Justice to Harry Spurlock.

The Leader contained an item recently to the effect that Harry Spurlock was no longer connected with the paper. Mr. Spurlock had taken a position as traveling agent for another firm, and the item was inserted to inform patrons who frequently phoned. The item was not inserted to reflect upon Harry's integrity. He is a good business young man and served The Leader faithfully. Inasmuch as designing persons have sought to construe the item to the discredit of Harry The Leader makes this statement in justice to him.

Ed Dell of Lovell passed through the city today enroute to Lawton to attend the state convention of the Oklahoma A. H. T. A.

DAILY FASHION TALKS

By May Manton

FOR THE AUTUMN BRIDE.

Bridal costumes are always much under discussion at this season of the year and every woman is sure to be interested, whether she is girl, wife or widow. This one shows a Directoire style used in a modified way and is just as charming and graceful as well can be without over elaboration. The material illustrated is white satin and the trimming is embroidery and antache while the guimpe portions are of tucked silk net and the panel of the skirt is made of chiffon, but all the materials that brides wear can be utilized for this gown and there are various satins and crepes de Chine from which to choose while for the trimming appliqué can be made to take the place of embroidery or any finish that may be preferred. The garniture on the house, too, is separate and can be made of contrasting material such as heavy allover lace or of satin embroidered while the rest of the gown is of thinner material. Again, the guimpe portions could be of lace, if

that material is preferred to net, although tucked net is one of the smartest of all things just now. Whatever the material and whatever the trimming, however, the essential characteristics of the gown remain and they are to be found in the lovely long graceful lines, in the short waist line and the close fitting sleeves, all of which make variety without undue exaggeration.

For the medium size will be required: for the blouse 3 3-8 yards of material 21, 2 1-2 yards 32 or 2 1-4 yards 44 inches wide with 1 1-8 yards 18 inches wide for the guimpe portions; for the skirt 8 yards 21, 6 3-4 yards 32 or 4 1-2 yards 44 inches wide. A May Manton pattern of the blouse, No. 6419, sizes 32 to 40 inches bust, or of the skirt, No. 6062, sizes 22 to 30 inches waist, will be mailed to any address by the Fashion Department of this paper on receipt of ten cents for each. If in haste send an additional two cent stamp for better postage which insures more prompt delivery.

Hives, eczema, itch or salt rheum sets you crazy. Can't bear the touch of your clothing. Doan's Ointment cures the most obstinate cases. Why suffer. All druggists sell it.

WILL REGULATE GAS-FITTING.

(Continued from Page 1.)

Councilman Douglas stated in this connection that he did not believe that Fire Chief Gruber, or any other salaried city employe was competent to test gas fitting. Councilman Spurlock explained that other cities had the fire chief make the inspections and that the test was but a simple thing to make. On motion of Councilman Douglas a new office, that of gas inspector, was created by inserting in the section the words "gas inspector," instead of chief of fire department. Councilman Morrison opposed this amendment, asserting that all the council was driving at was to give another broken down politician a job. The vote on this amendment was as follows: Ayes - Barker, Douglas and Holler. Nays - Hopkins, Morrison and Spurlock. The mayor cast the deciding vote, aye thus making another position to barter away in the game of politics.

The next proposition of importance changed in the orginal ordinance was that section which requires the gas company to place a curb rock and box at the property line.

The gas-fitters present asked the mayor if the ordinance called for an additional inspection for every additional stick added stating that if a stove were to be added of some lights added would it be necessary for another inspection? The mayor replied that it would. The gas-fitters, through their spokesman, registered a kick against inspection for additional work, stating that they could not get men enough to pipe gas into all the houses in the city for fuel before cold weather sets in, and that if an hour's time was to be spent inspecting for every additional light or stove, it would delay them in their work and would cause many houses to go cold this winter.

TO MAKE SPLENDID REMEDY

FINE RECIPE FOR RHEUMATISM AND KIDNEY TROUBLE

FIX THIS UP YOURSELF AT YOUR HOME

Cut This Out or Hand to Some Afflicted One as It is Excellent

The following prescription for the cure of rheumatism and kidney and bladder troubles has no doubt been filled millions of times, viz.: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. These simple, harmless ingredients can be obtained at any good prescription pharmacy at little cost and are mixed by shaking well in a bottle.

The dose for adults is a teaspoonful after each meal and at bedtime, drinking a full tumberful of water after each dose. It is stated that this prescription is a positive remedy for kidney trouble and lame back, weak bladder and urinary difficulties, especially of the elderly people, and one of the best things to be used in rheumatic afflictions, relieving the aches and pains and reducing swellings.

A well-known authority states that this mixture acts directly upon the eliminative tissues of the kidneys; cleanses these spongelike organs and gives them power to sift and strain the poisonous waste matter and uric acid from the blood which is the cause of rheumatism.

If your back or sides ache and you suspect kidney trouble it would be wise to try this for a few days.
