THE Southern Pacific railroad will spend $100,000 colonizing Southwestern Louisiana and Southern Texas.

A ST. LOUIS couple chose a dry goods store in which to be married. Possibly the bride thought it was bargain day.

NEW YORK coal dealers say a storm there that would tie up railroad traffic would result in the worst coal famine ever known.

IN a Kentucky railroad wreck a mail car was jammed through the side of a restaurant. It was probably stopped by coming in contact with a pie.

OGDEN ARMOUR'S endowment of an institute of knifeless, bloodless, surgery in Chicago has very much the appearance of a $3,000,000 feather in the cap of osteopathy.

YOUNG HUNTER claims that he killed Fitzgerald in self defense. Certainly. He shot him in the back. This seems to be the Republican idea of self defense.—Lexington Democrat.

THE long-distance sporting gun has made deer hunting almost as dangerous to the hunters as too the hunted, fourteen of the former having been killed in the Northwest during the season just closed.

THE Courier-Journal never does anything by halves. It's annual Holiday Book supplement was a complete summary of current literature, beautifully and lavishly illustrated, and well worth a careful perusal.

AN Alabama negro has declined to accept a Federal office for fear of exciting the ill will of the whites. As an admirer of courage Mr. Roosevelt should congratulate himself on removing the white Republican in the South to make way for such a dusky hero.—Louisville Times.

THE old complaint come from Washington that a man elected to Congress has to wait a year before he takes his seat. But that isn't where the shoe pinches—he has to wait four months before he can begin drawing his salary for doing nothing.

HERE is something for the anti-local option people: In Louisville the other night a negro was shot at, and the bullet hit a bottle of whisky he had in his pocket, thus saving his life. On the other hand, there are instances without number where death is directly due to whisky.—Georgetown Times.

AN Ohio minister has called the young people of his congregation to task for disturbing the worship of the church with the noise of their osculations. It is evident that the pastor holds that the command to love one another does not extend to the exchange of microbes in the sanctuary.

THE Republicans have discovered at last what everybody in the south could have told them long ago—namely, that they have no shadow of a party in that region without the negro vote. In fact, there are no Republicans in the south worth mentioning but the blacks, who are held by a false claim on their gratitude. It is this belated discovery which has caused President Roosevelt to "rebuke" the "Lily White" Republicans for attempting to monopolize the federal offices in the south.—Lexington Democrat.

Forecasts For December.

The following weather forecasts for the month of December are taken from Irl R. Hick's "Word and Works:"

The center of a regular Vulcan storm period falls on the 2nd. As the month comes in the temperature will be changing to warmer in Western parts, and from 2nd to 4th, inclusive, cloudiness, with rain and snow will pass Eastwardly across the country. The cold weather sure to follow the first storm period of month will moderate on and touching the 7th and 8th, and more rain, turning to snow West and North, will pass Eastwardly across the country. On and about the 8th, general rains, with possible lightning and thunder Southward, are possible.

In all reasonable probability, a wide and general cold wave will spread over the country from about the 9th to the 12th.

A regular storm period is central on the 14th, covering the 12th to the 17th. All through this part of the month continued tendency to Winter storms will prevail, but a marked return to storm conditions, with general rain and snow, may be expected about the 19th to 21st. On the 21st these reactionary storms will culminate in possible Winter thunder, wind and rain, especially to the South, but it will be wise to look for a sudden change to snow, sleet and freezing.

The last storm period for December and the year 1902 is central on Christmas Day, the 25th. Storms for this period may have developed in Western sections by the 25th, but central and Eastern parts of the country will most likely have fair and moderate weather Christmas Day. From about Friday, the 26th, to Monday, the 29th, rain and snow will advance Eastward across the country, leaving very cold weather behind them over the most of the country as the month goes out.

HAVING raised the issue of ineligibility, the enemies of Governor Beckham are soundly berating him for meeting it successfully. It ought to be understood that neither Gov. Beckham nor his friends will leave the question of either eligibility or succession to those who are fighting him because they can not use him.—Glasgow Times.

WITHIN the past three weeks the lynchings in the North have outnumbered those in the South two to one. As a law-abiding and God fearing people, it is time for the Southern people to advise, admonish and, if need be, threaten their Northern brethren should they persist in their hellish course of punishing a negro for violating the laws of nature.—Louisville Times.
