## Pennant Contenders Hold Up; Many Desperate Battles Rage

### Red Sox Take Two and Phillies Win 13 Inning Game While Their Pursuers Succeed in Warding Off Defeat.

NATIONAL LEAGUE

Standing of Teams

| | Won. | Lost. | Pct. |
|---|---|---|---|
| Philadelphia | 75 | 66 | .532 |
| Brooklyn | 73 | 65 | .529 |
| Boston | 71 | 65 | .522 |
| St. Louis | 68 | 65 | .512 |
| Chicago | 65 | 68 | .489 |
| Cincinnati | 64 | 70 | .478 |
| Pittsburgh | 61 | 70 | .465 |
| New York | 60 | 74 | .448 |

**Phillies Nose Out**

PITTSBURGH, Sept. 14.—After failing to Christian Bresnahan, Philadelphia got over 13 runs and defeated Pittsburgh Monday 4 to 3. In the thirteenth inning Whitted singled after two men had been retired and stole second going to third on Murphy's wild throw. Schulte was passed and he also stole second after which Paul Carter drove both men with a single to center. Score: R. H. E.

Philadelphia 000 000 000 000 0 4 14 0
Pittsburgh 000 100 100 000 0 3 12 4

Batteries—Alexander and Burns; Cooper and Gibson.

**Giants Lose Again**

CINCINNATI, Sept. 14.—Cincinnati won an extra inning game Monday from New York, 4 to 3. Tearcott got good hits for seven innings. The Reds tying Hankins homers with the bases loaded and scored three runs off Tom Sheehan. R. H. E.

New York 000 000 100 0 1 5 1
Cincinnati 000 000 010 0 3 12 1

Batteries—Tearcott, Benton and Wilson; Hankins, Tyler, Schneider and Wilson.

**Robins Win Easily**

BROOKLYN, Sept. 14.—Sallee was driven from the box after visiting Brooklyn in the third inning and Brooklyn won from St. Louis. Score: R. H. E.

St. Louis 000 100 000—1 7 0
Brooklyn 401 000 00x—5 7 0

Batteries—Sallee and Snyder; Coombs and Miller, Ragon and Dalton.

**Cubs Give Game Away**

CHICAGO, Sept. 14.—Sallee itself got out of a jamboree in the Sixth game with Chicago Monday and two outs in the seventh giving cost Chicago Monday's game with Boston. Elgin and Hendrix were the two men who scored when the ball rolled to the grass. Kaiser also contributed a one-hand great of a Texas leaguer in the seventh inning with the bases full and saved the game for Boston. The game was a pitchers' battle. Score: R. H. E.

Boston 001 200 000—3 4 1
Chicago 000 200 200—4 5 2

Batteries—Barnes, Hughes and Gowdy; Packer, Adams, Zabel and Archer.

FEDERAL LEAGUE

| Buffalo | 69 | 65 | .514 |
| Brooklyn | 67 | 70 | .489 |
| Baltimore | 43 | 90 | .323 |

**Brooklyn Stopped**

BROOKLYN, Sept. 14.—The Pittsburgh Federals broke Brooklyn's winning streak Monday and got partial revenge for the Brooklyn doubleheader victory last Saturday by pounding four local twirlers for thirteen hits and taking the game. Score:

Pittsburgh 001 001 120—5 13 0
Brooklyn 200 000 201—5 12 1

Batteries—Cumbera, Nelson and Berry; Marion, Frank Smith, Weltz, Finneran and Land, Simon.

**Sheifords Defeated**

BUFFALO, Sept. 14.—Four errors by pitchers and fifteen batsmen caused disaster to the mosquitos in the game with Newark and the visitors won. Score: R. H. E.

Newark 000 320 001—6 12 1
Buffalo 011 000 010—3 4 4

Batteries—Smallwood and Rariden; Wilson, Brown, Wilson, Herbert and Hartley.

| Cleveland | 70 | 79 | .470 |
| Philadelphia | 55 | 93 | .372 |

**Red Sox Win Two**

BOSTON, Sept. 14.—The league leading Red Sox improved their position by winning both games of a doubleheader from Chicago Monday. Bush was favored by effective pitching, both Leonard and Shore holding the Chicagoans to three hits in each game.

