LEGAL CASES OF INTEREST.

Protection of Proprietary Medicine.—In Moxie Nerve Food company v. Modes, 152 Federal Reprter, 493, the United States circuit court, for the district of Rhode Island lays down the proposition that a maker of a proprietary medicine, seeking the aid of a court of equity in the protection of his trade-mark rights, should be required, as a part of its affirmative case to allege and prove that its preparation is what it purports to be; there being no presumptin that such representations are true upon which a court can act. The court says: "If a complainant seeks protection in the sale of bottled goods, he should be willing to swear that his bottles contain what he represents to the public that they contain; and that his goods are in fact what they are sold for."

State Regulation of Connecting Carriers.—The United States supreme court, in Atlantic Coast Line Railroad company v. North Carolina Corporation commission, 27 Supreme Court Reporter, 585, 206 U. S. 1, 51 Ed. 933, holds that a ruling of the state commission requiring the operation of an extra train at a loss in order to restore connections at a certain station is not so arbitrary and unreasonable as to amount to a denial of due process of law, or to a deprivation of the equal protection of the law, so long as the income of the railroad company from its business in the state affords adequate remuneration.

Help Him

A very delicate matter, to be sure, but do you think your husband is as good looking as he ought to be? Help him out! Offer to buy him a bottle of Ayer's Hair Viger if he will only use it. Removes dandruff, keeps the hair soft and smooth, gives the proper finish to the general make-up.

Ask your doctor if there is any single preparation for your hair like Ayer's Hair Vigor. Consult him freely. J. C. Ayer Co., Lowell, Mass.

The rooms were prettily decorated with clusters of pink carnations. Mrs. McGuire will be at home on Tuesday, March 3, at the New Willard for the last time this season.—Washington, (D. C.) Post.

Mrs. Roy C. Oaks and little son, of Sulphur, are here visiting their husband and father, Roy C. Oaks, secretary of the state banking board.

ALLOTTED LANDS BRING HIGH PRICE

Okmulgee, Okla., Feb. 27.—The court house here was the center of interest today on account of the county court selling at auction the leases on the lands of four freedmen minor allottees. The lands are in the region of the Bald Hills development and are evidently looked upon as highly promising. The Jefferson Meyers and Minnie Meyers two quarter sections about three quarters of a mile south of the Brown-Caton-Webb well in G-14-14 brought together about $17,000. This is bonus and is additional to the one-eighth royalty which the allottees will draw of all oil produced on their lands. It is unfortunate evidently that a negro should become of age. Had these minors attained their majority no doubt they had sold their leases many times cheaper than they were sold to-day. Two allotments, those of George and Pearline Adams, located nearly three and one-half miles north and west of the Burns-Caton-Webb well sold for $7,675.00. This in the face of the fact too that the Chesley-Galbreath Co. have drilled a well claimed by them to be a failure between the Burns well and these lands. The story of its being a failure is discredited to some extent. The Bald Hill field is being increased in area by a second well by Burns-Caton-Webb one fourth mile west on Buchanan land. This well is in the gas sand at the top of the oil and is being cased today.

W. H. Rosser and Company are in the gas sand also on the Steigner land north and east one-fourth mile and are casing to-day. Developments now demonstrate the sand to be productive to a width at least of one-half mile from east to west and the Galbreath-Chesley well on Garmes is two and one-half miles north. Evidences thus secure a quite extensive development.

SCORNS DEATHBED REPENTANCE

BEAUTIFUL YOUNG WIDOW NOT SORRY OF CONDUCT

TRAGEDY WHICH LED TO HUSBAND'S SUICIDE

Paralyzed From Bullet Which Severed Woman's Spinal Column

Pueblo, Colo., Feb. 27.—Mrs. Lucy Gardner Cammack, the beautiful young widow of Sherman T. Cammack money broker, who was shot by her husband several weeks ago because she threatened to leave him, cannot live more than forty-eight hours longer, say the physicians at St. Mary's hospital, where she is lying. One of the bullets fired by Cammack severed his wife's spinal column and she has been paralyzed from the hips down since that tragedy, which ended with her husband's suicide.

