INTERESTED IN FAIR

Building Contracts for Oklahoma State Attraction to be Let Next Week—Much Enthusiasm.

Oklahoma City, June 22—Interest in the coming state fair is growing at a rapid pace and everyone is enthusiastic. The directors have had several important meetings to arrange details for the success of the fair. Bids are now asked on the construction of the administration building and on next Wednesday the contract will be let.

The state fair building will be a credit to the state. The main and administration buildings will be in mission style and of the latest architectural art design. The grand stand will be commodious and will excel that at the Dallas fair which is one of the best in the country.

C. G. Jones left this morning for St. Louis to confer with A. A. Allen, vice president of the M. K. &T. railroad in reference to building a track to the fair side. It will be remembered that on a recent visit to this city Mr. Allen visited the grounds where Mr. Jones had promised that the track would be built. The directors hope to get this track built at once in order to facilitate the placing of building material.

Card of Thanks.

We wish, through the columns of The Chieftain, to express the thanks of the Board and citizens of Bentiesville to the citizens of Vinita for their liberal contribution toward the establishment at Bentiesville of an industrial school for colored people. The kindness of the Vinita citizens who donated to this worthy cause will never be forgotten. I spoke at both of the colored churches along the lines of industry among the negro race, and my talks seemed to please the better class. While in Vinita I was a guest of the Rider hotel, which is one of the best and most orderly conducted hotels I have visited in Indian Territory. Other hotel keepers would do well to follow Mr. Riders example. The result would be less trouble and a better class of patronage, and loafers would stop hanging around. Let the better class of colored and white people put the lid on the lazy element of negroes and compel them to go to work.

I am glad to find quite a number of industrious colored people in the city of Vinita, who have their homes and also doing quite a business. The following persons who are in business are: Messrs. Rider, Johnson, Watson, Williams, Cullens and others. We extend special thanks to our worthy Revs. Washington and Roe and their congregations for their liberal contributions to our school. First Baptist church $1; A. M. E. church $2.55. Let each one of us who believe in industry among negroes, contribute something to this worthy institution by sending your donation to the board or handing it to our worthy solicitor. Thanking you in advance for any favors shown, I am for the race.

C. J. CLARK, Bentiesville, I. T.

Music at the Chautauqua.

Lovers of good music are elated over the strong musical numbers that will be on the Chautauqua program. Although greatly disappointed at Mr. Inne's inability to keep his engagement this year, Mr. Bartell has provided an exceptionally strong musical program, with "more to follow." Schildkret's Royal Hungarian orchestra, the Valley Concert company, the Amphion Male Quartet, the Boston Lady Quartet, the Lyrics and other sterling musical attractions, all combined make this feature of the work very popular.

BABY WASTED TO MERE SKELETON

In Torments a Year and a Half with Terrible Sores on Face and Body—Hands Tied to Stop Scratching and Tearing at Flesh—But

CURE BY CUTICURA COMPLETE AND SPEEDY

"My little son, when about a year and a half old began to have sores come out on his face. I had a physician treat him, but the sores grew worse. Then they began to come on his arms, then on other parts of his body, and then one came on his chest, worse than the others. Then I called another physician. Still he grew worse. At the end of about a year and a half of suffering he grew so bad I had to tie his hands in cloths at night to keep him from scratching the sores and tearing the flesh. He got to be a mere skeleton, and was hardly able to walk. My aunt advised me to try Cuticura Soap and Ointment. So great was her faith in it that she gave me a small piece of Cuticura Soap to try and a little Cuticura Ointment. I took it home without any faith, but to please her I tried it, and it seemed to dry up the sores a little. I went to the drug store and got a cake of Cuticura Soap and a box of Cuticura Ointment and followed the directions, and at the end of about two months the sores were all well. He has never had any sores of any kind since. He is now strong and healthy, and I can sincerely say that only for your most wonderful remedies my precious child would have died from those terrible sores. I used only one cake of Soap and about three boxes of Ointment. Mrs. Egbert Sheldon, R. F. D., No. 1, Woodville, Conn., April 22, 1905."

Mollycoddle.

The "mollycoddle" has been defined by Justice Anderson, of the supreme court of the District of Columbia, in an address on success at the commencement exercises of the Bliss Electrical school. Justice Anderson said that there few men on earth who do not desire success.

"But," he continued, "there are some of us who do not wish to earn it or pay its price. These are the mollycoddles. As boys ther shirk at home and at school. As young men ther shirk their part in the world's work, and in mature years settle down into confirmed mollycoddleism."
