## JOIN TODAY.

The pick of the Nation is being called to paid service. Industry will be drained and non-essential fixed responsibility will be unknown. It is not the purpose of the Government to make this a large reserve at home—but if such a force is not imperative.

Home guard organizations observe the general directions of those men who do not come under the draft, and those men who are under the draft can gain a knowledge of arms and tactics in drill. The Corpus Christi Home Guard is composed of upright men who are neither too lazy nor indifferent to respond to the duty when men from all callings. It is only a handful, but it is determined.

The Corpus Christi Home Guard needs one hundred more men. The Corpus Christi Home Guard offers slackers no reward, nor does it offer blood to nourishment. There is health in exercise and happiness in the sense of service. Moreover, the Corpus Christi Home Guard may be called upon to do its bit at any moment.

with operations. But there is no telling when will happen before food falls. The Germans may hold, or thunder may seize them. Very little is known of internal affairs in Germany. It is evident that Ludendorff will strive for a victory at some point along the line, because the German morale wavers. But there is reason to believe that Ludendorff cannot bring enough men to bear at any point to achieve success. And there you are.

In 1919 Japan will have a million men in Russia. Perhaps Russia is sold of it, but Japan is not the nation to undertake things by halves, and Japan is more aware that material benefits will follow her manifest adherence to the principles of the Allies. With a new Eastern front, and American forces in Italy to help shove the Austrians back, through Alpine mountains, rapid progress may be expected. General Marsh's optimism is surrounded. If Germany fights after next year, Germany will fight alone, surrounded by a wall of bayonets, and a part of that wall will be composed of Spanish bayonets.

# OLDSMOBILE

THE WAR INDUSTRIES Board will in all probability, sanction a production of passenger automobiles this year to the extent of 25 per cent of last year's production, thereby curtailing production 75 per cent.

This is the direct result of a conference between the National Association of Automobile Dealers and the Government War Industries Board, and lets at rest the alarming reports emanating from Washington newspaper correspondents that the industry must come to a full 100 per cent war basis.

Nueces County is engaged IN PICKING THE BIGGEST COTTON CROP IT EVER RAISED. That means that the demand for automobiles will be greater than ever, but, with a curtailment of 75 per cent in manufacture, it must be apparent to everyone that there will not be enough cars to go around.

Cotton prices are higher because of decreased production and the Laws of Commerce are that the scarcer an article becomes, the higher is its price, and automobiles are not exceptions.

The automobile is no longer a luxury, time was when it was the plaything of the wealthy class, but a car is now as necessary to the farmer as his plow and cultivator.

OUR MR. CHARLES IS IN CORPUS CHRISTI to give you the opportunity of securing absolutely the best car in its price class that the world has ever produced, a car economical to own, economical to operate and at a price you can afford to pay.

Present prices cannot be guaranteed for a week—not even a day—for when we receive advices from the factory that an advance has gone into effect, our prices are automatically changed to correspond.