In the first contest Scott, who is usually successful against Boston, was hit at critical moments. Gardner's triple and home run scored a run for the Red Sox in the fourth and Barry's sensational catch of Cartigan's foreout on which the former was retired Weaver's error on Leonard's rap and Hoblitzel's home run after the winning run in the seventh. Chicago got two of its three hits in the eighth inning when the only run was scored.

The second game was stopped after eight innings by darkness. Faber lasted only somewhat of an inning in which Boston scored three runs. Chicago's best run came in the first inning, the result of two hits and Thomas error on Speaker's throw to the plate.

First game: R. H. E.

Chicago 000 010 000—1 3 1
Boston 000 100 10x—2 6 0

Batteries—Scott, Faber and Schalk; Leonard and Cartigan.

Second game: R. H. E.

Chicago 100 000 00—1 3 4
Boston 000 000 01—4 8 2

Batteries—Wolfgang, Faber, Schalk and Mayer; Shore and Thomas.

**Busher Beats Athletics**

PHILADELPHIA, Sept. 14.—Phillips formerly of Wilkesbarre, Pa., was very effective against Philadelphia Monday and St. Louis won 8 to 2. Pratt made two doubles and a home run in four times at bat. Score:

St. Louis 102 300 011—8 12 1
Philadelphia 001 001 000—2 7 1

Batteries—Phillips and Lewis, Sherman, Foster and McAvoy.

**Washington Wins Again**

WASHINGTON, Sept. 14.—Three runs scored in the first inning were sufficient for Washington to defeat Cleveland Monday, 3 to 2. The visitors scored in the fourth and filled the bases in the ninth with only one out but Gallia ended the rally. Score: R. H. E.

Cleveland 000 100 001—2
Washington 200 000 00x—3

Batteries—Garrett, Jones, Carter and O'Neill; Boehling, Gallia and Henry.

**Yanks Whitewashed**

NEW YORK, Sept. 14.—Pitcher James of Detroit held New York to two scattered hits and the Yankees were shut out, 2 to 0. It was the sixth straight defeat suffered by the New York team. Score: R. H. E.

Detroit 011 000 000—2 9 0
New York 000 000 000—0 2 0

Batteries—James and Stanage; Ferguson and Nunamaker.

## TINKER IS GAME

### Refuses to Submit to Operation While Whales Have Fighting Chance for Gilmore Pennant

CHICAGO, Sept. 14.—Joseph B. Tinker, manager of the Chicago Federals, was a casualty in an operation which he underwent for the Federal pennant, it developed, he told physicians anxious to know. Physicians had diagnosed a stomachic operation.

Tinker believes the Chicago club has an outside chance for the flag with only two games separating his club and Pittsburgh, the leaders. He says he sees that his absence from the game during the offensive finish might cost Chicago the flag.

## WANTS RELEASE

### Asks Barney Dreyfus for Unconditional Release to Show "Honorable Discharge," After 24 Years' Service

PITTSBURGH, Sept. 14.—Fred Clarke, who recently resigned as manager of the Pittsburgh National league club after a uniform service of 16 years, today asked Barney Dreyfus, president of the club, for his unconditional release. Clarke explained that he wanted the document to show that he had been honorably discharged after 24 years of playing.

Mr. Dreyfus responded readily and word was sent to the other clubs asking that they release Clarke. Ten days must elapse before the release can be issued.

**COLLEGE FINALS ON**

GREENWICH, Conn., Sept. 14.—The individual championship of the intercollegiate golf association, pits Jesse Sweetser, Grant A. Cornish of Princeton and Francis D. Bleecker of Yale.

**GAMES TODAY**

**National**

Brooklyn at St. Louis, cloudy, 2:30.
Philadelphia at Pittsburgh, clear, 2:30.
New York at Cincinnati, clear, 3.
Boston at Chicago, clear, 2.

**American**

St. Louis at Philadelphia, cloudy, 2:30.
Cleveland at Washington, clear, 2:30.
Detroit at New York, clear, 2:30.
Chicago at Boston, cloudy, 2:30.

**Federal**

Newark at St. Louis, cloudy, 2:15.
Baltimore at Chicago, clear, 3 p. m.
No other games scheduled.

**WILLIAMS MEETS WATTERS**

PHILADELPHIA, Sept. 14.—R. Norris Williams of Harvard meets Watters of New Orleans in the opening match of the 15th annual fourball tennis championship of the United States today on the courts of the Merion Cricket club of Haverford.

