The Coming Primary.

The Republican primary for this county will occur next Saturday a week, between the hours of 1 and 7 p.m., and it is to be hoped that the ticket nominated will be a fair expression of the sentiment of a majority of the Republicans of the county. Every Republican in the county should go to the polls, that day, and select his candidates, with due regard to their merits as citizens and desserts from the party.

Ever since this campaign began, however, there have been rumors of a "combine" of certain candidates for each office to nominate themselves; and it is a pity that such a disturbing element has been introduced into a campaign that should be conducted in the utmost fairness and good nature.

Another matter is the use of money to secure a nomination. That is being, and should be, discountenanced all over the state. Nominations secured by buying up the "ward-heelers" or precinct "workers" of the town and county have heretofore passed unquestioned; and as the "workers" and the men who sell them their franchises are joint criminals it is next to impossible to secure evidence against them, but it is high time for our County Committee to provide some remedy against the practice.

An effort is now being made here to secure control of the next County Committee, for factional purposes, but if the Republicans of each district elect a representative and independent man for Return Judge this cannot be done, and the convention will have no trouble securing a competent and worthy chairman from its own membership.

HARRISBURG.

Saturday last was the last day for the Governor to sign or veto the bills left by the Legislature in his hands, and on that day he changed items in the General Appropriation bill amounting to $977,320, bringing the total for the ordinary running expenses of the state government, including the Public Schools, down to $16,500,000.

On Friday he cut a few millions off the appropriations for the penitentiaries, hospitals and charitable institutions (reducing the Butler Hospital from $20,000 to $10,000) but the aggregate figures were not given. The aggregate of all his cuts on all the appropriation bills is between eight and nine millions.

He vetoed 123 of the bills left in his hands and signed the rest.

He vetoed the bill for a $4,000 monument to Gen. St. Clair, who was president of the Continental Congress that adopted the legislation to enforce the Federal Constitution. The veto was also applied to the bills appropriating $2,000 for a monument to Molly Pitcher, the heroine of the battle of Monmouth, whose burial place in the old cemetery at Carlisle the patriotic societies of the state asked be marked with a modest monument; $9,500 for a monument to Gen. Geary; $10,000 to mark the resting places of Gen. Hancock and Gen. Hartranft, and $10,000 for a monument to ex-Gov. Pollock; but signed the bill appropriating $22,000 for a monument to M. S. Quay on the Capital grounds.

The Governor had, it was said, intended to cut the appropriation for the Harrisburg hospital, but the excellent work of the institution after the railroad wreck Thursday morning induced him to change his mind.

At the Republican primary of Armstrong county last Saturday, the Heiner faction was successful over the McNees faction, nominating all its men—Williamson, Ashe, Black, Meales, Stone, Crawford and Oliver.

At the primary in Beaver county nearly twelve thousand votes were polled on account of the "Judge fight" and Martin won over Holt. For the county offices Harvey, Mitchell, Peacock, Sturgeon, Patterson, McKibben, Gormley, Swaney and White are the nominees.

THE Russian fleet is yet sojourning off the coast of Cochin-China, in Kamranh and Honkohe bays—going out for target practice every morning and going back at night.

During the past month it has consumed 130 tons of coal, and the Japs are wondering where it is all coming from.

Our government has received "official information" that the Jap fleet under Togo has been assigned to the defense of Japanese ports—which may mean that the Japs have decided that the Russians must make the attack, but at the same time they are showing great irritation over the prolonged stay of the Russian fleet in waters claimed by the French.

In Manchuria the Jap army is again reported to be preparing to take the offensive.

THE RAILROAD HORROR.

No great railroad of this country is better equipped or more carefully managed than is the "Pennsylvania"; it has four tracks between Pittsburg and New York, has the block-system to prevent collisions, and has adopted all the best safeguards and most approved methods; and yet, it was the scene of the most appalling disaster, last Wednesday night, that has startled this nation for many a month—one that will probably lead to legislation regarding the transportation of explosives, new regulations regarding the make-up of trains, and the adoption of a safer method of lighting passenger cars; and which will cost the company hundreds of thousands of dollars.

The accident and the calamity that followed happened on the banks of the Susquehanna, just below Harrisburg.

At about 1:30, o'clock that night, an unusually long freight train, going East, was flagged by a shifting engine on the same track, and which was pushing some freight cars into the yard there. The engineer of the freight applied the air-brakes, but an air hose near the middle of the long train exploded, which left the front end of the train locked, but unlocked the rear end, and the impact of the rear cars upon the front ones, derailed two of the middle cars of the train and threw them across the passenger tracks.

