—TO LIFT A—

MORTGAGE

The most practical plan to lift a mortgage off your home is by doing it in Installments. While it may be best for some people to borrow on a straight loan, paying the interest semi-annually and the entire principal in five years, it would be better for ninety per cent of those who borrow to have a loan where the interest and a small amount of the principal is paid each month. One who takes the monthly payment plan in the Building and Loan soon has a home he can call his own.

START AND STICK

Building a fortune is like building a house, you must start at the foundation and stick to it until you get it up.

Many of the business men of our city have accumulated their first investment in Building and Loan Stock.

BETTER THAN LIFE INSURANCE

Because you don't have to die to win. Because you protect yourself as well as your family. Because you share in the profits and the money is ready for you when you want it.

The Oklahoma City Building & Loan Association

204-206 Majestic Building. Walnut 2415.

THE OBJECT

of a good Building and Loan Association is to serve the home people in two ways. Its saving plan appeals to the savers because of its excellent rate of interest and its borrowing plan is as fair as it is possible to make it. 800 home people are saving money here, and home people are borrowing it to build homes.

The workman's compansation law doesn't entitle a man to damages for the accident of birth.

So arrange your affairs that when a bill collector call you won't need to invite him to call again.

A Sanitary Wall Finish—

Lincoln Walamo is a lustreless wall paint. Preferable to wall paper because sanitary—no germ-breeding paste. Forms a surface velvety and smooth in appearance as a kalsomine or water color, yet hard as enamel. Easily and quickly cleaned by washing.

Lincoln Walamo

is furnished in a wide variety of delicate tints and rich colors. An ideal finish for walls and ceilings.

Come in and get color samples and suggestions of harmonious color combinations of different rooms.

NO MERCY FOR SPEED FIENDS

Particular Attention Is To Be Paid To Fast Driving Prohibition

PEDESTRIANS ALSO ARE WARNED

Three new phases of the traffic law enforcement were today brought out by Enforcement Mayor Ed Overholser by the statement that not only motorists but pedestrians were to be forced to adhere strictly to the provisions of every traffic and jay ordinances on the city record. Speeders, too, are to be the individual object of attack by the officers according to the mayor. Motorcycle policemen are to be held strictly to traffic regulating instead of the many offices they have held previous to this time. From now on they will patrol the boulevard districts and will enforce to the letter every ordinance. "I want it thoroughly understood that exceeding the speed limit will not be handled like a first offense infraction of the new traffic ordinance, with a $1 fine. The law against speeding is an old one, newly and more thoroughly enforced and every speeder is to be held to the limit of the law. We are absolutely out to stop speeding, and we will do it," said the mayor.

Incorporated in his statement the mayor made explicit the fact that the safety lanes must be used by pedestrians. Any person crossing in the middle of the block will be arrested and liable to a fine. The safety lanes are to be the only means whereby pedestrians may cross the street. "That makes it more fair," said the mayor. "The motorists are being held down for the safety of the pedestrians, and the latter must be held down to help assure their own safety."

The extent of the enforcement has been shown in the police court proceedings during the past few days. Yesterday and today a large number were arrested for infractions, and more will tally on the police complaint book today. Yesterday Jack Beaver, motorcyclist, and the driver of motorcycle No. 389 were arrested by Police Captain W. W. Slayton. These men will appear in police court today or Monday, the first for reckless driving, and the second for exceeding the speed limit. The driver of automobile number 188 is the subject of a complaint for exceeding the speed limit and driving with his muffler open. T. H. Turner is charged with reckless driving on Sixteenth street, he was arrested by Ollie Estes traffic motor policeman. Keene Burwell, the son of Judge B. F. Burwell, was given two fines yesterday. The first of $10 and costs for exceeding the speed limit, and $1 and costs for not having a new city license. Other cases are pending or are to be complained against today.

In the case of young Burwell the mayor said today. "Burwell was undoubtedly exceeding the limit, and I want to tell him as well as other motorists, and especially young motorists, that they must stop fast driving. We have made preparations for handling the case of every speeder. In other words, 'You can't get away with it. So quit now.'"

BUYING POSTAL SAVINGS BONDS

Local Office Reports 481 Depositions With Total Cash of $65,659.00; Many Apply For Government Paper

Four hundred and eighty depositors are registered in the postal savings department of the Oklahoma City postoffice, according to a statement issued by Postmaster Weaver today. Of this number 60 are foreign born, 20 are children under 15 years of age, and 180 are women. Forty one depositors have deposited the maximum amount of $500 allowed by the government. The total amounts of the deposits in the local office now are 65$,659.

An unusual number of the depositors are purchasing bonds with their money, according to Mr. Weaver. The amount of the bonds bought since the opening of the bank is $21,080. Applications for the bonds to be issued July 1 amount to $2,100. The government bonds which may be bought by depositors in postal savings banks are issued twice a year, January 1 and July 1. June 1 is the last day that applications may be received for the July issue. After that date persons wishing to invest in United States bonds must wait until next year.

These bonds bear interest at the rate of two and one-half per cent per annum, payable semi-annually. Postal savings bonds are exempt from all taxes or duties. Bonds can be sold by the holder at par. They are issued in a coupon or registered form, in denominations of $20, $100 and $500.

What has become of the old fashioned editor who used to say "Mesdames" when writing of two or more married women?

Official Reports

FRENCH

PARIS, May 29.—The French war office today gave out this report:

"North of Arras last night a very violent artillery engagement occurred. The enemy bombarded particularly the heights of Lorette. A night gained attack ground for us east of the roadway between Aix Noulette and Souchez. About midnight a German counter attack on our trenches at Ablain St. Nazaire was repulsed.

"In the Argonne near Fontaine Madame, we yesterday took a section of the enemy's trenches."

