WEDNESDAY'S RECEIPTS

CATTLE

Only seven packers attended in the local cattle division today, including a couple of bulls of Texas cows of a fairly good killing quality, packers were given a supply of good killing stuff. It was the best run so far this week. Steady quality was among a trifle better in tendency, the thrift shown buyers of good feedings selling at $7.70, the day's top. Bulls of the Texas kind sold on par with a week ago, steady prices at New York's Dressed Meat Company and decline was the general result of both buyers and sellers. The week's low basis in the butcher division was in effect today. Although offerings dried down and prices in sell above $7.50, slacked trading was noticed on a low basis. The market was generally steady at the week's decline. A few heavy cows sold up to $7.50 on a steady market.

WEEK'S WEATHER BENEFITS COTTON

Government Crop Bulletin Says Decided Improvement Is Seen.

WASHINGTON, May 17.—Cotton improved during the week just ended according to the national weather and crop bulletin of the weather bureau issued Wednesday. It said:

"The warmer weather that has prevailed in most of the cotton states during the week has had a very favorable effect and there is a decided improvement, except where the dry weather continued. The planting is nearly finished in the northern part of the cotton area, but much replanting is necessary and still going on. The cultivation of the crop is being carried on vigorously in most sections.

"Corn shows general improvement except in the southwestern state where it has been too dry.

"Transplanting of tobacco has been delayed by drouth in the central Atlantic coast states and Tennessee.

"Sugar cane is reported to be doing well.

"Rice seeding is about completed, except in the northern portion of the Arkansas rice district."

SAYS J. FULLER GOOM.

"The hardy sailor loves the sea,
The ranchman loves the plain
The optimist loves everything
The pessimist loves pain.
But I love guests who go away
And never come again."

—Judge.