A moment later the Cleveland & Cincinnati Express going west and composed of two or three baggage cars and several Pullman sleepers, and running at high speed, crashed into the wrecked cars, and came to a standstill within the length of itself—the impact throwing the sleeping passengers from their births, and rupturing or causing to leak the numerous gas-tanks under the Pullmans, which supply the Pintsch lights.

The collision was followed by a tremendous explosion—one that shook the city and surrounding country—that demolished the cars within its range, and set fire to the wreckage—one of the wrecked cars contained twenty-thousand pounds of blasting powder, and it had exploded. The fire followed the leaking gas under the Pullmans and one after another the gas tanks or reservoirs exploded, wrecking the cars; killing, wounding and imprisoning the passengers, setting fire to the wreckage, and burning the cars and passengers. Ten charred and unrecognizable bodies were taken from under the twisted irons and the ashes of one burned car.

The dazed and half raked passengers who managed to escape from the broken and burning cars, had to stand there helpless and see their late companions, caught in the wreck being burned to death. Twenty-three people were either killed out-right, burned to death or died of their injuries, and many injured. Four prominent men of Pittsburg were among the killed. The disaster will be thoroughly investigated.

Many of the passengers escaped from the cars before the explosion of the powder, but these were all hurt by the mighty concussion that followed. People in the cars that were not damaged by the explosion began to dress hurriedly. Some of them were partially dressed, when there came a series of smaller explosions from the death-dealing gas tanks.

The gas tanks blew up one after another as the flames which enveloped the wreck reached the leaking gas. The floors of the cars rose, the roofs parted and the cars settled to the tracks a mass of broken timbers and twisted and bent iron.

Those who escaped saw fellow-passengers pinioned in the wreckage, but fear of further explosions and the fierce heat of the flames prevented them from rescuing any of the victims. None of the fortunate ones had any protection from the night air and became chilled. Those who escaped after the first explosion were almost made naked by the concussion of the second.

Within a few hundred feet of the scene of the accident is the Paxtang Electric works. The explosion wrecked every window in the building. The clock in the dynamo room stopped at 1:30, which sets definitely the hour of the wreck.

The frightened passengers ran about like persons crazed. The river showed dimly in the darkness and all rushed for it.

The force of the explosions blew all the windows and doors out of Lochiel row, which is a number of tenement houses a few hundred feet away from the wreck. These houses are inhabited by negroes, foreigners of many nationalities and poor Americans, who work in the furnaces nearby and at Steelton. These poor people, who were blown from their beds by the explosion, did heroic service giving first aid to the sufferers All they had was gladly given to cover the victims of the wrecked train.

The men carried some of the wounded into their homes. Others carried the injured into the electric light plant, which for a time was turned into a temporary hospital. The place where the wreck occurred is isolated and it was some time before word could reach Harrisburg and physicians could be called out.

The women in Lochiel row, some of whom gave their dresses to cover their unfortunate sisters, ministered to the wounded as they were brought into their homes. Their bedclothing was torn into bandages and their heavy quilts given to cover those without clothing. By the time the physicians arrived the injured had been taken care of in some crude manner.

SINCE the tornadoes and cyclones of last week the people of Oklahoma have been digging cyclone-cellars. Five thousand of them were dug in the "New Country" last week.

THE Corner's Jury in the Harrisburg railroad horror says the wreck was unavoidable, under present conditions, and that the car of powder was exploded by the blaze started by the wrecked engine. The day will probably come when the great trunk railroads will have separate and distinct roads, not lines, for passenger and freight services.

The Critical Periods in a Woman's Life

Are When the Change Comes From Childhood to Womanhood and Later When the Organs of the Pelvic Region Cease Their Work.

DR. A. W. CHASE'S NERVE PILLS.

When the child changes from girlhood to womanhood and again later in life when the organs of the pelvic region cease their work, there is a strain thrown upon the nervous system, that requires outside aid that there may be supplied a proper amount of additional strength and resistive power. This Dr. A. W. Chase's Nerve Pills do to a certainty by their ability to supply to the nervous system and the organs affected, an amount of nerve strength and energy that enables them to accommodate themselves rapidly and easily to the changes taking place.