It was deemed advisable, according to information from the hospital, that Mrs. Cammack be informed of her chances for recovery so that she might designate what she wishes done with her estate when she dies. She was also asked if she did not repent her conduct that led up to the tragedy, but she bluntly replied: "I do not, and never have, believed in these deathbed repentances."

SECURES PARDON FOR FRIEND.

Hon. Henry M. Intercedes Successfully With The Governor.

Not as an attorney, but purely as an act of personal friendship, Hon. Henry M. Furman of Ada to-day secured a pardon for John E. Smith, of Roff, who on last Friday was sentenced to thirty days in the county jail and fined $50, on the charge of bootlegging. Smith is a law-abiding citizen, bears a good character and was never arrested before in his life. He gave whiskey to a friend who appealed to him on behalf of a sick wife. The officers of Pontotoc county learned of the occurrence and sworn out a warrant for Smith. He appeared in court at Ada, admitting giving his friend whiskey and said, "If that be an offence I am guilty." Under the prohibition clause it is illegal to give away or sell whiskey even for medicinal purposes and the county judge was forced to impose the fine and sentence prescribed by law. Both the county attorney and judge sent letters to the governor by Mr. Furman asking that he release Smith from the jail sentence. Governor Haskell after hearing the story sent a wire to the sheriff of Pontotoc county to release the prisoner.

When asked about his candidacy for United States Senator against Senator Gore in the coming campaign Mr. Furman refused to talk.

SHE LOST IT

Sallow Complexion Went Glimmering.

What is more natural than that a lady should want a beautiful complexion?

There is one sure way to secure and maintain a good skin if nature has been even a little kind on the start.

Proper food, deep breathing, pure air; and one must absolutely avoid coffee and tea, as these beverages ultimately produce a bilious, sallow skin. Anything that causes dyspepsia or indigestion, or interferes with the liver prevents the nutrition necessary for making good blood and a fair complexion.

"For years, writes a N. J., girl, "I was a sufferer from nervous dyspepsia and palpitation of the heart. These occurred more especially in the morning when it was my custom to take a cup of coffee only.

"One day I tried a sample of Postum Food Coffee prepared by a demonstrator in a store. I liked it so well that I began to use it regularly. That was several months ago, and today I am entirely free from the old trouble, besides having gained considerable in flesh.

"My complexion, which was sallow and muddy has cleared beautifully. Tea and coffee have been banished from our table and Postum is used in its place three times a day.

"By carefully following directions on the package (boiling it well) we have a rich and satisfying drink and the entire family enjoy it, knowing that we can drink as much of it as we like with beneficial results.

"There has been marked improvement in the health of each, and as there has been no other change in our habits, the credit must be given to Postum.

Charging abandonment and non-support, Anna Seward today filed suit against James Seward for divorce and alimony, alleging that the defendant owns a farm in this county. She asks the custody of three minor children.

Guilty On One Count.

The jury in the United States district court returned a verdict this morning after being out all night in the case of James Gorman, of Osage county, who was indicted on two counts: one for assaulting Lula Gorman with intent to kill and the other for assaulting Oscar Wicker with intent to do bodily harm. The verdict of the jury acquitted the defendant on first charge but found him guilty on the latter.

Col. Cherry Is Better.

The Aurora (Ill.) Daily Beacon says: Charles T. Cherry returned to Aurora last evening, much improved in health. He has lost 135 pounds since leaving for West Baden last fall and is now fit to enter an endurance test of most any description. He still weighs 250 pounds. Mr. Cherry's friends are all greatly pleased at his progress toward health, which is so apparent. For the present, soda pills lows sufficient in bulk to displace 135 pounds of flesh in his clothing, will be gratefully received.

