LOCAL AND GENERAL,

—Summer leaves.

—Autumnal tints.

—Excursion to Kinzua, Saturday.

—Thanksgiving is our next national holiday.

—Only a few more weeks for the straw hat.

—The season for shooting squirrels will not open until October 15.

—Wouldn't it be nice to have a tunnel under Cunningham street.

—Mrs. Pape is having a special sale of Felt and Velvet hats, this week. See adv.

—The season at Conneaut has virtully closed, though several excursions are yet booked.

—More steel is used in the manufacture of pins than in all the sword and gun manufacturies of the world.

—The best way to get your name in print is to have the publisher of your local paper place it on his mailing list.

—The new railroad has already increased the population of Butler by several families. Sup'd't Floesh will live here.

—A country landlord, proposes to name his new house the "Sawdust Hotel," for the reason that he will furnish fine board.

—Some of the people of North Main street have a Concert de Blackbird every evening; and next morning they sweep off the feathers.

—We are in receipt of an invitation to attend the dedicatory exercises of the National Export Exposition which occur in Philadelphia at noon today.

—A nice lot of birds are flying towards Butler, but don't you scare them away by jumping the price of resting places, if you happen to own a few.

—If France does not become a hole in the ground, in the meantime, the Pittsburg News intends to send ten teachers to the Paris Exposition. See Notice to Teachers.

—An 8-year-old boy died of lockjaw in one of the suburbs of Pittsburg last week, and his death was, at first, attributed to vaccination, but the physicians think differently.

—On account of Exposition Park closing Friday, September 15th for the season of 1899, the P. B. & L. E. R. R. will discontinue train service to the Park after that date.

—Coroner Jones would like to know where Harry D. Patch is. He left his home in Wilmerding some days ago, is 15 years of age, has dark hair and complexion, and a scar on his nose.

—White-lead is made from ordinary pig-lead; which is first corroded by immersion in acetic acid for four months, and then ground, and otherwise prepared for market. The principal lead mines in the United States at present are in Missouri and Wisconsin.

—A woman blocked Fifth Ave., Pittsburg, one day last week, by putting a large doll in a coffin, and placing it in her show-window, with the sign "This darling died from drinking soda-water." Everybody stopped to look at it, and the police had to disperse the crowd

—There is some talk of the Penn'a Co. bettering the grades on the Branch, and building a line through Butler and the western part of this county, and Lawrence county, to connect with its western lines. It is said that this would save hauling through freight between N. Y. and Chicago, sixty miles.

—During the great flood of 1889 a small apple tree floated into the court house yard in Lock Haven and lodged at the south end of the building in an upright position. It took root and grew rapidly and is now quite a large tree. This year it is loaded with fruit until its branches are bending. The apples are large and fine looking.

—The jury in the case of Com. vs Hiram Christy charged with aggravated assault and battery by Harvey Heenan let a verdict of guilty be returned. Some of the jury thought they were convicting him of simple assault and battery and tacked provisions as to costs onto the verdict. Wednesday morning the jury was called before the bar and asked by the Court what they wished to convict Christy of and although some said guilty of agg. a&b and others of simple a&b, the verdict was taken as being of the former. The difference is that a&b is punishable by not more than one year's imprisonment while agg. a&b by not more than three year's imprisonment. It was the duty of some of those jurymen to speak up if they did not want the verdict for the more serious offence to stand.

One Way to Kill a Snake

Just how this beautiful young woman killed the venomous snake forms an interesting description in John Mackie's charming story

They That Sit in Darkness

It is a story of the Australian Never-Never. It is full of exciting incident and at the same time supplies a great deal of information about the romantic life of the adventurous people who sought fortunes in tropical Australia. John Mackie wrote "The Devil's Playground" and "Sinners Twain," both interesting stories. This is another.

"They That Sit in Darkness" will appear in installments in this paper.

NATIONAL EXPORT EXPOSITION, PHILADELPHIA

The National Export Exposition, which opens at Philadelphia on September 14 and continues until November 30 will be the most interesting and important event occuring in Philedelphia since the Centennial Exhibition of 1876. In addition to its valuable commercial exhibits it will present many features of popular interest and amusement. The United States Marine Band, Sousas Band, the Banda Rossa, Innes' Band, Damrosch's Orchestra, and other celebrated bands will furnish music alternately, and a Midway Plaisance, equal if not superior to the famous World's Fair Midway at Chicago, and comprising a Chinese Village, a Chinese Theatre acrobats, and customs; an Oriental Village, London Ghost Show, Hagenbeck's Wild Animal Show, Blarney Castle, and many other unique presentations will furnish abundant and diversified amusement. Arrangements have also been made for Mandolin, Guitar, and Banjo Concerts, and for a grand chorus from the German Singing Societies.

For this occasion the Pennsylvania Railroad Company will sell excursion tickets from all points on its line, to Philadelphia and return, at rate of a fare and a third for the round trip plus price of admission. These tickets will be sold during the continuance of the Exposition and will be good for return passage until November 30.
