating to separate school funds? Has he such a fund? And, if so, what were the credits for delinquent personal uncollected and real estate funds and taxes sold to the county in 1900? What has become of the $61,621.27 listed for road and bridge purposes?

QUESTION NO. 9.

On what funds were the warrants drawn if any were drawn to pay for the last bridges purchased ostensibly for the county?

(To be continued.)

THE NEW

Queensware Store

WE EXTEND to the people of Guthrie a cordial invitation to visit our store, and inspect our stock. While we are still awaiting the arrival of many goods, you will find our stock of

NABAN UNFERMENTED CEYLON TEA — FRANKLIN, MAC VEAGH & CO. CHICAGO.

Dear Madam:

We want to tell you something about the very best tea ever offered to families in America, and now to make it. Naban unfermented Tea is very fragrant, delicious in taste. It is not musty or bitter like other Ceylons because it is specially prepared to suit the American tea drinker.

Have your teapot dry, use not over a half teaspoonful of tea for each cup required—the teaspoonful is sufficient for three cups; be sure that the water is boiling hard. After pouring the boiling water on the Tea allow it to stand from 3 to 5 minutes, but do not let it boil. You will then have a pot of tea that will be a pleasant surprise.

This tea has more that double the strength of other teas. Don't be afraid of using too little. The only way you can make a poor cup of tea with it is by using too much, and not having the water boiling.

Try this tea three times. As it differs from what you are accustomed to, you may not like it at first trial; the second time you will be delighted with it.

Naban Tea is specially grown and prepared. It is put up in sealed air tight lead packages of 1 pound, ½ pound and ¼ pound each on the gardens where grown, thereby retaining all its strength and fragrance. It is sold only in these lead packages. Never in Bulk.

Yours very respectfully,

FRANKLIN MAC VEAGH & CO.

A visit to the Guthrie Brewing Works [illegible] demonstrate the [illegible] of the company selling [illegible] forcing out their [illegible] of various [illegible] and yet the works are behind with orders.

REVENUE ON MATRIMONY.

A Discovery Made by a Mulhall Divine.

A Mulhall divine has discovered that marriage licenses must bear internal revenue. Yesterday Otis Foster and Minnie E. Fullerton, two of Mulhall's young people were made one by Rev. Coburn of that place. The license issued the day before, was received by the probate judge today bearing the cent stamp with the [illegible] in various stamps attached, properly cancelled. This is a new one on Judge Foster, he only thinks ever returned with stamps upon it.

Wanted—100 men to book check room.—W. M. McGee.