MUSKOGEE BASEBALL FANS GETTING BUSY

Muskogee, Okla., Feb. 27.—Lee Ury who owns the base ball franchise in Muskogee has completed arrangements for exhibition games with the St. Louis Nationals, St. Paul Americans, Milwaukee Americans and Little Rock, Ark., all to be played between the first and fifteenth of April. Immediately following these games Ury will take his Redskins on a trip through Texas playing exhibition games with every team in the Texas league.

Arrangements have been made to secure a new ball park within four blocks of the business center in Muskogee and a new stock company has been formed with plenty of money to finance the Muskogee team. Ury has already taken on thirty men who will show up next month for a try-out. By the time all the exhibition games are over he will have a team in good fighting trim.

Judge B. T. Hainer, of Perry, is here on legal matters in the United States district court.

CHOICE PLUM FOR EL RENO

WILL GET GENERAL OFFICES OF ROCK-ISLAND RAILROAD

MEANS AN OUTLAY OF OVER $2,000,000

For Complete Terminal Facilities for Oklahoma, Arkansas and Louisiana

Special to Daily Leader.

El Reno, Okla., Feb. 27.—Word was received here today from Chicago, the Rock Island headquarters, stating that an important circular had just been issued, whereby the general offices of the Rock Island system for Oklahoma, Arkansas and Louisiana had been transferred from Chicago to El Reno, and with instructions to secure office space for the general manager and his office force. The news spread over the city like an electric current, and the enthusiasm of the citizens equals the surprise the bulletin occasioned in railroad circles, although it has been known for some time that the Rock Island was centralizing in the Southwest at El Reno.

Town Gives $50,000 Bonus.

The first intimation of this good luck for El Reno was manifested about a year ago, when the company submitted a proposition to the city that for $50,000 it would establish division headquarters and construct terminals here. Within ten days after the acceptance of their proposition the division superintendent and officers at Chickasha were moved to El Reno. Immediately following, and in very quick succession, came the headquarters of the law, claim, engineering and telegraph departments of Oklahoma, which contains fifteen hundred miles, or one-fifth of the entire Rock Island system. The terminals, when completed, will be the largest and most modern in the West, and will cost $2,000,000. They cover an area of one thousand feet in width, by one and one-half miles in length and will contain seventy miles of track, a forty-one stall round house, power house, shops and repair track for 200 acres. Two steam shovels, seven engines, 120 cars and 350 men have been at work on the yards for ten months. Entire hills, fifty feet high, have disappeared before the mighty steam scoops, and have gone to make the necessary fills of the three to six feet over the entire terminals.

General Manager W. S. Tinsman, and his office force, will reach El Reno from Chicago, Sunday.

Girls, a clear skin is the first requisite for personal beauty; to secure it good digestion is the secret. Perfect digestion comes from the use of Hollister's Rocky Mountain Tea. Makes rich red blood and clear healthy skin. 35c, Tea or Tablets. —C. R. RENFRO.

Charm the Fat Away.

To reduce by means of exercise or dieting is nothing but torture to the flesh and mortification to the spirit. It is so much simpler to "charm" it away. Of course I don't mean by "spells" or "incantations" but through the occasional use of this home recipe, viz: ½ ounce Marmola, ½ ounce Fluid Extract Cascara Aromatic and ½ ounces Syrup Simplex which any one can obtain at any drug store for a small sum and mix at home. Take a teaspoonful after meals and at bedtime. It literally charms the fat away. Takes it off just where you need it off and does it quickly and harmlessly. Many persons lose as much as a pound a day.

Don't that "charming" off the fat—eat what you please and still lose a pound a day—without strain, injury or effort?

TALES OF SENATE CLOAK ROOM

Senator Johnston made a timely request and a proper one, when he asked all members differing from each other to refrain from making statements questioning the motives of an opponent. Had he also asked, and, as a presiding officer enforced the restriction of questioning a speaker, for the purpose of asking hypothetical questions, he would have fulfilled a duty.

