10 to 70% Advance on Oil Stock, Dec. 15

[illegible]

Another advance on oil leases was announced late last evening. The Uncle Sam Oil Company, working for several months on a large and valuable property in the Kansas field, has brought in a gusher. Engineers of the oil company have been at work on the property for several weeks, and have spared no expense in the development work. The Uncle Sam Company has many leases in the Kansas field, and is one of the most active companies in the field. The Uncle Sam Company has been working with the Oil and Gas Magnates in the Middle West. It was a few days ago that Jesse H. Wagner, president of the Uncle Sam Company, was elected president of the Twenty Million Dollar Oil and Gas Magnates in the Middle West. It was a few days after this that the Uncle Sam Company made a deal with the Twenty Million Dollar Company, by which the Uncle Sam Company became the owner of 15,000 acres of valuable oil and gas leases in the Kansas field. The Twenty Million Dollar Company is one of the most powerful companies in the Middle West. It has a capital of Twelve Hundred Million Dollars.

The Uncle Sam Company is made up of real practical oil men, who have spent the Oil and Gas Magnates in the Middle West. KANSAS CITY, KANSAS

Of course, we except the man who uses smoked glasses to take all the brightness out of life—

And his neighbor who thinks railroad trains and newspapers should stop on Sunday.

These fellows hold up their hands in holy horror at Puck

Other folks, who get some real joy out of life, buy it every Tuesday morning at their nearest newsstand, and go about all the rest of the week with their faces wreathed in smiles.

The user of the fragrant weed calmly pursues the even tenor of his way, secure in the knowledge that his humble pipe has neither incitation nor debasement — but contains [illegible] oil.