## MORRIS-ROSS MATCH

### Tulsa Promoters Are Trying to Get Big Engineer Into Ring With Texas Tate's Conqueror

TULSA, Sept. 14.—Tony Ross of Newcastle, Pa., and Carl Morris are to be matched for a 15 round fight in Tulsa soon, according to information today. Ross won from Texas Tate on a foul in a battle on Labor day and is staying in Tulsa for the purpose of closing up a match with the big engineer. A fight between these two men will, it is believed, prove the best ring encounter ever staged in Oklahoma.

**HUNDRYX TO YANKS**

NEW ORLEANS, Sept. 14.—Outfield Tim Hendrix, leading batsman and extra base hitter of the Southern association, and throughout the season one of the most valuable members of the club, leaves here tonight to report to the New York Americans it was announced today.

**O. H. TO SHAWNEE**

The football eleven of the Oklahoma City high school has arranged a game with the Shawnee high school team on Thanksgiving day at Shawnee.

## SOME TRAINING THIS

### Indians at Carlisle Charge Enormous Padded Machine in Order to Develop Muscles and Tough'n Up

For hardening his men and putting them in condition for strenuous work, the coach of the Carlisle football team has devised a workout apparatus which not only serves to strengthen the shoulder, back and thigh muscles of a player, but also tends to develop and drill him for the positions.

It is made of heavy timbers, has a sledlike base on the front side is provided with seven heavily padded, upright planks. The weight of the device amounts to a little more than 1,000 pounds, or approximately the equivalent of that of seven average players. When the apparatus is in use the padded planks serve as opponents for the linemen positioned before them. A picture of the device appears in Popular Mechanics.

**Dr. Chas. P. Vickers,**

Cures PILES without surgery, fistula and fissure by non-confinement methods. No detention from business. Pay when satisfied. Write for 250 page booklet. Located seven years in Oklahoma City.

Commerce Bldg. U.S.N. Broadway

# 33% Advance On This Oil Stock Monday, September 20.

To Investors:

Good propositions do not wait long. For a short time you have been offered a part of this stock for development purposes. Some knowers may say: "If it is such a good thing, why do not home people take it all?" But it takes millions of dollars to build up a great national competitor of the oil monopoly. A crisis was brought about a few months ago by the monopoly to aid its henchmen to practically grab the oil in the high grade clothing oil fields. Prices of the refined products were lowered around the local refineries and everything possible done to drive out of the oil business everybody but the trust. The state and national officials that would bring water mile under state and national anti-trust laws are either afraid of the political power of the trust or too busy at something else, and so the trust has a clear field. Meanwhile the larger part of the great Osage Nation oil and gas fields will soon be on the auction block. During this crisis high grade oil was put down as low as 39 cents per barrel.

Necessity is the mother of invention. When the oil monopoly started a war on the Kansas producers a few years ago, a group of pioneer producers organized The Uncle Sam Oil Company to protect their properties and to build in the Middle West a real independent, producing, refining and marketing company, a competitor of the trust to be worthy of the name.

This Company at times has been made to travel a rocky road, but the Kansas pioneers are of the staying kind and hardships and persecution caused our leaders to arrive all the more determinedly.

The Uncle Sam Oil Company built the first three refineries in Kansas and Oklahoma. Built the first independent pipe line to the Middle West. Our pipe line is now completed and in operation for 151 miles. It connects two refineries in two states and 817 of our oil wells, and the larger percentage of our oil lands and leases.

The Uncle Sam Oil Company built and has maintained the first marketing stations direct to the people over Missouri, Oklahoma and Kansas. It entered this field as a pioneer—the first to defy the trust in this sixth district in forty years.

The competition The Uncle Sam Oil Company pioneered and has bravely maintained has caused the people of the Middle West to secure a better grade of refined oils than formerly was furnished, and also at a reduction in price of several million dollars.

The trust has secretly placed its henchmen into state and federal offices and then struck at us with all its venom, lifted and abetted by officials that should have been our protectors. Big monopoly newspapers, investment journals and up-to-date magazines that are kept by the criminal rich to mislead the public by false editorials and news comment in favor of the schemes of the Wall Street wolves have all at times opened their concealed batteries. But Right is a mighty warrior and through it all The Uncle Sam Oil Company has continually increased its assets.

It has thousands of acres of oil and gas leases properly located in the big oil counties in Oklahoma and over fifteen hundred acres of deeded lands.

