LION AND MORTAR.

WHY IS IT!

We are often asked by persons, after they have bought goods of us, why we sell our goods so low; and they suggest that if we were to ask more for the goods, we could get it, and if we did not, we could fall in price and not lose the sale.

OUR SECRET.

We will take the public into our confidence. The reason we sell gsods so low is because we buy them low, and, being men of honor, think it best to sell very cheap to draw trade. The reason we have only OUR PRICES is because we wish to put our best foot foremost. The system of falling prices may be toothsome to the buyer, but when they find that some one else has bought lower, they become embittered and seldom forget it.

The murder was committed at Kate's bagnio, No. 40, Basin street. After taking coffee in the dining room as usual, Sykes went into Kate's room. Nothing was heard until ten o'clock, when a servant heard groans. Sykes responding to inquiries said, "Miss Kate is all right." Still hearing groans, the servant threatened to call the police. Sykes then opened the door and went up stairs, remarking that he would give himself up. He did so and was taken to jail. The murderer had placed his bloody shirt in a bureau drawer and thrown a large dirk knife out the window. The servant on entering the room found the murdered woman lying across a bed. There were five wounds about her chest, each an inch and a half wide and eight inches deep. The knife had been driven to the hilt every time.