Mrs. Julia Rowland, of No. 264 Pearl St., Buffalo, writes:

"Both myself and daughter, aged 17, are deeply indebted to Dr. A. W. Chase and his Nerve Pills. They certainly are a grand tonic to the nerves. I used them about a year ago, to give me the strength and vitality to go through the ordeal that usually comes to woman at change of life, and found all the nervousness, crying spells and weakness disappear in a hurry. This led me to give them to my daughter about the time she began to have the endless trouble some girls do in early life, and the medicine acted equally as well with her. She grew strong and steady—the color became good—the languor and lassitude disappeared and she was able to go about her school duties as usual. I consider the Dr. A. W. Chase Nerve Pills unequaled as a nerve and general tonic in such cases and gladly recommend them to others who suffer in a similar manner."

50 cents a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M.D., on every package. For sale by Redick and Grohman, druggists, 109 N. Main St. Butler, Pa.

THE GUSHER.

The oil well on the Waldron place, west of Butler, was agitated Monday evening, when the production again ran up to about 100-bbls. an hour, and it was said to be doing 70 bbls. an hour, yesterday. Leases have been taken all around the well, and about a dozen rigs are up and building, with one or two wells already spudding. Considerable money has changed hands for leases. The highest figure paid for a lease was by the Associated Producers Co., $11,000 for 40 acres of the S. Barrickman heirs. The T. W. Phillips' Gas and Oil Co. had leased the other 10 acres of the place before the McBride well came in for $100. T. N. Barnsdall leased Waldron's remaining 50 acres, north of the McBride lease, for $5000. W. G. Donthett secured the first lease in the field after the well was struck 30 acres from Andrew Lemmon for $1000, McBride & Co. have the remainder. Of the Levi Hoon farm now owned by Jacob M. Painter two-thirds, and Rainey Hoon, one-third, 20 acres were leased to William Walker for $1700 and 48 acres to John A. Snee of Pittsburg for $4500. The farm cost Painter and Hoon $2760. Eisler & O'Brien leased part of the John Harding place, south of the gusher, and have a well started, McBride & Co. already had a lease on part of this place. The Ihmsen heirs farm, east of the Waldron-Ebmer, has practically been leased to John G. Jennings and his brothers; the figure is up in the thousands. McBride & Co. hold the C. Duffy place, northwest of their gusher. Jas. McClung leased 20 acres from A. O. Eberhart adjoining the old campmeeting ground for $650. T. A. Frazier has leased 20 acres off the McConnell farm and 20 acres from David McGowan. E. H. Jennings & Co. are said to have paid $4500 for a 50 acre lease on the Samuel Schelgel farm, west of the Waldron. Fifty acres of the Jacob Miller heirs, (Levi, Henry, Eli and George Miller) were leased Tuesday for $1400 and on Wednesday 50 acres more for $1800; John A. Snee is the lessee. Dr. Atwell and Harry Stauffer leased 25 acres of the A. O. Eberhart farm for $500. Adam Hoffner has leased the Schlegel heirs farm. Dr. Atwell has leased part of the William Miller heirs (Wilson and Henry Miller) farm. Jos. Clinton and Geo. Schaffner, Jr., have leased the Kennedy place of 30 acres (old campmeeting ground) for $500.

Last evening Gil Moser, Prof. Grohman and Mark Heck secured a forty-acre lease on the W. J. Gruver farm, southwest of the Waldron for $1200

Obituary.

Hiram Cronk, the last survivor of the war of 1812, died at his home at Dunnbrook, N. Y., at the age of 105. He died from old age, simply wasting away.

Mr. Cronk celebrated his one hundred and fifth anniversary last month. He was born in the town of Frankfort, Herkimer county, N. Y., April 29, 1800, and spent his early childhood in Wright settlement, near the present city of Rome. When Hiram was about 15 years of age, his spirit was aroused over the second war with England and he, with his father and two brothers, John and Jeptha, enlisted in the United States army and went to Sackett's Harbor.

So well did he carry himself that Capt. Davis declared if he had a regiment of such soldiers as Hiram he would take it to Canada and fight the enemy on his own ground. After hostilities ceased, Hiram returned home and became an itinerant shoemaker. At the age of 25 he met and married Mary Thornton and for 60 years they lived happily, she dying in 1885. Six children were born to them.

Nearly half a century ago Mr. Cronk became feeble and the board of pensions awarded him $12 a month.

Thomas Bishop, author of "John Brown's Body," "When Johnny comes Marching Home" and many other songs died at his home in Philadelphia, Monday.