The greatest high grade oil field in the world is in Range 7 in Osage, Pawnee and Creek counties in Oklahoma. In the same district in this Range 7 our Company controls two hundred acres of deeded land and has over three thousand acres of oil and gas leases. We have locations now where drills should be started in about fifty different places.

The Company is pioneered. We just won a recent great victory by decision from the Supreme Court of the United States exempting our pipe line.

This victory makes The Uncle Sam Oil Company pipe line the only exempted pipe line from common carrier liabilities in the United States, and has caused the trust to abandon its legal attacks on the big national business of our Company.

Its only weapon now is to try to interfere with the Company raising sufficient capital to become a big success by intimidation in the trust press and by its wrecking new conspiracies and scandal mongers. The trust wants to grab the Osage Nation oil and gas fields of one million, five hundred thousand acres, and then double the price of domestic gas to 250,000 homes in Kansas, Missouri and Oklahoma.

The Uncle Sam Oil Company has an Osage lease through the owner of the Osage oil and gas reserve of 225,000 acres. We proved in Federal Court that this lease was honestly secured. But it was turned down by a high government official who has since appeared in several cases for the trust.

Three high officials were branded by our Company as oil trust tools betraying their public trust and later quit the Interior Department. These three were among the conspirators that fought this lease to our Company and have since gone into the open pay of the monopoly gang.

We have over sixteen thousand stockholders, representing every congressional district under the Stars and Stripes. We want fourteen thousand more red-blooded Americans to remit from $12 to $600 each and join our independent army so we can soon start a national publicity campaign that will protect our great Osage lease from the fixers for the trust.

The Uncle Sam Oil Company demands that the Secretary of the Interior or Congress shall write to the validation of our 225,000 acre Osage lease, and in all other Indian leases, a clause authorizing the Utility Commissions of the different states where the product is sold, the right to fix the price to the people on all oil and oil products and gas from all federal government controlled leases.

Every honest citizen knows this is common sense and right. But it would stop a trust grab. It would interfere with a part of the loot that the trust secures and divides with certain fake progressive newspapers and up-to-date magazines that "squawk" about the rights of the "dear people" whom they are being paid to help deceive.

We will furnish names of stocks in high office and the newspaper and magazine line of the oil and gas monopoly in this country when the big fight starts for the final protection of our great Osage leases.

Between us, we can succeed with a little good luck we can pay big dividends from our present properties when developed while we are securing the validation of our Osage leases.

**FORTIFIED IN ADVANCE.**

The oil business is a real commercial war. All days in the year. The clothing oil fields are a world wonder—the oil is very rich in gasoline. As quick as developed the black flag was raised by the trust. When the bottom was reached trust oil buyers rushed in. Certain federal influences caused metric lines to be removed from certain Indian lands and they quickly went to the trust. The trust now has nearly all the so-called independent refineries shut out of the Cushing district. Now it is advancing crude prices. Advances totaling about ninety per cent (90%) have occurred during the past few weeks. The so-called independent refineries must rely on the low grade crude.

So now up goes crude prices and that forces certain refineries not owning Cushing crude to operate on low grade crude at a loss. We saw the danger in time and we doubled our new capital and fortified our Company by increasing our acreage in the high grade oil district to nearly four thousand acres, the last big land and leases referred to herein. The higher crude goes the better it is for our stockholders. This company is wide awake. Do not wait until we have a ten thousand-barrel production, making one third gasoline, and then expect this stock at even twenty times this present offer.

**NOW REFINING ABOUT TWO THOUSAND BARRELS PER DAY.**

We have a well organized sales department that can easily market ten thousand barrels per day. We have a drilling credit in the oil fields of over one hundred thousand dollars—with responsible concerns that we have been doing business with for years.

We have about decided to start the balance of ten new wells as we are assured from stockholders over $75,000 during the next ninety days. This Company is doing things and you will not always have the opportunity to secure this stock. A few big wells and the price would advance twenty times.

**WITHIN 5,000 FEET OF A 6,000-BARREL WELL.**

During the past few weeks the Company has secured by warranty deed a two-thirds interest in 140 acres in nearly the center of the township that contains nearly all of the great Cushing gushers. At a cost of sixteen thousand dollars it has secured another lease cornering with this deeded land.