MAY EXPECT BIG DROP IN POSTAL BUSINESS—HEY?

On account of Italy's entrance into the European war, the parcel post business between the United States and that country has been suspended, according to a bulletin received at the postoffice. No packages addressed to points in Italy will be received, and those which have already been sent will be returned to the senter, and the postage refunded.

LESSON IN PHOTOPLAY

Empress Shows "Hypocrites," Lois Weber's Photoplay, to Private Audience of Oklahoma City People

A private view of the wonderful photo play, "Hypocrites," was given this morning at the Empress before twenty representative men and women of the city. This is the play that was written and produced by Lois Weber and has been the subject of much discussion in all the large cities of the east.

While sustaining some adverse comment, it has nevertheless proven its vital worth and is the vehicle of a powerful lesson that cannot fail to impress the intelligent public. The vague form of truth, naked and unashamed, which appears and disappears throughout the picture, is the beautiful figure of a woman and she holds up the mirror of truth to the politician, the grafter, society, the home and the church, revealing the hypocrite in every phase, and in such a form as to make the whole a most valuable lesson.

KANSAS CITY, May 29.—Flood danger in the immediate vicinity of Kansas City is past according to an announcement today by the local United States weather observer, although the Missouri and Kansas rivers rose slowly during the night.

Little rain fell in the watersheds of the Missouri and Kansas in the last 24 hours and early today the larger tributary streams of the rivers were reported stationary or falling.

The most serious situation reported today was at Patisburg, Mo., where the Grand river has flooded the entire town and where a shortage of food is reported.

GROCERS ARE TAKEN TO TASK

Association Points Out That The Getting Of New Industries Is Just To Support Them

STRONG LETTER IS SENT OUT

Oklahoma City people shout for factories, and when they get them they won't patronize them, according to a letter being sent to the local grocers and marketmen by the Home Products and Manufacturer's association. The letter makes a strong plea for local business, and has been sent to 200 buyers in an effort to better the condition of local market trade. It reads as follows:

"Oklahoma City groceries and markets are dependent solely upon local trade. The extent of local trade depends upon a prosperous city population. City prosperity is impossible without city productive enterprise. When we refuse to patronize local products we are throttling our true source of trade. We are committing commercial suicide. Careful analysis of your buying problem must convince you that "Home Patronage of Home Products" will actually work for economy and better profits.

"Food products manufactured in Oklahoma City or assembled for distribution under local brand and guarantee—are notably inconspicuous in some of our stores. Indeed, in some they are entirely or nearly crowded out by out of state competition, which seems willing to go the limit to kill Oklahoma manufacturing enterprise. Some of our local food manufacturing concerns are running short time and short handed because of this condition.

"This fact is provoking much unfavorable comment among alert and far seeing business men who are keenly alive to the interests of our city. Men who take a broad view and look beyond petty inducements—often held out in the guise of profits—realize that such things are deceptive and that our city will not develop as the state commercial center if the "Home Patronage of Home Products" principle continues to be neglected.

"Local producing concerns are entitled to the local business as a basis on which to stand and reach out into our trade territory. That is the business that makes us really a city. To any who may not have given this matter serious consideration we appeal for a change of method, looking to an improved condition of our city wage-earning population, on which we all depend as the real basis for material prosperity."

Tonight Is The Night!

STUDENT UPHELD

EAST ST. LOUIS, May 29.—Abe Radman, son of a naturalized Russian and a high school student recently refused to take the affirmative in a high school debate on the subject:

"Resolved, that Germany was justified in sinking the Lusitania," asserting that it would be a violation of President Wilson's neutrality policy. The principal forbade him to attend classes until he decided to take part in the debate. The elder Radman took the matter up with the school board and the president of the board today ordered Radman's immediate reinstatement.

Physician (looking into his anteroom where a number of patients were waiting)—Who has been waiting longest?

Tailor (who has called to present a bill)—I have, doctor. I delivered the clothes to you three years ago.

ITALIAN WAR CREATES DIFFICULT YFOR HOLY SEE

ROME, May 29.—Discussing the vexed question of the departure from Rome of representatives of belligerent countries accredited to the Holy See, the Osservatore Romano, the vatican organ, says:

"Their departure from Rome must be attributed merely to a new situation created by the participation of Italy in the war. The position of the Holy See is rendered most difficult as it cannot confer directly with representatives of the beilligerents, thus restricting the internationality so necessary for the pope to carry out his mission to Christian society."

ECHOES OF THE STREETS

FREE TO EVERY WOMAN WHO READS THE TIMES

The great rush for the "INNOVATION EMBROIDERY OUTFIT," now being distributed by this newspaper to the women and girls of this city, forcibly demonstrates that we are supplying a real need.

There has never before been an offer like this. Everything you can possibly want in the embroidery line is here—hundreds of designs in great variety, initials of every style, complete up-to-date illustrated instruction folder, hoops, bodkin, stiletto and assorted needles. With this outfit you are ready to start at once.

There are outline letters for young children—dainty things for girls to give their sweethearts, and lots of household designs for mother.

"GOING LIKE HOT CAKES"

MAIL ORDERS

This outfit sent anywhere postpaid for 75c.

The expense amount necessary to secure it would barely cover the usual cost of the working outfit, minus the hundreds of patterns which are worth at least 10 cents each. You need not be an expert mathematician to understand how great is this saving to you.

By a special process of manufacture, each pattern can be reproduced from 6 to 15 times. The package will last a lifetime—the variety of patterns and combinations is practically unlimited.

400 Embroidery Patterns, covering every possible use.

For 68c the usual cost of about 6 patterns.

We also give you ABSOLUTELY

FREE

One set embroidery hoops, package assorted needles, bone bodkin and stiletto, with illustrated instruction folder describing all the latest embroidery stitches.
