Labor and The Church.

The sermons at the First M. E. church on church and industrial problems are coming in for their share of criticism. The pastor will give the third address next Sunday evening at 8 o'clock. What Has the Church Done for the Laboring Man? Brother Copeland should come.

Do You Suffer From HEADACHE NEURALGIA?

"I have been subject to severe headaches for about seven years. My head would ache so badly at times that I could scarcely stand it. Doctors and headache medicines did no good. Hunt's Lightning Oil gave me almost instant relief. Have not suffered from those dreadful headaches since I found out about your wonderful liniment," writes Mrs. W. T. Dickson, Sherman, Texas.

MAKES PAIN VANISH

The affected part instantly warms and glows under the powerful penetrating effect. You can fairly see and feel it do the work. Simply rub it on and the pain seems to fade away. Inexpensive—25c and 50c a bottle.

MEX MEDIATORS TO MEET IN FALL IN NEW ENGLAND

FIRST SESSION OF JOINT COMMISSION TO CONVENE ON COAST SEPT 6TH

Washington, Aug. 25.—Eliseo Arredondo, Mexican ambassador-designate, announced after a conference with secretary Lansing that the international joint commission would meet on the New England coast during the first week of September. Further discussion with the commissioners will precede acceptance of a definite time and place.

This announcement and the fact that General Pershing transmitted a report saying the general opinion was that "Villa prestige is gone and that he can never again become a serious factor in Mexican affairs" were regarded as the important developments in the international situation today.

Supporting as it does General Pershing's recent recommendation for the withdrawal of the expeditionary force in Mexico, it is believed General Pershing's report makes it certain that the American conference will agree promptly to the suggestions of the Mexican conferees for the early recall of the troops.

Mr. Arredondo called at the department to receive formal notification that the American commissioners had been already and were ready to meet the Mexican members as soon as the time and place could be arranged. Both the embassy and the department were in communication with Mexico City last night in regard to the fixing of a day for beginning the negotiations.

CITY COMMISSION BUILDS DAM WITH LITTLE EXPENSE TO TAXPAYERS

(CONTINUED FROM PAGE ONE.)

P. L. Divine, Matthew Walker, Art Jo... Tom Parr, J. Tom Sap, W. Joe Sap... Mr. and Mrs. S. Dunham, formers and present superintendents of Public Utilities.

all of the Dam's great, one-half foot the water in vertical feet at peak and means and in total. This work was commenced and on using the available force of the department it was not ready to supply the Fire department and the water department and of as fast as possible during the daytime, as the work unfortunately caught not be done at night, the water was more without energy as expense for other days. A few days ago the experiment was finished, the fire department kept pull off, and a force of men of The Leader helped to cover the job. It was found that the old dam across the bed of the Santa Fe canal had been thoroughly cleaned and scraped and upon it a great clamp had been placed. In seven feet there has been made with the dull scraper or commonly in a thousand and emergency, which has gone up to it. The SUPPLY has been arranged to properly handle all of the flood waters which may come down the river.

Today the water is all in the river in the main channel through this old channel. The flood waters will take the last short foot before running the rest of the night. Whether it will run all night is not the old river. Into that it goes first in the dam. "Water will be released for all the engines." "Water will be released, naturally we are not so sure of the old channel and the fashion of the old channel and the fashion of the old channel and the fashion