**MAY SOON HAVE A 10,000-BARREL PRODUCTION.**

We have what indicates now thirty (30) deep sand locations on these two properties in the Cushing District. Some 5,000 to 6,000 barrel wells may be secured on some of this property. There are five producing oil sands in this district. The oil is rich in gasoline.

We see make a profit operating the small wells, but our chances for gushers will be recognized by anyone who will visit this property. There are about twenty wells within a short distance. A 6,000-barrel well was drilled a few weeks ago in the section that corners the section that contains our new property.

To make money you must invest where money is being made. The Cushing field has produced nearly one hundred million barrels of oil. We could have purchased this district a few years ago at from $1.00 to $10.00 per acre.

Oklahoma and parts of Texas is the greatest oil field in America. Millions have already been made and millions will be made. The Uncle Sam Oil Company is established. It has demonstrated its ability to protect itself from the trickery of the trust. It is controlled by a board of twenty one directors. All are large stockholders. If you wish to combine profit with principle and help rout the Oil Trust and its Ludlow henchmen in the Middle West, join with a Real People's company that is gaining every day.

The opportunities for the moderate investor are very few and are becoming fewer every day. The conspiracy of the powerful rich is to monopolize all the mineral resources of the United States. Keep the people divided and force their money into the trust-controlled financial institutions. Then pay the people on such savings from 2 per cent, while the big bunch will use the savings from these rich resources and make it 10 per cent. We offer the small man a chance to be one of the promoters and make 50 to 10 per cent. We believe it is better to try and do something worth while than to consent to a small salary and see the big bunch grab all the big profits.

With our already big property and national organization we can beat the trust rich at their own game. For alone could do but little, but multiplied with tens of thousands of other stockholders joining in a formidable army that will succeed and pay a big profit and be a blessing to the public in the Nation. For as it has been and is now in Missouri, Oklahoma and Kansas.

We do not wish to encourage anyone to over invest. There are probably going figuring on this stock. This issue will reach about ten million readers.

**WANT THIRTY THOUSAND STOCKHOLDERS BY THE TIME CONGRESS CONVENES**

All parties, all sects and creeds and all nationalities are represented among the stockholders of The Uncle Sam Oil Company in the great battle to address to rout the oil and Gas Trust in the Middle West. The original charter papers were signed by a Pugilistic Rebel Democrat who voted for President Wilson in the last campaign and is still firm in the belief that the Democratic leaders in Washington will not recognize justice and validate our great Osage lease regardless of the impudence of the invisible government that lives in grate alone by being driven out of Washington while the paid henchmen rattling the conspiracy against the Osage leases that belongs to our sixteen thousand American stockholders.

The trust can stand abuse but it does not want a real People's company to secure a half million acre lease that can support a great pipe line to St. Paul and Chicago with refineries along the route over Kansas, Nebraska, Iowa, Missouri, Minnesota, Wisconsin and Illinois.

Our great company backed by thousands of wall to to stockholders supported by the good will of the general public can easily get Uncle Sam the Osage lease as soon as it is validated, and soon develop a big production.

We have already completed 151 miles of pipe line and three refineries in the face of the most desperate persecution that the trust power of political money could get upon us.

When we started the "Paid Press" of the trust said: "The Uncle Sam Oil Company is and never will build a mile of pipe line or refine a gallon of oil." These same fake journals now ridicule our progressive newspapers and fake progressive newspapers all along the line and try to help rob the public while greased by the same old graft.

Take a look at our pending Osage lease and you will see why the trust is resorting to desperate methods to shut out stockholders of the great Osage domain—recognized as containing a billion dollars worth of oil and gas.

But the American people will be aroused. We will have honest stockholders in the New Congress instead of these stockholders and the Congressmen will organize by congressional district. Leading citizens who are stockholders that do not propose to let the Ludlow murder gang rob their children to establish more "charitable" institutions with only a part of the stolen loot, will run for congress in at least fifty districts. Washington headquarters will be opened and the congressmen and senators who are trust henchmen will be branded and high government officials in the secret control of this convicted monopoly will be thoroughly exposed.

If you are in favor of stopping the sale of government lands instead of just listening to righteous oratory in fake campaign speeches talk about it—make yourself a useful member of this company at once.

The other signers of the original corporation papers of this company is the son of an Ohio Union veteran, a Republican progressive who voted for McKinley and Roosevelt, fought for President Taft in the last election and is still for him.