Why prohibition should differ from any other public policy matter in a legislative body is hard to understand yet there is always, in all legislative bodies, many wild and foolish stories started over that topic, and some of them start for the purpose of binding a member to be for or against, as the case may be.

Senator Davis, who fought the original booze bill provisions so hard, never tastes liquor or malts. Mr. Little, who started the fight against the new dispensary proviso, is a total abstainer. Both are known in their homes as temperate and temperance men, taking the side of prohibition at all times. Senator Billups is also listed as a consistent and ardent prohibitionist. Many of his best aids are believers in high license, pledged to carry out the command of the people, and not a few of the anti-prohibs are able fighters for the cause.

Senator Holman of Wetumpka is on the sick list and was not present Wednesday.

Senator Thomas is again on duty after a few days absence.

Senator Johnston, in the discussion of the dispensary matter, declared the issuing of a dispensary license to a man in a city of less than 2,000 people, prior to the people having voted it into the constitution, would be contrary to law. Senator Franklin holds the same opinion, and Stewart likewise. All were opposed to the Little motion to strike out that part of the bill, each declaring the people should vote on the question, and opposing emergency part of the bill. Davis, Gambling and Redwine all favor separating of the two subjects; prohibition to be at once enforced, the dispensary to be left to the people. The prohibition part of the bill meets, as it now stands, the approval of the very large majority of the senators. Redwine is a believer in the merit of a dispensary system.

There is a contention among the members of both houses that the present law against liquor, if the county judges do their duty, is the best ever attempted on prohibition lines.

The speech of Senator Little, Wednesday afternoon, was a pace setter in the oratorical efforts made in the legislature, where many able orators have spoken. Mr. Little added to the knowledge of the question, earnestness of purpose and a choice of language positively beautiful, and "about room" doubts the speech ever having been equaled in Oklahoma, insofar as eloquence, oratory and beauty of language are concerned. If he does no more during the session, the Enid man will go home as one of the really great speakers in the Southwest.

Senator Campbell Russell intimated he had seen the smoke of a political ring, while discussing a proposition. As the senator is considered one of the best political organizers in the whole state, it is probable he did not get frightened when he saw the evidence of the camp.

Thirteen of the forty-four senators are total abstainers—a larger number, proportionately, than the records of any other legislative body can show.

Drs. Conn and Johnson, both senators, assert whiskey is not a medicine, and not so considered by many medical societies. It is alleged not one physician in a thousand ever prescribes whiskey for a patient. On the other hand alcohol is alleged to form the basic portion of more than seventy per cent of all medicines.

By actual count there were ninety-two ladies in the senate audience at one time Wednesday. Are they attracted by the desire to hear speeches, or, are they "white ribboners? Anyhow they add to the dignity of the occasion, and are always good listeners, giving courteous attention.

Senator Johnston made a splendid statement when he declared because men differ as to matters of legislation, it is no reason why they have other than pure and patriotic motives, and that all should be treated with respect. And his statement the keeping of pledges made to the people was the one test of loyalty, deserved to be remembered at all times. Senator Johnston, as a presiding officer, has treated all men fairly. If he has a weakness, it is that he could be charged with being too lenient, striving to give all an opportunity to be heard, no matter if he were being treated unfairly.

State Taxation of National Securities.—A tax imposed under authority of section 1322 of the Code of Iowa, dir. that the shares of stock of state banks shall be assessed to such banks and not to individual stockholders, was by the United States supreme court in Home Savings bank v. City of Des Moines, 27 Supreme Court Reporter, 571, 205 U. S. 503, 51 L. Ed. held to violate the immunity of national securities from state taxation, as the substantial effect of the tax was to require taxation upon the property and including the franchises of such state banks, and to select the value of the shares as the measure of taxable valuation of such property, without permitting any deduction from such valuation on account of the bonds of the United States owned by the banks.
