CHICAGO, Oct. 2.—Increasing drouth in Argentina gave a basis today for a sharp advance in wheat prices here. Dispatches from Rosario in the center of the dry district, said the effects of the long continued lack of rain were serious and that all crops were suffering. Scantiness of receipts at the domestic spring wheat terminals and at Winnipeg tended also to handicap the bears. Opening quotations, which ranged from ¼@½c higher, with December at $1.54¼@1.54⅜ and May at $1.59@1.59⅛, were followed by moderate further gains.

Guessed that foreigners were buyers both of cash wheat and future deliveries helped bulls to bring about an additional upturn. The close was strong at an advance of 2@2½c net, with December at $1.56⅝, and May at $1.59⅝.

Higher prices for corn resulted from the rallies in wheat. Fine weather failed to act as an offset. After opening ⅛c off to a shade up, the market scored advances all around.

Oats hardened in value with other cereals. Demand, although, was only of a scattered character.

Weakness in the hog market pulled down provisions. Most of the trade was in January options.

Talk of disappointing yields and of large exports led subsequently to other gains in price. The loss was firm at ⅞@⅞c to 1⅛c above Saturday's finish.

Hughes Favorite at Two to One

NEW YORK, Oct. 2.—Betting on the November election has quickened somewhat in the financial district. I. J. Stokes placed $3,250 on Wilson against $6,500 on Hughes. The Wilson backers are still trying to get odds of 2½ to 1, but are quietly accepting 2 to 1 where they cannot do better.

Edward McQuade announced today that he had $15,000 to bet on Hughes at 2 to 1.

COTTON MARKET BULGES NINETY POINTS ON REPORT

Figures on Season's Ginning Far Below Private Estimates; Much Buying.

NEW ORLEANS, Oct. 2.—The cotton market bulged fifty points on the most active months around the opening today on strenuous buying following the second report of the season on ginning from the census bureau. The figures of 4,[illegible] bales, while breaking all records, were far below the highest private estimates, which seemed to be the reason for the buying.

A trifle increased following the condition report of 58.1 percent of the normal and 16,[illegible] ginned swiftly on a demand that was hard to satisfy. Soon after the opening report the most active months were up to 92 points over Saturday's close and were at the highest levels of the season, also at the highest levels ever recorded for this time of the year. The March option traded as high as 18.[illegible]. Heavy profit-taking met the advance, for the offerings were fairly well absorbed and at noon the market was only about 20 points off from the top.

The market sagged slowly in the afternoon under liquidation. At 1 p. m. the trading months were at a net rise of 54@65 points.

Spot cotton firm, 30 points up. Sales on the spot 446, for arrival 200. NEW YORK.

NEW YORK, Oct. 2.—The cotton market had a very active and excited opening today. The census report showed 4,[illegible] bales ginned prior to September 25, which established a new high record, but local traders had been expecting even larger figures and after opening firm at an advance of 5 to 20 points, active months sold 35 to 51 points not higher within the first few minutes. Firm cables and expectations of bullish crop figures from Washington a little later in the day stimulated the demand, which carried December contracts up to 16.57c, January to 16.61c and May to the 17-cent level, with all positions marking new high records for the season.

The official crop report, making the condition 58.1, or the lowest on record, for September 25, and estimating the lint yield at 11,637,000 with average weather conditions hereafter served to further stimulate demand during the middle of the morning. January contracts sold up to 17.[illegible]c and March to 17.