To why this big contest against the trust? For the trust we will need the combined support of the honest rank and file that followed Wilson, Roosevelt and Taft. Trust Oil Trust gang can pull many strings but the great wrong must meet its Waterloo.

**NEW OIL WELLS MAY OPEN UP POOLS THAT WILL POUR OUT MILLIONS**

This company has tried and true men in charge of the different refineries and oil producing properties and we can drill these new wells at an economical basis. We have at least fifty new hundred locations in the high grade oil district and we should put ten to fifteen drills at work at once.

**DRILLS GO DEEPER EACH HOUR.**

During the past ten years we have drilled from three to five different sands in each well.

**We have the pipe lines. The refineries. Also tank cars and marketing stations.** We already have 120 producing wells and room on valuable territory for 200 more. The influence you make for this stock will help drill the new wells and complete our big property for dividends. There is already big support back of The Uncle Sam Oil Company and this support is growing in power each day. If you have at any time thought of investing in Kansas and Oklahoma. We know reliable contractors and we desire to operate from ten to fifteen drills on our properties outside of the Osage Nation and build up ten thousand barrel production so we can move 200 fifty drills onto our Osage leases as quick as it is validated by the Secretary of the Interior or Congress.

At the hour we are about five hundred feet deep in fifty new wells on our new Cushing properties. By September 20 we should have some good wells at these locations in the rich Layton sand. This property is close to our exempted pipe line and from 75 to 200-barrel producers in the rich Layton sand will now be good money makers. This oil is worth 12 cents per barrel above average crude—or a dollar per barrel right now, and will soon go higher.

**COMPANY HAS BIG SUPPORT.**

The Uncle Sam Oil Company is able to do big things and when you secure a part of this stock you will own a stock with a real future. Suppose all four new wells develop big? The stock would naturally go into big demand at a high price. It would be offered at no less even if all were failures, of which there is hardly a possible danger, as all four of the new locations are practically on proven ground, with chances good for oil in other investments, had the hour of opportunity and make it all back and a profit besides by securing a big block of this stock before it is all gone and greatly advanced.

Now the big fight has started for the validation of our great Osage lease and for the construction of a great pipe line through the heart of the richest district in the United States. The only way to transport oil is by pipe lines. By following the route as mapped herein we will reach direct a rich territory at a profit of from 50 to 75 cents per barrel, free from trust interference. With the great Osage lease and our other oil properties to back it, it will become a regular mint for the stockholders and an enormous saving to the public. The very foundation of this great effort rests on the Osage lease. The very heart of the Osage lease—prominent in its strength is the "good luck omen" of The Uncle Sam Oil Company. The trust is rapidly being exposed. Government reports published during the past few days further condemn this Oil and Gas crowd. Soon the political bosses will see the handwriting on the wall and be glad to be free and then assume to aid this righteous cause. As the crusade started in Kansas against the black slave power in abolition days—so this movement for right has also started in Kansas against the Oil and Gas Trust, the black slave power of the present age.

But the way to regulate is to regulate. Join this company today. Get full particulars including a copy of this Osage lease. Then go to your congressman and senator and have a great heart talk. This great battle can be won. Put your strength on the side of right. If you are a churchman do not be a hypocrite, but put your prayers into practical action and do it now.

**WILL RAISE THREE MILLION DOLLARS OF NEW CAPITAL.**

The trust tried to sell this company seven years ago—and it is easy now to see why they wanted The Uncle Sam Oil Company killed. Stop and consider a minute and you will see how practical our battle plans are and why they are succeeding. The truth is The Uncle Sam Oil Company is fighting a fight that will give the people a real square deal against the very Moloch of all monopolies. The dissolution suit against the trust only cut up the big snake into joints that still contain all the poison, but now crawl separately in public but remains united in secret.

This Kansas idea will cause real regulation that every good fellow, Progressive, Democrat or Republican really wants. The federal government can write to the residents of the great states as suggested, herein, as available to authorize the utility commission in the respective states in the hope of the oil and gas producers and the domestic and manufacturing gas to the people.

Then we can build the great pipe line through the Heart of America, as mapped herein—with refineries in Kansas, Nebraska, Iowa, Minnesota, Missouri, Oklahoma, Illinois and Michigan. It does not have to be done in a day. When the Osage lease is validated we will build a large refinery at either St. Paul or Minneapolis. We can and put fifty drills into our Osage lease as quick as validated. With a big refinery on one end and big production with ten thousand barrels per to drill on the other end—it will be an easy matter to sell the balance of this stock at a high price and put in the pipe line. Even $100,000 will start a big refinery at St. Paul or Minneapolis, where we can get the best inflation and we can easily start fifty drills on this great lease. Our stockholders can easily pay up a million dollars as quick as the lease is validated.

Let the federal government quit fighting this practical more—let congressmen and senators do in Washington as they talk in home folks—and quit secretly aiding the oil and gas Trust—and demand simple justice—and this independent oil company built up on the free soil of Kansas, backed by the same spirit that made Kansas a free state—will put the rulers under big bonds with factors to the American people.

Combine patriotism with financial gain and get a big block of this stock today and help build The Uncle Sam Oil Company, which is a great national factor for and supreme to the oil world in the heart of America and insure a safe future so that your gasoline and other oils will be delivered in the future at prices that alone says is fair. Stop the gambling in prices of oil—this great necessity that must be used in every home and fireside. Place the fixing of prices in the power of the people instead of the Czar of Wall street, who resorts to the murder of women and children to win his well and. Write today for full particulars and help in this national crusade for real justice for both producer and consumer.

**A CONDITIONAL DIVIDEND AT ONCE.**

The present stockholders may soon receive all the stock left. 225,000.00 shares are now owned by over 16,000 stockholders; 125,000.00 are still to be issued. There is a provision in the charter that protects the stockholders from oil trust control. Be practical. America is the opportunity of the world for the small investor. The Oklahoma oil fields contain the top money making opportunities of America at the present time.

With sufficient capital we can secure properties now that in six months could not be bought. Time is money in these rich oil fields. We are driving ahead. Wish we start right to the drills. Want to secure other properties before they advance 100 times. You will secure an advantage back with your stock, which is a conditional dividend. A blind man should see that this company is a winner. If you hesitate too long the stock will be gone.

**THIRTY-THREE PER CENT ADVANCE MONDAY, SEPTEMBER 20.**

The advertised price of this stock will be advanced thirty-three per cent Monday, September 20. Your remittance must start not later than that date to secure the stock before the advance.

Either send your remittance at once or write quick for further particulars. Remember thousands are figuring on this stock. There will be one great rich opponent of the Oil and Gas Monopoly, and that will be The Uncle Sam Oil Company.

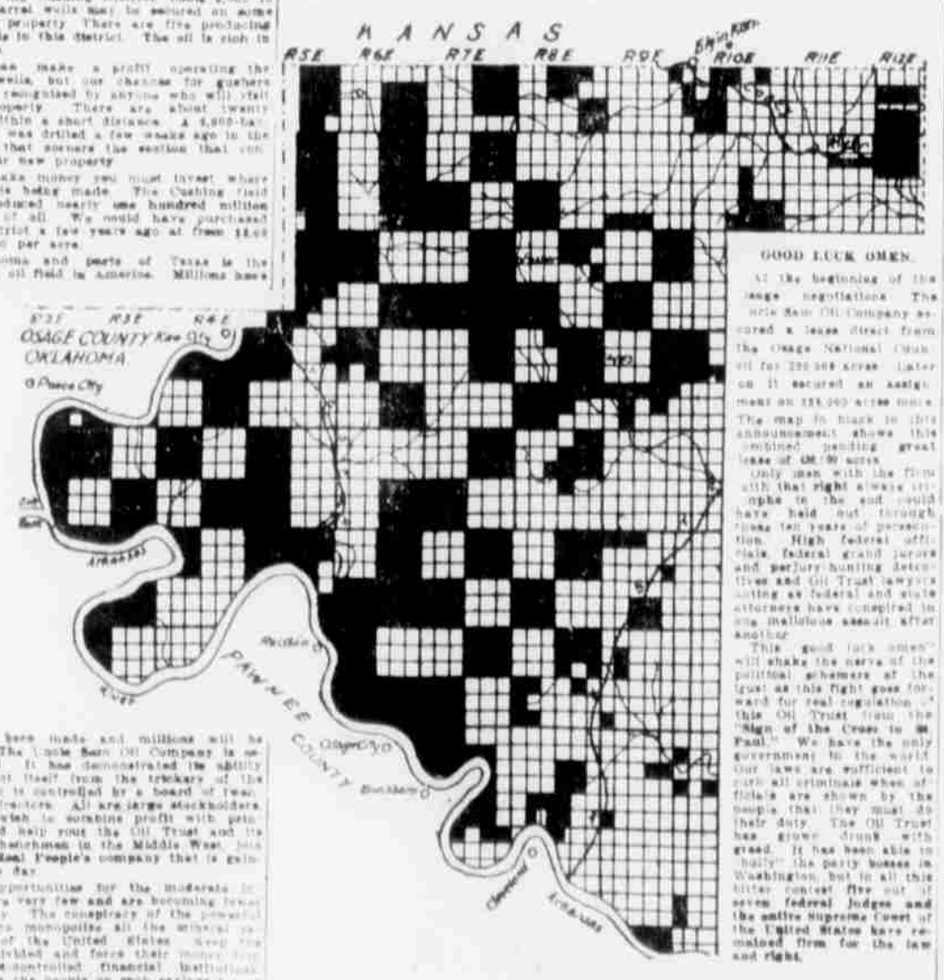
The company is organized and conducted accordingly to LAW. Stockholders living right by our properties are the heavy investors. Several of the directors have invested in cash from $1,000.00 to $15,000.00, and some from $25,000.00 to $50,000.00.

This proposition is an open book. We take the public into our confidence. Do not waste your effort on some little concern. Combine with an army of investors that are building up a broad national bank. Our chances are good to develop a 10,000 barrel production in the immediate future and then save our great Osage lease. Such combined results would force this stock up to a half dollar per share. An advance to five cents per share will make big money for each stockholder. If you have the good judgment to distinguish a winner from a loser, the genuine from a fake and right from wrong, you will not delay but secure a good block of this stock at once. Advertising space comes high, or we would furnish so much proof that all this stock would be accepted by return mail and will gladly send you further particulars or forward such particulars with your order for stock at this time.

The stock is non-assessable, and the cash payment together with your agreement to remain loyal to the company is accepted by the Company as full payment. If the Company approves you as a stockholder. It wants none but loyal, patriotic, liberty-loving citizens as its stockholders and therefore reserves the right to approve or reject any subscription to its stock. If you should not be approved your money will be promptly returned to you.

For Reference—You can write to either of the big Mercantile Agencies at Kansas City.

Special offer is as follows:



**GOOD LUCK OMEN.**

At the beginning of the Osage negotiations The Uncle Sam Oil Company secured a lease direct from the Osage National Council for 230,000 acres. Later on it secured an assignment on 125,000 acres more. The map in black in this announcement shows this combined pending great lease of 355,000 acres.

Only men with the firm with that right always triumphs in the end could have held out through these ten years of persecution. High federal officials, federal grand jurors and perjury-hunting detectives and Oil Trust lawyers acting as federal and state attorneys have conspired in one malicious assault after another.

This good luck omen will shake the nerve of the political schemers of the trust as this fight goes forward for real regulation of this Oil Trust from the "Sign of the Cross to St. Paul." We have the only government in the world. Our laws are sufficient to curb all criminals when officials are shown by the people that they must do their duty. The Oil Trust has grown drunk with greed. It has been able to "hold" the party bosses in Washington, but in all this bitter contest five out of seven federal judges and the entire Supreme Court of the United States have remained firm for the law and right.

**JUST COMPLETED AN IMPORTANT PRODUCER.**

A few days ago The Uncle Sam Oil Company drilled a new well nearly in the center of one of its big leases in Pawnee County. The oil is high grade. Around this new well we have practically proven locations for fifty deep sand wells. We are starting two more wells at once and will start two more as quick as new capital will justify. We have developed the same producing oil sands that produce from 1,000 to 6,000 barrel oil wells in the rich Boston oil pool across the Arkansas river, only about three miles from a part of our big lease in this new field. It will be an everyday to see the new wells we are now at work on start at from 200 to 500 barrels per day, and some real gushers may be developed at any of these new locations.

**COMPANY HAS BIG SUPPORT.**

The Uncle Sam Oil Company is able to do big things and when you secure a part of this stock you will own a stock with a real future. Suppose all four new wells develop big? The stock would naturally go into big demand at a high price. It would be offered at no less even if all were failures, of which there is hardly a possible danger, as all four of the new locations are practically on proven ground, with chances good for oil in
